£110,000,000 7.25 PER CENT. FIXED RATE SECURED NOTES DUE 2038
(to be consolidated and form a single series with the $£ 275,000,0007.25$ per cent. Fixed Rate Secured Notes due 2038)

## ISSUE PRICE: 126.779 PER CENT,

(plus 11 days' accrued interest in respect of the period from and including 12 November 2010 to but excluding the Series Closing Date (as defined below) at the rate of $\mathbf{7 . 2 5}$ per cent. per annum)

The $£ 110,000,0007.25$ per cent. Fixed Rate Secured Notes due 2038 (the New Notes) are issued by Circle Anglia Social Housing Plc (the Issuer).

The New Notes have the same terms and conditions as, and will be consolidated and form a single series and rank pari passu with, the $£ 275,000,0007.25$ per cent. Fixed Rate Secured Notes due 2038 (the Existing Notes and, together with the New Notes, the Notes) issued by the Issuer on 12 November 2008.

This Prospectus has been approved by the Central Bank of Ireland (the Central Bank), as competent authority under the Prospectus Directive 2003/71/EC. The Central Bank only approves this Prospectus as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive 2003/71/EC (the Prospectus Directive). Application has been made to the Irish Stock Exchange (the Irish Stock Exchange) for the New Notes to be admitted to the Official List (the Official List) and trading on its regulated market. The Irish Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive 2004/39/EC.

The net proceeds from the issue of the New Notes (including the sum equivalent to 11 days' accrued interest (the Accrued Interest)) will be advanced by the Issuer to Circle Anglia Treasury Limited (the Group Borrower) pursuant to a Loan Facility Agreement (the Loan Facility Agreement) constituted by the Amended and Restated Loan Transaction Terms between the Group Borrower and the Issuer to be dated on or around 23 November 2010 (the Series Closing Date) and the Group Borrower will in turn on-lend such funds to certain borrowers within the Circle Anglia Group under an On-Loan Agreement between the Group Borrower and such borrowers.

Interest on the New Notes is payable in equal semi-annual instalments in arrear on 12 November and 12 May in each year at the rate of 7.25 per cent. per annum, the first payment (in respect of the period from (and including) 12 November 2010 to (but excluding) 12 May 2011) to be made on 12 May 2011, as described in Condition 7 (Interest). Payments of principal of, and interest on, the New Notes will be made without withholding or deduction on account of taxes to the extent described in Condition 10 (Taxation).

The Notes may be redeemed at any time prior to 2038 upon the prepayment by the Group Borrower of the loan (the Loan) in accordance with the terms of the Loan Facility Agreement at the higher of their principal amount and an amount calculated by reference to the yield on the relevant outstanding sterling United Kingdom government gilts having the nearest maturity date to that of the Notes, together with accrued interest (or, in respect of a prepayment of the Loan following an event of default thereunder, at their principal amount, together with accrued interest).

It is expected that the New Notes will be rated Aa3 by Moody's Investors Service Limited. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating organisation.

The New Notes will initially be represented by a temporary global Note, without interest coupons, which will be deposited on or about the Series Closing Date with a common depositary for Euroclear Bank SA/NV and Clearstream Banking, société anonyme. Interests in the temporary global Note will be exchangeable for interests in a permanent global Note, without interest coupons, on or after 2 Janauary 2011, upon certification as to non-U.S. beneficial ownership. Interests in the permanent global Note will be exchangeable for definitive Notes only in certain limited circumstances.

## 8. VALUATION REPORTS AND VALUER'S INFORMATION

Valuation reports in relation to the Charged Properties relating to the Series are set out in the section "Valuation Reports" below.

The Valuer has consented to the inclusion of the Valuation Reports in this Prospectus.
Valuer's name and organisation: Savills (L\&P) Limited
Qualifications: Registered Chartered Surveyors
Business address: 37-39 Perrymount Road Haywards Heath West Sussex RH16 3BN
Material Interest in Issuer (if any): Not Applicable

The Valuation Reports were prepared by Savills L\&P Limited of 37-39 Perrymount Road, Haywards Heath, West Sussex RH16 3BN, Registered Chartered Surveyors (the Valuer). The Valuation Reports are included in this Prospectus, in the form and context in which they are included, with the consent of the Valuer and the Valuer has authorised the contents of the section entitled "Valuation Reports".

The Valuer has no material interest in the Issuer.
The information in the Valuation Reports has been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by the Valuer, no facts have been omitted which would render the reproduced information inaccurate or misleading.

## LOAN AGREEMENT FINANCIAL COVENANTS

Definitions used in this section but not otherwise defined in this Prospectus have the meanings given to them in the Loan Facility Agreement.

## Loan-to-Value Test

Pursuant to the Loan Facility Agreement, the Group Borrower has covenanted with the Issuer to ensure, from the date of the Loan Facility Agreement until all amounts due from the Group Borrower to the Issuer under the Loan Agreement have been paid in full, that, inter alia, the aggregate of:
(a) the Minimum Value of the SAB Charged Properties; and
(b) the aggregate amount of any cash in the Charged Accounts, is not less than the Loan (the Loan-to-Value Test).
"Minimum Value of the SAB Charged Properties" means, in respect of each Series unless otherwise specified in the Final Terms:

$$
\left(\frac{A}{105}+\frac{B}{125}\right) \times 100
$$

where:
$A=$ the Value of the $S A B$ Charged Properties which have been charged as security for the Group Borrower's obligations pursuant to the Loan Facility Agreement for such Series for which a Guarantor has selected Valuation Basis II; and
$B=$ the Value of the SAB Charged Properties which have been charged as security for the Group Borrower's obligations pursuant to the Loan Facility Agreement for such Series for which a Guarantor has selected Valuation Basis I.

## Initial Security

The Charged Properties to be specifically apportioned to the Issuer, as at the Series Closing Date of the New Notes, as security for the Group Borrower's obligations to the Issuer pursuant to the Loan Facility Agreement are set out in Part B of the Series Terms above. However, in accordance with Clause 2.7 (Conditions Precedent for new Charged Properties) of the Loan Facility Agreement Standard Terms, these Charged Properties shall not be taken into account in determining the Group Borrower's compliance with the Loan-toValue Test unless and until the Issuer shall have notified the Group Borrower of it being satisfied as to the delivery of the Legal Charges Conditions Precedent Documents set out in Schedule 3 to the Loan Facility Agreement Standard Terms in respect of such Charged Properties.

