Market Commentary

COPYRIGHT © JONES LANG LASALLE IP, INC. All Rights Reserved

UK housing market overview

According to ONS, the economy was -8.5% smaller in November than it had been pre-lockdown. November's decline came after six consecutive months of growth. With the vaccine rollout under way and a Brexit deal agreed, there is some optimism in the air, despite the current lockdown. The Office for Budget Responsibility forecast the economy will grow by 5.5% over 2021 and 6.6% in 2022, returning to pre-pandemic levels by quarter 4 in 2022.

RICS reports that surveyors expect house price growth will fade over the next three months. The twelve-month view remains positive, however, with a majority of surveyors anticipating house prices will be higher in a year's time.

According to provisional HMRC data, December transactions across the UK numbered 137,200, a 14.0% monthly increase and a 34.1% increase on December 2019. On an annual basis, HMRC estimated that 2020 transactions were -11.5% below 2019 figures.

Rightmove reported 10% more sales agreed in 2020 than in 2019 and Zoopla reported 9%. We should see these complete over the next few months.

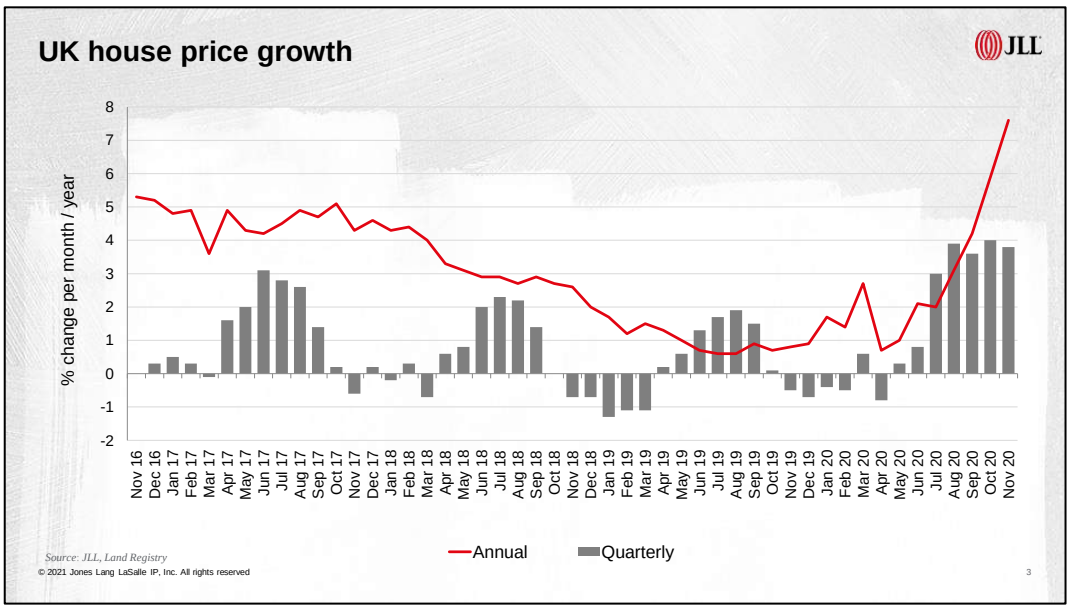
104,969 mortgages were approved in November 2020, the highest since August 2007, pre-Global Financial Crisis. Mortgage approvals have all but recovered, only down -0.9% (January to November 2020) compared to the same period in 2019 (Bank of England).

UK housing market analysis

Using a selection of data from Government sources, including Land Registry, HMRC and MHCLG, as well as survey data collected by the RICS (the Royal Institution of Chartered Surveyors), this section provides a detailed analysis of the UK housing market.

House price growth

Price growth has shown no sign of slowing in the six months since the re-opening of the housing market, reaching 7.6% in the year to the end of November 2020. In the three months to November 2020, house prices increased by 3.8%, following a 3.9% increase in the three months to August 2020.