In respect of the Charged Properties which have been allocated to the Issuer as underlying security for the Existing Notes, the Issuer has notified the Group Borrower of it being satisfied as to the delivery of the Legal Charges Conditions Precedent Documents. In respect of the additional Charged Properties which will be allocated to the Issuer as underlying security for the Notes on the Series Closing Date of the New Notes, it is anticipated that the Legal Charges Conditions Precedent Documents will be available to the Issuer as at the Series Closing Date of the New Notes.

It is anticipated that the properties listed in the section entitled "Further Properties to be Apportioned to the Issuer" will be specifically apportioned to the Issuer as underlying security for the Notes shortly after the Series Closing Date of the New Notes, subject to satisfaction of the Legal Charges Conditions Precedent Documents in relation to those properties.

## Gearing Test

The Gearing Test is determined by reference to the latest audited financial accounts of the Guarantors and SORP; the Gearing Test is met when the aggregate Financial Indebtedness of the Guarantors does not exceed the Financial Indebtedness Percentage of the aggregate Net Worth of the Guarantors (the Gearing Test).

## Interest Cover Covenant

Pursuant to the Loan Facility Agreement, the Group Borrower has covenanted with the Loan Facility Provider to ensure that (a) the aggregate of the Adjusted Operating Surplus of all the Guarantors, determined by reference to the Guarantors' most recent audited financial accounts divided by the Net Interest Payable in relation to the same financial year (expressed as a percentage) shall not be less than 90 per cent.; and (b) the aggregate of the Adjusted Operating Surpluses of all the Guarantors, determined by reference to the Guarantors' audited financial accounts for each financial year during each successive period of three financial years, divided by the aggregate of the Net Interest Payable for each financial year during the corresponding period for each of three financial years (expressed as a percentage) shall not be less than 105 per cent. (the Interest Cover Test).

## Auditor's Letter

In circumstances when the Gearing Test or the Interest Cover Test, as the case may be, is breached, the Group Borrower shall procure that the Guarantor's auditors shall provide to the Loan Facility Provider and the Note Trustee as soon as practicable but in any event not later than the earlier of 180 days after the end of the relevant accounting period and one week after the date of the auditors' report on the accounts in respect of such period, a certificate or report confirming the results of the Gearing Test or the Interest Cover Test, as the case may be, shown by reference to the audited accounts and that in the auditors' opinion the breach will not adversely affect the ability of the Guarantors to perform their obligations under the Deed of Guarantee and that taking into account the Guarantors' business as carried on since the end of such relevant accounting period and having regard to the level of reserves of the Guarantors and their projected or expected expenditure and business over the period of 12 months following the date of the auditors' opinion, the Guarantors will be able to meet their obligations under the Deed of Guarantee over such period of 12 months.

## Breach of the Loan Agreement Financial Covenants

Breach of the Loan-to-Value Test (if such breach is not remedied within the applicable grace period), the Gearing Test or the Interest Cover Test (and, in each case, a failure to deliver an auditor's letter as described above) constitute Loan Events of Default under Clause 15.3 (Breach of Financial Covenants) of the Loan Facility Agreement Standard Terms.

# ADDITIONAL TERMS RELATING TO THE FURTHER ADVANCE AND THE ACCRUED INTEREST ADVANCE UNDER THE LOAN FACILITY AGREEMENT 

The Issuer and the Group Borrower shall, on the Series Closing Date, amend and restate the Loan Transaction Terms relating to the Series to reflect the Further Advance and the Accrued Interest Advance to be made by the Issuer to the Group Borrower out of the issue proceeds of the New Notes.

The following description of the amended and restated Loan Transaction Terms consists of a summary of certain provisions of the amended and restated Loan Transaction Terms and is qualified by reference to the detailed provisions thereof. The following summary does not purport to be complete and prospective investors must refer to the amended and restated Loan Transaction Terms for detailed information regarding the amended and restated Loan Transaction Terms.

Terms used in this section but not otherwise defined in this Prospectus have the meanings given to them in the amended and restated Loan Transaction Terms.

## Further Advance and Accrued Interest Advance

Subject to the Conditions Precedent Documents being received and the conditions for an advance to be made being satisfied in accordance with the Loan Facility Agreement on the Series Closing Date in respect of the New Notes, the Issuer shall advance the Further Advance (being an advance in the principal amount of $£ 110,000,000$ ) and the Accrued Interest Advance (being an advance in a principal amount equal to the Accrued Interest) to the Group Borrower on the Series Closing Date.

The Group Borrower has acknowledged that the New Notes will be issued at an issue price of 126.779 per cent. and, consequently, the gross issue proceeds of the New Notes will be greater than the principal amount of the Further Advance. The Group Borrower and the Loan Facility Provider have each agreed that the Further Advance will be advanced at a premium in an amount equal to the Actual Advance Amount (being the principal amount of Further Advance multiplied by 126.779 per cent.) and any difference between the principal amount of the Further Advance and the Actual Advance Amount shall be ignored in determining the amount of the Loan and, inter alia, the calculation of interest, principal and premium payments in respect thereof.

## Interest

Interest in respect of the Further Advance Amount will accrue from 11 November 2010, provided, however, that in respect of the Payment Date immediately following the Series Closing Date, the amount of interest payable on the Further Advance Amount shall be reduced by an amount equal to the Accrued Interest Advance Amount.

The Accrued Interest Advance Amount shall not bear interest.

## Repayment of the Accrued Interest Advance

The Final Maturity Date in respect of the Accrued Interest Advance Amount is the Payment Date immediately following the Series Closing Date in respect of the New Notes.

## Series Closing Date

References to "Series Closing Date" in the Loan Facility Agreement shall be read and construed in respect of the following provisions of the Loan Facility Agreement Standard Terms as references to the Original Series Closing Date:
(a) the definitions of Anniversary, Interest Determination Date, Loan Interest Period, Dealer Agreement, Valuation Basis I and Valuation Basis II;
(b) Clause 2.3 (Loan Facility Provider to be Guarantee Beneficiary); and
(c) Clause 2.4 (Loan Facility Provider to be Security Beneficiary),
and shall otherwise be read and construed as references to the Original Series Closing Date and/or the Series Closing Date in respect of the New Notes, as applicable.

DRIVERS JONAS SUPPLEMENTARY REPORT DATED $5^{\text {TH }}$ JUNE 2009: 924 UNITS OF TENANTED AND SHARED OWNERSHIP HOUSING IN HERTFORDSHIRE, NORFOLK, ESSEX AND SUSSEX (THE "SUPPLEMENTARY REPORT")

## 1. SCOPE OF THIS REPORT

1.1 We provided valuations in the Original Report in respect of the properties listed therein (the "Original Properties") as at $12^{\text {th }}$ November 2008 for the purpose of the issue of the Existing Notes. Drivers

SGS

Jonas provided valuations in the Supplementary Report in respect of the properties listed therein (the "Supplementary Properties") as at $5^{\mathrm{th}}$ June 2009. We understand that the New Notes to be issued by the Issuer will be secured by, inter alia, an allocation of charged properties from a shared security pool. The holders of New Notes will share their security with the holders of the Existing Notes and will share in the security for the Existing Notes. Consequently, we have been instructed to:
(a) confirm whether there have been any material changes in respect of the valuations set out in the Original Report and the Supplementary Report in respect of the Original Properties and Supplementary Properties as at 22 November 2010; and
(b) confirm the aggregate valuations of the Properties (as defined below).
1.2 This Report is issued for the benefit of the addressees and for inclusion in the Prospectus dated the date hereof (the "Prospectus").for the New Notes to be issued by the Issuer and may only be used in connection with the transaction referred to in this Report and for the purposes of the Prospectus.
1.3 We hereby give consent to the publication of this Report within the Prospectus and accept responsibility for the information contained in this Report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this Report is in accordance with the facts and does not omit anything likely to affect the import of such information.
2. CONFIRMATION REGARDING THE VALUES OF THE ORIGINAL PROPERTIES AND SUPPLEMENTARY PROPERTIES

We confirm that the valuations have been revised and updated based on the rental information and referring to those units now included, set out at Appendix 2.

## 3. STOCK RECONCILIATION

The Original Report listed 4423 units and the Supplementary Report listed 924 units. Since the original and supplementary valuations 42 units have been removed from charge. This leaves the total of 5305 units listed at appendix 2 ( the "Properties").

## 4. SUMMARY OF AGGREGATE VALUATIONS MV-STT AND EUV-SH

Dear Sirs
REPORTING COMPANY: SAVILLS (L\&P) LIMITED
VALUATION OF HOUSING STOCK RELATING TO THE ISSUE OF £110,000,000 7.25 PER CENT. FIXED RATE SECURED NOTES DUE 2038 (THE "NEW NOTES") BY CIRCLE ANGLIA SOCIAL HOUSING PLC (TO BE CONSOLIDATED AND FORM A SINGLE SERIES WITH THE £275,000,000 7.25 PER CENT FIXED RATE SECURED NOTES DUE 2038)

701 UNITS OF CIRCLE THIRTY THREE HOUSING TRUST LIMITED ("CIRCLE 33") HOUSING STOCK

## 1.0

## INTRODUCTION

1.1 This Valuation is required in connection with the proposed issue by the Issuer of the New Notes (which are to be consolidated and form a single series with the $£ 275,000,0007.25$ per cent. Fixed Rate Secured Notes due 2038, together with the New Notes, the "Notes").
1.2 Further to instructions received from the Circle Anglia Group ("Circle Anglia") in September 2010 to value the portfolio in order to assess its level of security, we now have pleasure in reporting to the above addressees.
1.3 In completing this exercise, we have: a) agreed a full set of property schedule data with Circle Anglia; b) discussed details as to our approach and methodology; and c) completed our own inspections, research and analysis.
1.4 The above has enabled us to arrive at the valuation assumptions which have enabled us to carry out our valuations and final reported figures herein.
1.5 Basis of Valuation

We have been instructed to provide the following valuations:
The Existing Use Value - Social Housing (EUV-SH) of the freehold or long leasehold interest in the properties for loan security purposes.

The Market Value subject to tenancies (MV-STT) of the freehold or long-leasehold interest in the properties for loan security purposes where appropriate in respect of the properties.

We will also provide the Market Value Assuming Vacant Possession of the properties for information purposes only. This is not a suitable valuation on which to base lending.

Existing Use Value - Social Housing is defined by the Royal Institution of Chartered Surveyors ("RICS") as:-
"The estimated amount for which a property should exchange, on the date of valuation, between a willing buyer and a willing seller, in an arm's-length transaction, after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion, subject to the following further Assumptions that:
i) the property will continue to be let by a body pursuant to delivery of a service for the existing use;
ii) at the valuation date, any regulatory body, in applying its criteria for approval, would not unreasonably fetter the vendor's ability to dispose of the property to organisations intending to manage their housing stock in accordance with that regulatory body's requirements;
iii) properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession; and
iv) any subsequent sale would be subject to all of the above Assumptions."

Market Value is defined by the Royal Institution of Chartered Surveyors as:-
"The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion".

## General Assumptions and Conditions

All our valuations have been carried out on the basis of Savills' General Assumptions set out in Appendix 2 of this report.

### 1.7 Date of Valuation

Our opinions of value are as at the date of this report, using property schedule data supplied to us. The importance of the date of valuation must be stressed as property values can change over a relatively short period of time.

## Purpose of Valuation

This Valuation is required for loan security purposes in connection with the proposed issue by the Issuer of the New Notes.

This report is issued for the benefit of the addressees and for inclusion in the Prospectus for the New Notes to be issued by Circle Anglia Social Housing plc and may only be used in connection with the transaction referred to in this report and for the purposes of the Prospectus.

We hereby give consent to the publication of this report within the Prospectus and accept responsibility for the information contained in this report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this report is in accordance with the facts and does not omit anything likely to affect the import of such information.