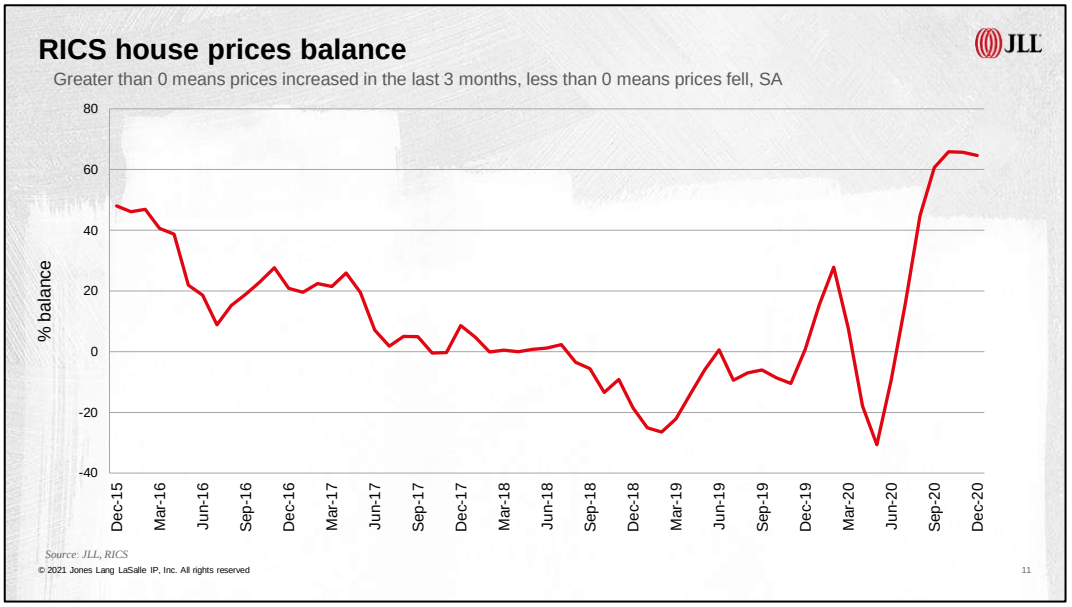


Housing supply and demand

The following section analyses data from the RICS Housing Market Survey, a useful tool when analysing demand, supply and pricing in the UK housing market. The data is sourced from a survey of chartered surveyors across the UK and it includes a range of questions from their future perceptions of the market to how the market has moved in the preceding three months.

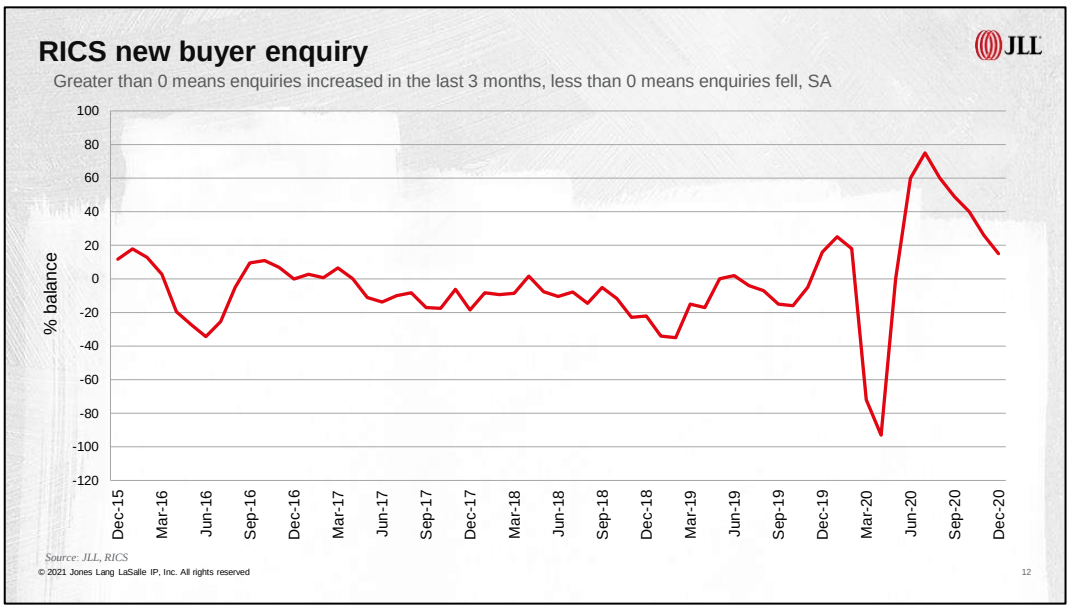
Several results are presented through a balance of surveyor views. Results below zero indicate that demand/supply/price is falling while positive values reveal a rise in demand/supply/price. Each value describes the rate at which demand/supply/price is growing or falling which are useful in analysing the momentum of the market. The findings of the survey are presented below.

The RICS survey reveals that, on a seasonally adjusted basis, the price balance was +64.6% in September 2020. This is a slight decrease from October 2020 when the balance was +65.9. This suggests that the majority of surveyors agree that prices have increased in Q4 2020.