### 1.9 Conflicts of Interest

We are independent valuers and not aware of any conflict of interest in respect of the properties which are the subject of this report (the "Properties") or Circle 33 or the Issuer preventing us from providing you with an independent valuation of the Properties in accordance with the RICS Red Book.

### 1.10 Valuer Details and Inspection

In accordance with the RICS Red Book, we confirm that this report has been prepared by M Sale BSc (Hons) MRICS who has relevant experience to report on this property type. Savills carried out external and sample internal inspection of the stock between $15^{\text {TH }}$ September and $8^{\text {TH }}$ October 2010. Following inspection, market research and comparable sales and lettings evidence was compiled enabling us to build up a detailed knowledge of the location concerned, the situation of the housing stock and marketability. We have considered the general condition of the stock, the level of fixtures and fittings and have derived our assumptions accordingly.

### 1.11 Enquiries and Information Sources

We have been provided by Circle Anglia with a schedule of the properties detailing the addresses and rents/target rents as set out in the property schedules incorporated in Appendix 1. The extent of the enquiries we have undertaken and the sources of the information we have relied upon for purposes of our valuation are stated in the relevant sections of our report below.

We have also reviewed the final form Certificate of Title for the portfolio issued by Devonshires Solicitors dated on or about the date of this valuation report and can confirm that our valuations fully reflect the disclosures contained therein.

### 1.12 RICS Compliance

This report has been prepared in accordance with Royal Institution of Chartered Surveyors' ("RICS") Valuation Standards, 6th edition (the "RICS Red Book") published in November 2007 and effective from 1 January 2008, in particular in accordance with the requirements of Practice Statements PS6 entitled Valuation Reports and UKPS3 entitled Valuations for Loan Facilities.

### 2.0 EXECUTIVE SUMMARY

Based on the schedule of properties provided by Circle Anglia and upon assumptions detailed in this report, we set out below our opinions of value as at the date of this report.

The aggregate MV-STT of the freehold or long leasehold interest in the 585 units valued on this basis of valuation is - $£ 93,354,000$ (ninety three million, three hundred and fifty four thousand pounds.)

There are 41 units which have been prescribed a nil value.
A full stock schedule is included at Appendix 1.

### 3.0 THE PROPERTIES

### 3.1 Property Types

The portfolio comprises a total of 701 units owned by Circle 33, which is part of Circle Anglia. A breakdown by letting type is set out below:

| Use | Total |
| :--- | ---: |
| General Needs Rented | 452 |
| Sheltered/Supported | 163 |
| Market Rented | 6 |
| 3rd Party General Needs Rented | 28 |
| 3rd Party Sheltered/Supported | 11 |
| Nil Value | 41 |
| Total | $\mathbf{7 0 1}$ |

### 3.2 Location

The properties are mainly located in and around London however there are a small number of properties located outside London in Luton and Stevenage. The properties are located in the following council/borough areas:

| Borough Council | Total |
| :--- | ---: |
| BARNET | 12 |
| CAMDEN | 75 |
| HACKNEY | 52 |
| HARINGEY | 101 |
| ISLINGTON | 280 |
| LUTON | 8 |
| STEVENAGE | 24 |
| TOWER HAMLETS | 86 |
| WALTHAM FOREST | 63 |
| Grand Total | $\mathbf{7 0 1}$ |

Source: the Circle Anglia Group
The properties are all situated in reasonable residential areas and are within easy reach of facilities and amenities. Full postal addresses are listed in the Appendix 1.

### 3.3 Age

The portfolio comprises houses and flats built between 1850-1995. Generally the properties in London were built in the $19^{\mathrm{TH}}$ century with many comprising converted flats. A small number of the properties were originally constructed for Local Authorities.

## Property Types

The properties comprise houses and flats and in the main are low rise predominately 1-3 storeys.
The portfolio comprises mainly self contained units however there are also a number of schemes which contain rooms with shared facilities. The self contained units comprise bedsits up to 5bedroom properties. The properties include supported, sheltered and general needs units with the following number of bedrooms:

| Type (H / F) | Beds (0=Room) | Total |
| :--- | ---: | ---: |
| Flat | 0 | 61 |
|  | 1 | 363 |
|  | 2 | 76 |

| House Total |  | $\mathbf{1 2 0}$ |
| Nil Value |  | $\mathbf{4 1}$ |
| Grand Total |  | $\mathbf{7 0 1}$ |

## Construction and Condition

The properties are mainly of solid brick and cavity brick construction. Roofs in the main appeared pitched and covered in slate or tiles with a small number of units having flat roofs believed to have asphalt or metal type covering.

A high proportion of the properties have sash timber casement single glazed windows but with a small number of units having double glazed windows of timber or UPVC casement type.

We have built up an impression of the condition of the properties. On the basis of external and sample internal inspections, maintenance of the properties appeared generally to a satisfactory standard.

It is understood from Circle Anglia that over 97 per cent. of this portfolio currently meets the Decent Homes standard as set out by the Communities and Local Government ("CLG"). Properties conform to Decent Homes standard if they are warm and weatherproof and have reasonably modern facilities.

## Grounds and Parking

The majority of houses had enclosed rear gardens. The majority of properties have no off street parking.

### 4.0 ENVIRONMENTAL CONSIDERATIONS

We have valued the stock on the assumption that the properties have not suffered any land contamination in the past, nor are they likely to become so contaminated in the foreseeable future. However, should it subsequently be established that contamination exists at the property, or on any neighbouring land, then we may wish to review our valuation advice.

We have assumed there to be no adverse ground or soil conditions and that the load bearing qualities of the site are sufficient to support the building constructed thereon.

In general we have assumed that there are no pending planning applications or other planning issues likely to adversely affect the subject properties.

We have not made specific planning enquiries for each site.
We have assumed for the purposes of this report that there are no planning conditions that would adversely affect the valuation

The existence of all necessary Town Planning and Building Regulation approvals should be confirmed in respect of these properties.

The existence of any remaining NHBC cover or similar building warranty where appropriate, should also be confirmed.
6.0 TENURE
$6.1 \quad$ Title

We have reviewed the final form certificate of title (the "Certificate of Title") for the portfolio issued by Devonshires Solicitors to be dated on or about the date of this valuation report and can confirm that our valuations fully reflect the disclosures contained therein. In particular, in respect of each unit which we have valued on the basis on MV-STT, we confirm that (based on our review of the Certificate of Title) such units may be disposed of by a mortgagee in possession on an unfettered basis (meaning subject to existing tenancies but otherwise with vacant possession and not subject to any security interest, option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use).
We have assumed that where a certificate of title for the relevant property was unavailable that each property has good and marketable freehold or long leasehold title.

### 6.2 Tenancies

The properties are understood from Circle Anglia to be subject to Assured, Secure or Assured Shorthold tenancies. The Circle Anglia standard tenancy agreements are assumed to be in a typical format however they have not been seen

It is assumed that under the Assured and Assured Shorthold tenancy agreements, rents can be reviewed once a year to a market level. The tenant is also assumed to have the usual rights of appeal to the local Rent Assessment Committee.

Under typical Secure tenancies the rent is reviewed every 2 years with reference to the local rent Officer.

There are a number of properties which are subject to management agreements with other registered providers of social housing ("RP"). We understand that in these instances the other RP manages the properties and pays Circle Anglia the rent due less the agreed agent fee and a void allowance. The management agreement can be terminated on either party by giving one year's written notice. In view of the management agreement and because the majority of units are rooms we have valued these units on an EUV-SH Basis only.

### 7.0 THE PROPERTY MARKET - GENERAL SUMMARY

House prices fell for the second month in a row in August 2010 according to Nationwide as more sellers continued to return to the market but new buyers registering with agents decreased. The housing market has been generally stronger in the South than the North with the level of mortgage lending having recovered more from its peak in the South. According to the Land Registry, London has seen the strongest house price growth over the past year and the North East the weakest. UK GDP increased by 1.2 per cent. in Q2 2010, however, this rate of growth will be difficult to maintain due to the forthcoming cutbacks to public expenditure of around 25 per cent. in unprotected departments over the next four years plus the ongoing low levels of credit for businesses and households. Housebuilders generally believe the outlook for the housing market remains challenging largely due to the ongoing lack of mortgage finance, economic uncertainty and problems getting planning permission. Most housebuilders are targeting margin rather than volumes and are focusing on building family homes rather than one and two bedroom flats.

## 8.0 <br> EXISITNG USE VALUE - SOCIAL HOUSING - VALUATION APPROACH

### 8.1 Valuation Methodology EUV-SH

EUV-SH assumes the property will be disposed of to another RP. These organisations will calculate their bid according to their projected income and outgoings profile which they would estimate the properties would produce under their management. This basis assumes affordable rents will be charged in perpetuity and all vacant units will be relet.

Owing to the complex income and expenditure profile particular to RPs we consider that the appropriate method of valuation is to use a discounted cash flow ("DCF"). The DCF allows us to project rental income and expenditure over the term of the cash flow to arrive at an annual surplus or deficit, which is then discounted to a net present value.

## DCF Assumptions

DCF assumptions are derived from economic data or information received from Circle Anglia and have been adopted in our cash-flow valuations relating to the General Needs stock as set out below:

| DCF Assumption | Unit of Cost | DCF Input |
| :--- | :---: | :---: |
| Convergence) | real | $0.50 \%$ |
| Voids and bad debts | \% of rent | $2.5 \%-5 \%$ |
| Relet Rate | annum | $2.5 \%-4 \%$ |
| Management costs | Per unit pa | $£ 500-£ 600$ |
| Cyclical Maintenance costs | Per unit pa | $£ 250-£ 350$ |
| Responsive Maintenance costs | Per unit pa | $£ 350-£ 450$ |
| Programmed Maintenance costs | Per unit pa | $£ 600-£ 700$ |
| Management cost inflation | real | $0.50 \%$ |
| Maintenance cost inflation | real | $0.25 \%$ long term |
| Discount rate | \% real | $5.25 \%-6 \%$ |

Source: the Circle Anglia Group / Savills
DCF assumptions including adopted maintenance costs vary for the managed schemes and the supported schemes, particularly where let as rooms.

Where supported/sheltered schemes are subject to management agreements we have assumed that a mortgagee in possession situation, possession of such schemes could be obtained within one year. For the purposes of our cashflow we have adopted target rents of similar units. We have also valued the market rented units on an EUV-SH Basis by adopting target rents of similar units.

## Discount Rate

There is no hard and fast rule for determining the most appropriate rate to be adopted in a discounted cashflow. The discount rate is probably the most important variable in the model since it determines the net present value of future predicted income and expenditure flows for the property in question. Our role as valuers is to interpret the way in which potential purchasers of the stock would assess their bids. The market for this stock will be within the RP sector.

Effectively, the discount rate is representative of both the long term cost of borrowing for an acquiring organisation and the risks implicit in the property portfolio concerned. The current level of long term interest rates, and the overall cost of funds, must be reflected in our valuation. In addition to considering the cost of funds, we also need to make an allowance for the risk which attaches to our cashflow assumptions - some of which may be subject to a higher degree of risk than those generally made in the business plans. The margin for risk needs to be considered on a case-bycase basis, having regard to the nature of the stock.

Currently the yield on long dated Gilts is around 4.2 per cent. This is in effect the risk free discount rate. Yields on Housing Association long dated, rated and unrated bonds are typically around 4.5 per cent. to 5 per cent. (Source: Social Housing, October 2010).

In this case we have taken into account the type, location and quality of the stock, and the likely demand in existing markets.

We have adopted discount rates of 5.25 per cent. to 5.75 per cent. real for the general needs stock and 6 per cent. for the supported/sheltered schemes.

### 8.4 Comparison of Rents

We have relied on details of current and target rents as advised by Circle Anglia in carrying out this valuation. Such rents are understood to be on a 52 week year basis and net of any service charge. We have not carried out any validation or research into the target rents supplied.

For the supported/sheltered schemes subject to management agreements we have assumed current rents equating to the current adopted target rent and this is reflected in the average supported/sheltered current/target rents set out below.