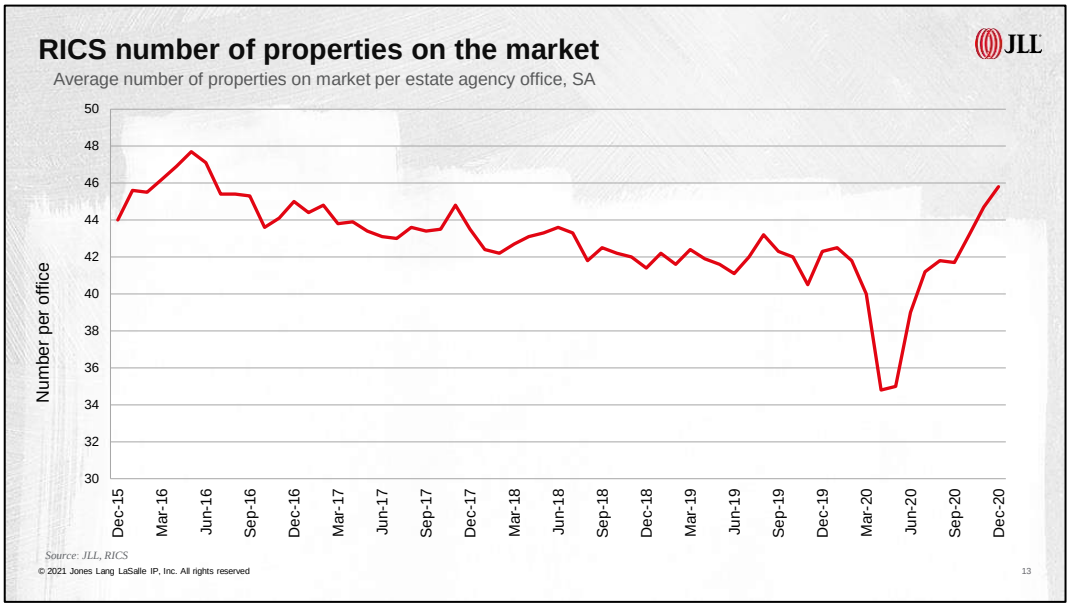


The chart below reveals the difference in the proportion of surveyors who believe that the number of new buyer enquiries, in the last three months, has risen against those who believe that they have fallen. Any figures below zero indicate that more surveyors feel that demand has fallen rather than risen in the last three months. The balance reveals not only the changes in demand but also how quickly levels of demand have moved.

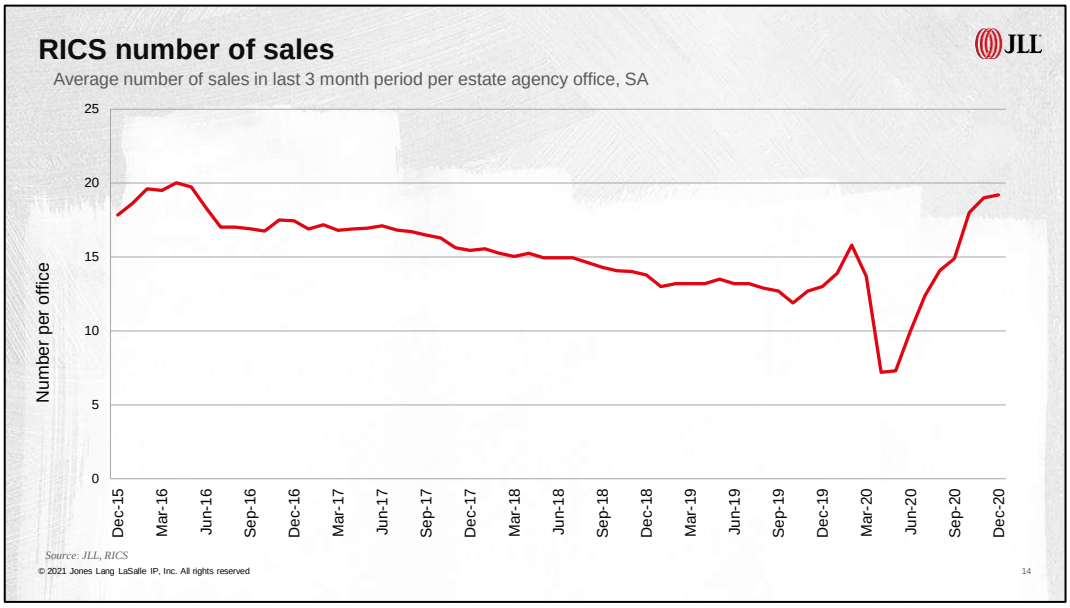
The RICS survey reveals that, on a seasonally adjusted basis, housing demand has remained strongly positive since the housing market reopened and demand rebounded from the April 2020 low. Since July 2020 demand has moderated and in December 2020, the balance of new buyer demand was 15.3%.



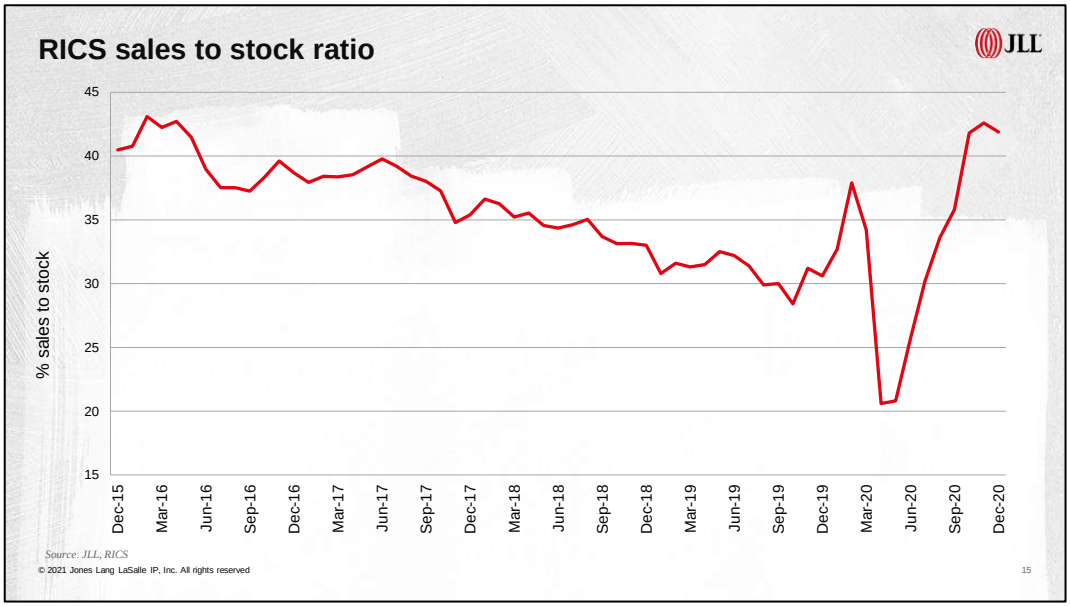
According the RICS survey, the average number of properties on the market has increased since April 2020, rising to a high of 45.8 properties per estate agent office, bucking the 5-year trend and returning to a level not seen since mid-2016.