On this basis, the average current rent across the stock to be charged is as set out below, together with the average (2010/11) target rent and Savills' estimated average market rent.

| Property Type | Current <br> Rent | Target <br> Rent | Est. Market <br> Rent |
| :--- | :---: | :---: | :---: |
| London General Needs Units | $£ 96.95$ | $£ 105.60$ | $£ 274.00$ |
| Beds/Herts General Needs Units | $£ 85.51$ | $£ 87.28$ | $£ 166.00$ |
| Sheltered/Supported Units | $£ 80.39$ | $£ 83.41$ | $£ 170.00$ |

### 9.0 MARKET VALUE SUBJECT TO TENANCIES - VALUATION APPROACH

### 9.1 Valuation Methodology MV-STT

Traditionally the valuation of properties and portfolios subject to Assured and Secure tenancies has been carried out with direct reference to comparable evidence, gleaned from the sales of similar tenanted portfolios and individual units. It has become apparent over the last few years that the number of properties subject to traditional tenancies traded in the open market has reduced dramatically and many of those transactions that have taken place are not directly comparable to Housing Association portfolios.

Typically the purchasers of residential investments fall into 2 groups; firstly private investors, individuals or firms who acquire vacant units and let on Assured Shorthold tenancies. The prices paid for these vacant units tend to be low, the investors spend a minimal amount on repairs and the valuation of these units is close to vacant possession value owing to the limited security of tenure and the ease from the landlords' perspective of attaining Vacant Possession. The second group is more corporate in nature, which own and acquire larger portfolios by either acquiring existing tenanted portfolios or by assembling a portfolio by buying vacant units on the open market. Both types of investor tend to pay low prices for the units acquired and their assessment of bid is unsophisticated. To date most have relied on a simple return on rental on gross rental income of between 2 per cent. and 10 per cent. However, most yield analysis by such investors takes into account capital growth in the asset. Most would acquire and trade blocks of units at a 20 per cent. to 50 per cent. discount from Market Value assuming Vacant Possession. In other words their bid level is determined with reference to the rental level and Vacant Possession value.

In recent months, evidence of sales of tenanted residential portfolios has declined in parallel to the slow-down in the market generally. Most commentators note that investors are now focusing on the yield from rental income only and would not base their bid on capital growth. So whereas in the past few years our MV-STT approach was to look at both a capitalisation of rent and percentage deduction from MV-VP, the valuation approach is now weighted towards the rental capitalisation method.

It must be noted that very few transactions have taken place so far this year but those that have point to yields of 5 per cent. to 6.5 per cent. being required by investors.

Principal Assumptions - MV-STT
In establishing the MV-STT value, we assume that rents would convert to a market rent level within a short space of time. Other assumptions are set out below.

| Variable | Assumption |
| :--- | :--- |
| Voids and Bad Debts | $5 \%$ |
| Management Cost | $8 \%-10 \%$ of market rent |
| Maintenance \& Repairs | $15 \%$ of market rent |
| Discount Rate | $7.25 \%-8.0 \%$ |

Source: Savills
Due to the nature of the units let as rooms we have valued these an EUV-SH Basis only. In addition we have valued the units which are subject to management agreements on an EUV-SH Basis only.

### 9.3 MV-STT Statement

With reference to Section 5 on Tenure, it is essential that confirmation be obtained that the property is capable of being let at a Market Rent and disposed of free from restrictions. If there are restrictions in title, planning conditions, s. 106 agreements or nomination agreements which limit disposal to RPs and which would be binding upon a mortgagee in possession, then the correct valuation basis may be EUV-SH and not MV-STT.

It should be noted that the MV-STT valuation may only be attainable by a Mortgagee in Possession, selling the properties tenanted, outside of the RP sector. The valuation basis is dependant upon the subsequent purchaser being able to sell vacant units and charge a market rent to existing tenants.

Current rental income (as advised by Circle Anglia and subject to comments above) is set out at Appendix 1 but we make no warranty that the current income is sufficient to support lending against an MV-STT basis either on individual valuation groups or against the whole portfolio.

### 10.0 VALUATIONS

Please note that the valuations set out below must only be read in conjunction with the rest of this report including all Appendices.

The valuations expressed below are also set out in the Executive Summary of Valuation above.

### 10.1 General Needs Rented Units

### 10.1.1 General Needs Rented - EUV-SH

The aggregate EUV-SH of the freehold or long leasehold interest in the 447 units subject to tenancies at the rents stated assuming vacant units as they occur are relet - £28,252,000 (twenty eight million, two hundred and fifty two thousand pounds)

### 10.1.2 General Needs Rented - MV-STT

The aggregate MV-STT of the freehold or long leasehold interest in the 447 units subject to tenancies - £77,124,000 (seventy seven million, one hundred and twenty four thousand pounds)

### 10.2 Sheltered/Supported Housing Units

10.2.1 Sheltered/Supported Housing - EUV-SH

The aggregate EUV-SH of the freehold or long leasehold interest in the 132 units subject to tenancies at the rents stated assuming vacant units as they occur are relet - £6,776,000 (six million, seven hundred and seventy six thousand pounds)

### 10.2.2 Sheltered/Supported Housing - MV-STT

The aggregate MV-STT of the freehold or long leasehold interest in the 132 units subject to tenancies - £15,351,000 (fifteen million, three hundred and fifty one thousand pounds)
10.3 Market Rented Units

### 10.3.1 Market Rented Units - EUV-SH

The aggregate EUV-SH of the freehold or long leasehold interest in the 6 units subject to tenancies at the rents stated assuming vacant units as they occur are relet - $£ 442,000$ (four hundred and forty two thousand pounds)

### 10.3.2 Market Rented Units - MV-STT

The aggregate MV-STT of the freehold or long leasehold interest in the 6 units subject to tenancies £879,000 (eight hundred and seventy nine thousand pounds

### 10.4 Rooms and Managed Units

### 10.4.1 Rooms/Managed - EUV-SH

The aggregate EUV-SH of the freehold or long leasehold interest in the 70 units subject to tenancies at the rents stated assuming vacant units as they occur are relet - £2,094,000 (two million and ninety four thousand pounds)

### 10.5 General Needs Rented Restricted Units

### 10.5.1 General Needs - EUV-SH

The aggregate EUV-SH of the freehold or long leasehold interest in the 5 units subject to tenancies at the rents stated assuming vacant units as they occur are relet - $£ 272,000$ (two hundred and seventy two thousand pounds)

### 10.6 Nil Value Units

There are 41 properties which have not be prescribed a value as they are not income producing.

### 11.0 LOTTING AND VALUE DISAGGREGATION

We have valued the properties in lots according to type / location. Within Appendix 1 we include individual EUV-SH or MV-STT figures against each of the properties listed. These figures are apportionments, directly related to the current rents passing or to the vacant possession values as shown for the individual properties. For this reason, the apportioned figures are not valuations of the individual units and should not be regarded as such.

### 12.0 SUITABILITY AS LOAN SECURITY

## Funders' Responsibility

12.1 It is usual for a valuer to be asked to express an opinion as to the suitability of a property as security for a loan, debenture, bond or mortgage. However, it is a matter for a funder to assess the risks involved and make its own assessment in fixing the terms of the loan, such as the percentage of value to be advanced, the provision for repayment of the capital, and the interest rate.

## Property Specific Risks

12.2 In this report we refer to all matters that are within our knowledge and which may assist you in your assessment of the risk.

## Suitability as Security

12.3 We are of the opinion that the properties do form adequate security for the Notes. We would stress however that it is up to the addressees to assess the level of borrowing which the properties support and to assess the risk not directly associated with the property itself.

We trust that this report is acceptable for your purposes. Should you have any queries, please do not hesitate to contact us.

Yours faithfully

## GENERAL ASSUMPTIONS, NOTIFICATIONS, DEFINITIONS \& BASES OF VALUATION

### 1.0 General Assumptions \& Notifications

1.1 Unless it is made apparent by an express statement to the contrary in the report, we have made the following general assumptions and we will have been under no duty to have verified these:-
1.1.1 The information supplied to us and summarised in this report is substantially complete and correct.
1.1.2 The property is not subject to any unusual or onerous conditions or restrictions, encumbrances or outgoings and that good title can be shown free of any mortgages or charges.
1.1.3 The property and its value are unaffected by any matters which will be revealed by a local search (or their national equivalent) and replies to the usual enquiries, or by a statutory notice and that neither the property nor its condition, nor its use, nor its intended use, is or will be unlawful.
1.1.4 Planning consent and statutory approvals for the property and for its current use, including any extensions or alterations, have been obtained.
1.1.5 Any interpretations of the law we may have made are presumed to be correct although we would recommend that any such interpretations are checked by solicitors.
1.1.6 We have not carried out a structural survey nor tested the services. We have therefore assumed that both the parts that we have inspected and those that we were unable to inspect have no material defects which would cause us to alter our valuation.
1.1.7 In the construction or alteration of the property no use was made of any deleterious or potentially dangerous materials or techniques.
1.1.8 The property is connected to mains services which are available on normal terms and that the sewers, mains services and the roads giving access to the property have been adopted.
1.1.9 In the case of a new property, the construction of which has not been completed, the construction will be satisfactorily complete. Furthermore, for any newly constructed property, the builder is a registered member of the NHBC or equivalent and has registered the subject property in accordance with the scheme concerned.
1.1.10 Unless otherwise instructed any development value has been excluded from our valuation(s).
1.1.11 Our valuation does not include any value attributable to the existence of furnishings, removable fittings, free-standing furniture or sales incentives.
1.1.12 The property is not subject to land contamination, flooding risk, unstable ground conditions or any other environmental risks. We have not carried out any related tests nor made any other investigations relating to these environmental factors and we have not assessed the likelihood of their potential relevance. (We recommend these risks are investigated by suitable professionals prior to relying upon our valuations).
1.1.13 We have not made any allowance for Capital Gains Tax, VAT or other taxation liabilities that might arise upon a sale of the property.
1.1.14 It is for the lender to assess the risk involved and to make their own assessment and fix the terms of the loan, such as the percentage of value to be advanced, the provision for repayment of capital and the interest rate.
1.1.15 The tenants are capable of meeting their obligations and that there are no arrears of rent or undisclosed breaches of covenant.
1.1.16 The highest bidder would account for increasing rents (where applicable) to the maximum possible amount and/or maximising their investment return (in financial terms).
1.1.17 In the case of a site or development property - there are no adverse site conditions, that it is not adversely affected by the Town and Country Planning (Assessment of Environment Effects) Regulations 1988, that the ground does not contain any archaeological remains, nor that there are any other matters that would cause us to make any allowance for exceptional delay, site or construction costs in our valuation.
1.1.18 Where grants (from the private or public sector) have been given and/or pledged to purchase, build and/or refurbish the subject property, we have assumed that these grants append to title and/or would not have to be repaid by the purchaser.
1.1.19 Unless otherwise stated, we provide our valuations exclusive of purchase costs (e.g. legals, stamp duty, introductory fees etc).
1.1.20 Unless otherwise stated, we provide our opinions of value (for all valuation bases) on an individual property and/or aggregate property basis (i.e. with no discount for bulk sales).
1.1.21 Our opinions of value do not take into account any potential reduction in value or restrictions on disposal which may result from the service of a notice under the Leasehold Reform Housing and Urban Development Act 1993.
1.1.22 Our report is only provided for the purpose agreed with the instructing Client and will be for the sole use of that client. As such, it is confidential to the Client and their professional advisors.
1.1.23 Should you require a formal Building Reinstatement Cost Assessment for insurance purposes, prepared by a member of our Building Consultancy Department, based on a detailed inspection for such purposes, we would be pleased to make the necessary arrangements.
1.1.24 Where we have provided valuation projections, these are purely indicative as we are not able or permitted to state what values will be in the future. As such, these indications should not be formally relied upon.
1.1.25 The value of a property portfolio, sold as a single portfolio, may not be the same as the aggregate value of constituent parts. Where we have qualified our valuation basis with the words 'as a single portfolio', we have provided a value reflecting a sale of the property as a single portfolio. Where we have qualified using the words 'aggregate', we have provided the aggregate total of the property's constituent units/parts.
1.1.26 The value of a property subject to tenancies may not be the same as the value of a property with vacant possession.