The average number of sales per month per estate agency office rose to 19.2 in the three months to December 2020. This is up significantly from the average of 7 sales per estate agency office in the three months to May 2020, and is a level of sales activity not seen since early-2016

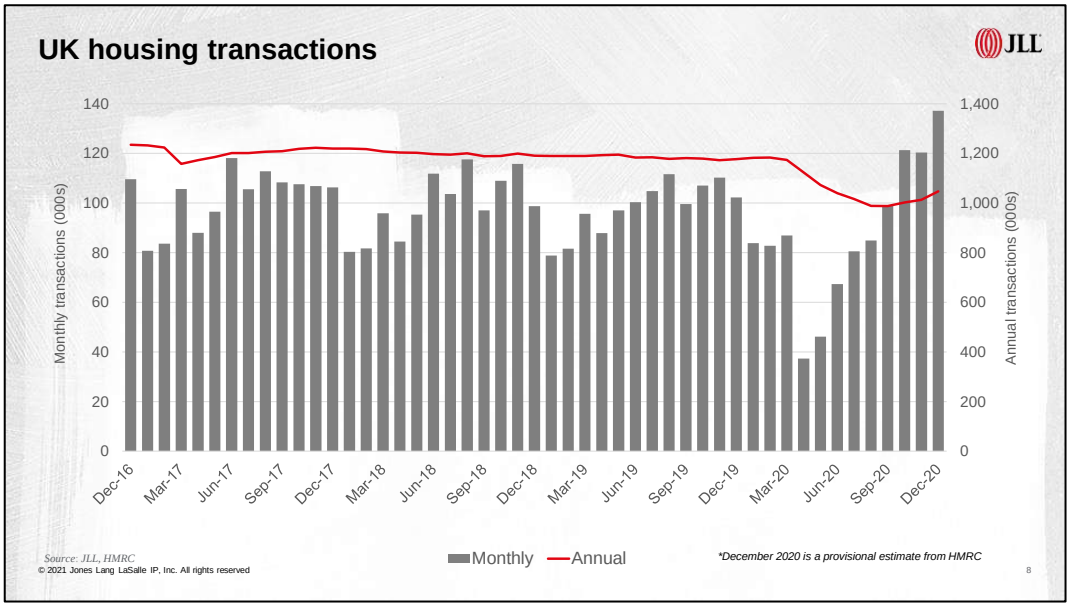


Further data from the RICS survey reveals that the sales to stock ratio increased greatly in the latter half of 2020, reaching a peak of 42.6 in November 2020. The sales to stock ratio in December 2020 was 41.9, down slightly from November and well above the February 2020 peak of 38.



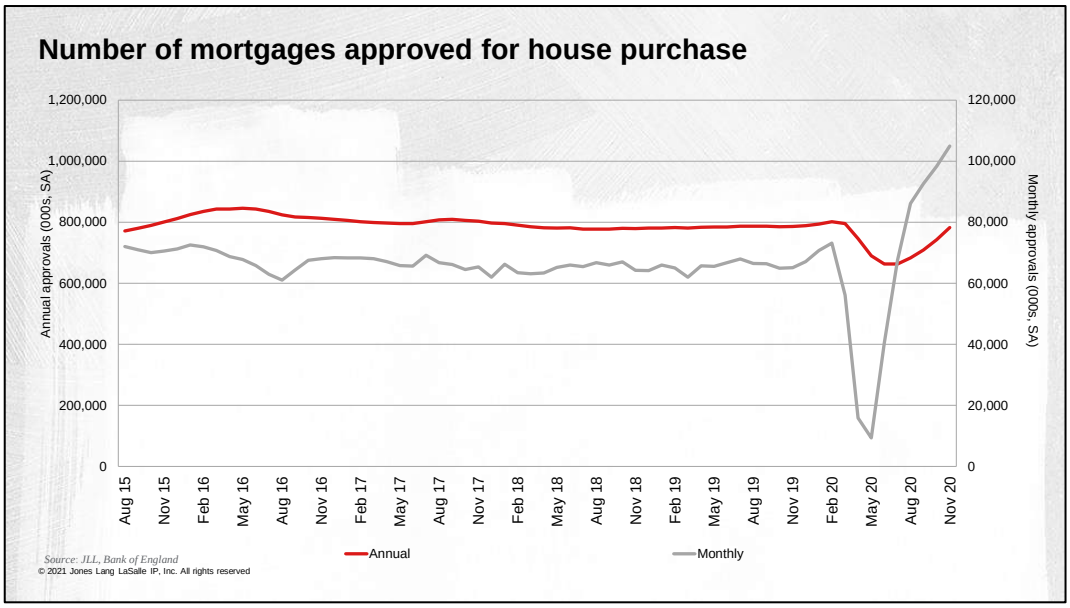
Housing transactions

HMRC data reveals that transactions have recovered on a monthly basis since the April 2020 low of 37,330. The HMRC provisionally estimates that December 2020 saw 137,200 transactions, a 268% increase on April. On an annual basis, transactions to December 2020 are estimated to total 1,047,000, 11.0% below total transactions in the year to December 2019.



The mortgage market

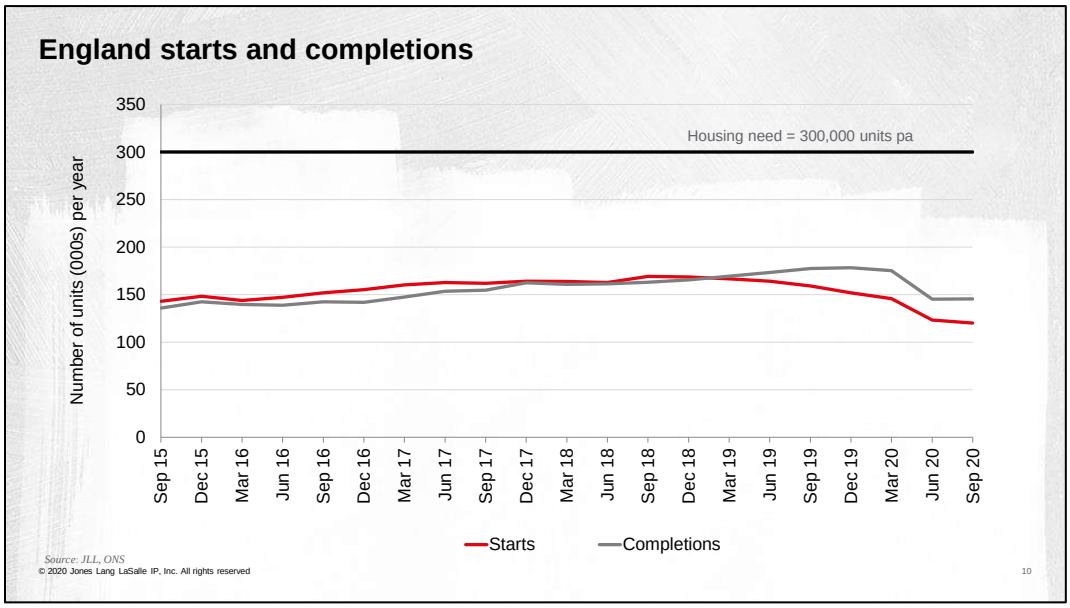
Data from the Bank of England shows that national house lending has increased significantly in the past six months, rising to a high of 104,969 in November 2020. On an annual basis, mortgage lending has returned to pre-pandemic levels, with the number of mortgages approved to November 2020 only 0.5% below the number approved to November 2019.



Housing development

The number of housing starts in England decreased by 24.5% in the year to Q2 2020. There were approximately 120,110 starts in the year to Q3, below the 123,220 starts to Q2 2020 and below the 151,750 in Q4 2019. Annual completions across England decreased by 18.1% in the year to June 2020. There were 145,430 completions, compared with 177,550 a year earlier.

Over the past ten years, housing construction in England has consistently been well below the delivery target of 240,000-300,000 homes per annum.



Regional house price growth

Data from Land Registry reveals that house prices have increased in all regions in the year to July 2020. Overall, the North and Midlands have seen the most price growth while London and the South have seen the least.

Regional house price growth in Greater London and Yorkshire and the Humber increased by 9.7% in the year to November 2020, the highest increase of any region. This is followed by a rise of 8.6% in Scotland and an uptick of 8.5% in the South West and the North West.

7. any receiver or other party which is appointed to realise the security;

together, the "**Addressees**".

Dear Sir or Madam,

VALUATION OF HOUSING STOCK OF CLARION HOUSING ASSOCIATION LIMITED (THE "EXISTING BORROWER") IN RESPECT OF EACH SERIES OF NOTES (THE "NOTES") TO BE ISSUED BY THE ISSUER UNDER THE £3,000,000,000 SECURED EURO MEDIUM TERM NOTE PROGRAMME (THE "PROGRAMME") WHERE SUCH UNDERLYING SECURITY IS APPORTIONED ON A "NUMERICAL APPORTIONMENT BASIS" PURSUANT TO THE SECURITY TRUST DEED.

In accordance with the instructions contained in the email from the Issuer to us dated 12 February 2021, as confirmed in our letter to the Issuer dated 1 March 2021, we have inspected the properties and made such enquiries as are sufficient to provide you with our opinion of value on the bases stated below.

We draw your attention to our accompanying Report together with the General Assumptions and Conditions upon which our Valuation has been prepared, details of which are provided at the rear of our Report.

We trust that our Report meets your requirements, however should you have any queries, please do not hesitate to contact us.

Yours faithfully

For and on behalf of Savills Advisory Services Limited

1. Instructions and Terms of Reference

1.1. Instructions & Terms of Reference

This Report is required in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on “Numerical Apportionment Basis” in accordance with the Security Trust Deed.