### 2.0 Definitions

### 2.1 Assumption

A supposition taken to be true. It involves facts, conditions or situations affecting the subject of, or approach to, a valuation that, by agreement, need not be verified by the member as part of the valuation process.

### 2.2 External Valuer

A valuer who, together with any associates, has no material links with the client company or the subject of the assignment.
2.3 Independent Valuer

A valuer who meets the specific requirements of independence, prescribed by law or regulation, for particular valuation tasks in certain States.
2.4 Likely Realisation Price Subject To Marketing Constraints And Forced Sales (formerly Estimated Restricted Realisation Price).
2.4.1 If a property cannot be freely or adequately presented to the market, the price is likely to be adversely affected.
2.4.2 If such a constraint can be identified it is normally possible to assess its impact on value but the value reported would not, by definition, be Market Value (see Bases of Valuation).
2.4.3 In these instances, the price will reflect the vendor's particular circumstances and the figure reported will be an assessment of Worth (see below).
2.4.4 Examples of Marketing Constraints would be where the property is to some extent controlled by a third party and that party's co-operation in a sale can not be guaranteed or a sale which has to be completed without proper marketing.

### 2.5 Restricted Information

2.5.1 Where a valuer is requested to undertake a valuation on the basis of restricted information the nature of the restriction must be agreed, and the possible valuation implications of the restriction confirmed in writing to the client, before the valuation is reported.
2.5.2 Examples of restricted information would include a "drive by" or "desktop" valuation.

### 2.6 Special Assumption

An assumption that either:
a) Requires the valuation to be based on facts that differ materially from those that exist at the date of valuation; or
b) Is one that a prospective purchaser (excluding a purchaser with special interest) could not reasonably be expected to make at the date of valuation, having regard to prevailing market circumstances.

### 2.7 Valuation

A member's opinion of the value of a specified interest or interests in a property, at the date of valuation, given in writing.
2.8 Worth (Or Investment Value).

The assessment of value of property to a particular investor, or class of investors, for identified investment objectives. In this context an investor includes an owner-occupier. Worth is not a Basis of Valuation.

### 3.0 Bases of Valuation

3.1 Our valuation is carried out in accordance with the current Royal Institution of Chartered Surveyors Valuation Standards ("Red Book") with effect from 1 January 2008 which states:-

### 3.1.1 Existing Use Value for Social Housing (EUV -SH) means:-

'Existing Use Value for Social Housing (EUV-SH) is the estimated amount for which a property should exchange, on the date of valuation, between a willing buyer and a willing seller, in an arm'slength transaction, after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion, subject to the following further Assumptions that:
i) the property will continue to be let by a body pursuant to delivery of a service for the existing use;
ii) at the valuation date, any regulatory body, in applying its criteria for approval, would not unreasonably fetter the vendor's ability to dispose of the property to organizations intending to manage their housing stock in accordance with that regulatory body's requirements;
iii) properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession; and
iv) any subsequent sale would be subject to all of the above Assumptions.'

### 3.1.2 Market Value (MV) means:-

'The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.'
N.B. An opinion of Market Value may be required assuming vacant possession and/or subject to existing tenancies. Within our reports we differentiate in this regard by using the terminology Market Value (vacant possession) and/or Market Value (subject to tenancies).

### 3.1.3 Market Rent (MR) means:-

The estimated amount for which a property, or space within a property, should lease (let) on the date of valuation between a willing lessor and a willing lessee on appropriate lease terms in an arm's-length transaction after proper marketing wherein the parties had acted knowledgeably, prudently and without compulsion.

### 3.1.4 Existing Use Value (EUV) means:-

The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's length transaction, after proper marketing wherein the parties had acted knowledgably, prudently and without compulsion, assuming that the buyer is granted vacant possession of all parts of the property required by the business and disregarding potential alternative uses and any other characteristics of the property that would cause its Market Value to differ from that needed to replace the remaining service potential at least cost.
3.2 Where we have provided a Reinstatement Cost Assessment, the following standard conditions have applied:-
(a) The estimate will be based solely on the inspection of the property (and/or layout plans) undertaken in connection with the preparation of open market valuations.
(b) The estimate will not constitute a formal Building Reinstatement Cost Assessment, and must not be relied upon as such.
(c) The estimate will be given as a guide for the construction of an identical building, constructed of modern materials.
(d) The estimate will be given on a day one basis and, therefore, we recommend that appropriate allowance is made for any increase in building costs which may arise during the period of insurance or during any period of rebuilding and any period necessary for design and obtaining necessary consents prior to such rebuilding.
(e) No allowance will be made for any additional costs that may have to be incurred during reconstruction to meet current requirements of Local Authorities, Building Inspectors, Statutory Undertakers, Mortgagees, Landlords and Freeholders nor for any matters of a consequential nature, e.g. fire prevention and thermal insulation.
(f) No allowance will be made within our estimate for any costs involved in handling and/or dealing with dangerous or hazardous materials or situations remaining on or originating from the premises in the event of any incident.
(g) The estimate will allow only for normal foundations and will exclude piling or other generally unusual or abnormal foundations.
(h) No allowance will be made for the capital costs of reinstatement of external mains water, electricity, gas, telephone services, drains, sewers, pipes and other external works such as roads, paths and paved areas, walls, fences, gates and landscaping.
(i) The estimate will include normal water, electricity and gas installations as appropriate.
(j) The estimate will exclude furnishings, floor coverings, light fittings, furniture, wall coverings, false ceilings, all other occupiers fixtures and fittings, telephone installations and specialist service installations.
(k) No allowance will be made for the incidence of Value Added Tax.
(I) We will not undertake a structural survey and, in the absence of detailed drawings or specifications, assumptions will have to be made as to the construction of the buildings.
(m) The estimate will be prepared on a full reinstatement basis, inclusive of professional fees, demolition costs, site clearance etc but will make no allowance for any loss of rent or rental void incurred unless stated otherwise.

### 3.3 Depreciated Replacement Cost (DRC)

3.3.1 DRC is based on an estimate of the Market Value for the existing use of the land, plus the current gross replacement (reproduction) costs of the improvements, less allowances for physical deteriorations and all relevant forms of obsolescence and optimisation.