Further to instructions received from the Issuer and the Savills Advisory Services Limited Terms Of Business Letter dated 1 March 2021, which confirmed our instructions, we now have pleasure in reporting the following valuations and advice.

The schedule of properties which are the subject of this valuation (the “Properties”) with apportioned values is attached at **Appendix 1** and relates to 34,789 units in total.

In completing this exercise, we have:

a) agreed a full set of property schedule data with the Existing Borrower;

b) discussed details as to our approach and methodology; and

c) completed our own inspections, research and analysis.

The above has enabled us to arrive at the valuation assumptions that have enabled us to carry out our valuations and final reported figures herein.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the annual accounts of the Existing Borrower. This Report has been prepared in accordance with the RICS Red Book (as defined herein). The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the Properties were enforced as at the Effective Date (as defined herein). We understand that the values given in the accounts of the Existing Borrower are prepared on an historic cost basis, which considers how much the Properties have cost and will continue to cost the Existing Borrower. This is an entirely different basis of valuation from that used for loan security purposes. Moreover, the figure in the latest published annual accounts of the Existing Borrower represents a valuation based on the going concern of the whole stock, in contrast with the valuation for each series of Notes issued under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed which only represents the value to a funder in possession of a portion of the stock. As such different assumptions would be applied. Consequently, in addition to being impractical, any comparison would not be an accurate comparison.

Our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 3**.

1.2. Basis of Valuation MV-STT - Unencumbered Stock

In relation to Properties which may be disposed of by a mortgagee in possession on an unfettered basis (meaning subject to tenancies but otherwise vacant possession and not subject to any security interest option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use):-

The Market Value of such properties for loan security purposes firstly reflecting the fact or (where not the case) making an assumption as to the fact that the Properties are subject to existing tenancies that grant security of tenure to the occupational tenant. Our valuation will refer to this basis of value as “MV–STT” or “market value, subject to tenancies”; and

The Existing Use Value – Social Housing (“EUV-SH”) of such properties for loan security purposes.

1.3. Basis of Valuation EUV-SH - Encumbered Stock

In relation to Properties other than those specified in paragraph 1.2 above that have restrictions on title, in planning or those former LSVT properties AND the retained equity in shared ownership properties:-

The Existing Use Value for Social Housing ("EUV-SH") of such properties for loan security purposes.

1.4. Definition of Basis of Valuations

Existing Use Value for Social Housing is defined by the Royal Institution of Chartered Surveyors ("RICS") at UK VPGA 7 as:-

"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

a) *a willing seller*
b) *that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the property marketing of the interest for the agreement of the price in terms and for the completion of the sale*
c) *that the state of the market, level of values and other circumstances were on any earlier assumed data of exchange of contracts, the same as on the date of valuation*
d) *that no account is taken of any additional bid by a prospective purchaser with a special interest*
e) *that both parties to the transaction had acted knowledgeably, prudently and without compulsion*
f) *that the property will continue to be let by a body pursuant to delivery of a service for the existing use*
g) *that the vendor would only be able to dispose of the property to organisations intending to manage their housing stock in accordance with the regulatory body's requirements*
h) *that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and*
i) *that any subsequent sale would be subject to all the same assumptions above"*

Market Value is defined in IVS 104 paragraph 30.1 as:

"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."

1.5. Freehold & Long-Leasehold Properties

We have valued the freehold and long-leasehold property and listed these separately at **Appendix 1,** splitting the schedules between those valued at EUV-SH and MV-STT.

We confirm that there will be no material difference in the valuations between freehold and long-leasehold interests (on either basis; MV-STT and EUV-SH).

1.6. General Assumptions and Conditions

All our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 3** of this Report.

1.7. Valuation Date

Our opinions of value are as at 31 March 2021 (the "Effective Date''). The importance of the valuation date must be stressed as property values can change over a relatively short period of time.

1.8. Purpose of Valuation

We understand that our valuation is required for loan security purposes in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed.

This Report is issued for the benefit of the addressees and for the inclusion in the offering circular (the "Offering Circular") for the Programme issued by the Issuer and may only be used in connection with the transactions referred to in this Report and for the purposes of the Offering Circular.

We hereby give consent to the publication of this Report within the Offering Circular and accept responsibility for the information contained in this Report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this Report is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.9. Conflicts of Interest

We confirm that Savills Advisory Services does not have a material connection or involvement with the subject property or any other parties and there are no other factors that could limit our ability to provide an impartial and independent valuation. Accordingly, we are reporting on an objective and unbiased basis.

1.10. Valuer Details and Inspection

The due diligence enquiries referred to below were undertaken by Matthew Sale MRICS. The valuations have also been reviewed by Andy Smith MRICS IRRV and Andy Garratt BA FRICS FCIH.

As instructed a representative 20% sample of the Properties was inspected externally by Savills between 1 February 2021 and 24 February 2021. This is part of a 20% rolling programme of inspections over a 5 year period. Due to current Government guidance, the inspections were carried out an external basis only. We are confident that we have thorough and up to date knowledge of the stock and a robust understanding of the properties and the sub-markets, and the market in general in which this portfolio is placed.

All those above with MRICS or FRICS qualifications are also RICS Registered Valuers. Furthermore, in accordance with VPS 3.7, we confirm that the aforementioned individuals have sufficient current local and national knowledge of the particular market and the skills and understanding to undertake the valuation competently.

1.11. Extent of Due Diligence Enquiries and Information Sources

The extent of the due diligence enquiries we have undertaken and the sources of the information we have relied upon for the purpose of our valuation are stated in the relevant sections of our Report below.

We have also reviewed the original certificates of title prepared by Trowers & Hamlins LLP, DMH Stallard LLP and Winckworth Sherwood LLP, the five certificates of title prepared by Devonshires Solicitors LLP dated 29 August 2017 and the reliance and top up letters prepared by Devonshires Solicitors LLP, DMH Stallard LLP, Trowers & Hamlins LLP and Winckworth Sherwood LLP (and any previous reliance/top up letters referred to therein) to be dated on or about 29 September 2017 and the certificate of title prepared by Devonshires Solicitors LLP dated 19 September 2018 and 19 November 2020 (together, the "Property Documents") and can confirm that our valuations fully reflect the disclosures contained therein.

1.12. RICS Compliance

This Report has been prepared in accordance with the RICS Valuation – Global Standards (incorporating the IVSC International Valuation Standards) effective from 31 January 2020 together, where applicable, with the UK National Supplement effective 14 January 2019, together the ''Red Book'.

2. EXECUTIVE SUMMARY OF VALUATION

2.1. Valuation of All Property

Based on the schedule of Properties provided by the Existing Borrower our opinions of value on the bases indicated as at the Effective Date are as follows:

2.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Our opinion of value, in aggregate, of the 9,112 dwellings as mentioned at **1.2** above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£2,352,470,000 (Two Billion, Three Hundred and Fifty Two Million, Four Hundred and Seventy Thousand Pounds)**

Table 1: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Tenure Type	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	8,560	£2,211,609,000	£629,799,000
Leasehold	552	£140,861,000	£41,653,000

2.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,747 rented dwellings and retained equity in shared ownership dwellings as mentioned at **1.3** above, on the basis of

- Existing Use for Social Housing is **£1,407,227,000 (One Billion, Four Hundred and Seven Million, Two Hundred and Twenty Seven Thousand Pounds.)**

Table 2: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH (£)

Tenure Type	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	22,288	£1,364,770,000
Leasehold	459	£42,457,000

There are 2,930 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1.**

3. The Properties

3.1. The Properties

3.1.1. Location and Description

In total there are 34,749 properties comprised in the instruction. This total includes 2,930 nil value units leaving 31,859 units which are spread across the local authority areas detailed in **Table 3** below. The Properties are situated across 76 Local Authority areas.

Table 3: Stock Location

Local Authority	Total	Local Authority	Total
Babergh	1	Ipswich	209
Barking and Dagenham	578	Islington	2,171

Source: the Existing Borrower

The spread of the stock is shown by the map at **Appendix 2.**

3.1.2. Property Types

The Properties comprise general needs, sheltered, supported, intermediate, keyworker, market rented and shared ownership. As can be seen from the table below 75% of the stock comprises general need properties let at social rent levels. The stock can be summarised by type and tenure as follows:

Table 4: Property Types and Tenure

Type	Flats & Maisonettes	Houses & Bungalows	Rooms	Total	% of stock
General Needs – Social	8,663	15,283		23,946	75%
General Needs – Affordable	1,450	1,148		2,598	8%
Intermediate and Keyworker	118	18	188	324	1%
Market Rented	364	31		395	1%
Sheltered – Social	2,065	623		268	8%
Supported - Social	338	4	188	530	2%
Shared Ownership	688	690		1,378	4%
Total	**13,686**	**17,797**	**376**	**31,859**	**100%**

Ignores 2,930 nil value units

Source: the Existing Borrower

The Properties comprise a range of property types with 3-bedroom houses being the most prevalent comprising over 26% of the stock with 1-bedroom flats comprising 24% of the stock and being most prevalent in the case of flats. The portfolio comprises mainly self-contained units however there are a number of schemes which contain rooms with shared facilities.

Table 5: Property Types and Number of Bedrooms

Number of Bedrooms	Flats & Maisonettes	%	Houses & Bungalows	%	Rooms	%	Total	%
Bedsit	413	1.4%			375	1%	788	2.5%

Source: the Existing Borrower

Please refer to **Appendix 1** for a full list of the Properties including rental income.

3.1.3. Brief Description

The Properties are in the main considered to be of conventional construction for their age and type. Houses are mainly of solid brick, cavity brick or timber frame construction with roofs being mainly pitched and covered in slate or tile. Flats are mainly of cavity brick, metal or timber frame construction with roofs being pitched and covered in tile or are flat and believed to have an asphalt or metal type covering. The majority of the Properties have modern plastic gutters and downpipes.

A high proportion of the Properties have double glazed windows of timber, metal or UPVC casement type. The majority of the Properties benefit from all mains services and gas fired central heating systems supplying radiators.

A significant number of the Properties were acquired by transfer from local authorities under Section 32 and 43 of the Housing Act 1985.

3.1.4. Multi-Storey and Multi Occupancy Buildings

Included within this portfolio are 14,061 valued flats/rooms situated in multi-storey and multi occupancy buildings. Where the Existing Borrower are the freeholder they have been adhering to the advice notes issued by the Government and have been undertaking intrusive investigations to all buildings over 6 storey that have been identified as having any cladding system. This is an ongoing programme and likely to continue for at least a further twelve months.

Works carried out to the high-rise blocks include compartmentation work on all buildings, upgraded emergency lighting, improved ventilation and installation of new doorsets in all high-rise blocks. The Existing Borrower has also installed fire detection systems where the current systems were not appropriate for the building type.

Where the Existing Borrower are not the freeholder the Existing Borrower are working with freeholder to ensure the buildings meet the requirements set out in the advice notes.

We set out below a summary of these and the number of storeys in each building.

Table 6: Multi Storey and Multi Occupancy Buildings

Number of Storeys	Number of flats/rooms	%
2-storey building	5,575	40%
3-storey building	3,767	27%
4-storey building	2,829	20%
5-storey building	722	5%
6-storey building	409	3%
7-storey building	372	3%
11-storey building	120	1%
13-storey building	1	0%
14-storey building	102	1%
15-storey building	52	0%
22-storey building	112	1%
Total	**14,061**	**100%**

Source: the Existing Borrower

The RICS issued guidance on 8 March 2021 in relation to multi storey and multi occupancy buildings. We have had reference to this guidance which sets out criteria representing reasonable circumstances where remediation work to cladding or balconies

that may materially affect the value of the property is likely to be needed and an EWS1 ("External Wall System") form should be required. This criteria is based on the number of storeys in the block and we comment below on the subject portfolio.

Buildings of four storeys or fewer

We have made enquiries of the Existing Borrower who have informed us that they are not aware of any buildings with cladding of the following types Aluminium Composite Cladding ("ACM"), Metal Sheet Panels ("MCM") or High Pressure Laminate ("HPL").

Buildings of five or six storeys

We have made enquires of the Existing Borrower and have carried out a google street view of each block. There are 138 blocks of five or six storeys, which comprise a mix of types and designs. The blocks vary from 19th century traditional brick construction buildings to modern purpose built schemes, which in some instances are clad.

We have made enquiries of the Existing Borrower who have informed us that they are not aware of any buildings with cladding of the following types ACM, MCM or HPL.

From the information provided and our reviews where we understand remedial works are required we have either deducted the cost of these from the estimates given to us by the Existing Borrower or we have deducted an average remedial cost of £30,000 per unit from our apportioned values. This average cost is based on our reviews of the subject blocks and average costings provided to us by the Existing Borrower.

Buildings over six storeys

We have made enquires of the Existing Borrower and have carried out a google street view of each block. There are 25 blocks over 6-storeys which comprises a mix of types and designs. The 22-storey building in the portfolio Clare House, Bow has been given a nil value as we understand that this block will be sold or redeveloped.

The Existing Borrower have confirmed that each block has been subject to a building safety programme and compliance reviews. We have been informed that two blocks Turners Court and Omnibus House are partly clad in HPL.

From the information provided and our reviews where we understand remedial works are required we have either deducted the cost of these from the estimates given to us by the Existing Borrower or we have deducted an average remedial cost of £30,000 per unit from our apportioned values. This average cost is based on our reviews of the subject blocks and average costings provided to us by the Existing Borrower.

3.1.5. Condition

As instructed, we have not carried out a structural survey. However, we can comment, without liability that during the course of our inspections for valuation purposes, we observed that the Properties appear to be generally in reasonable condition.

Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

It is understood from the Existing Borrower that this entire portfolio currently meets the Decent Homes standard as set out by the Ministry of Housing, Communities and Local Government. Properties conform to the Decent Homes standard if they are warm and weatherproof and have reasonably modern facilities.

However we would stress that we have not carried out structural or condition surveys and have relied upon our visual inspection. The Savills stock condition survey team during 2016 carried out a stock condition survey of the Existing Borrower stock which included 100% external and 50% internal inspections and we have adopted the results of this into our valuation. Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

3.1.6. Services

No detailed inspections or tests have been carried out by us on any of the services or items of equipment, therefore no warranty can be given with regard to their purpose. We have valued the Properties on the assumption that all services are in full working order and comply with all statutory requirements and standards.

3.2. Environmental Considerations

3.2.1. Contamination

We have valued the portfolio on the assumption that the Properties have not suffered any land contamination in the past, nor are they likely to become so contaminated in the foreseeable future. However, should it subsequently be established that contamination exists at any Property, or on any neighbouring land, then we may wish to review our valuation advice.

3.2.2. Ground Conditions

We have assumed there to be no adverse ground or soil conditions and that the load bearing qualities of the site are sufficient to support the building constructed thereon.

3.2.3. Flooding

We are not aware of any flooding affecting the Properties and assume there is no history of flooding risk.

3.2.4. Radon Gas

Due to the geographical spread of the stock, we are unable to confirm whether the Properties are in a Radon Affected Area. Radon Protection Measures may be necessary for new properties or extensions to existing ones as described in publication BR211 by the Building Research Establishment.

3.2.5. Invasive Vegetation

Under the Wildlife and Countryside Act 1981 it is an offence to 'plant or otherwise cause Japanese Knotweed to grow in the wild', however the plant still remains prevalent in some areas. It is only possible to establish the presence of invasive vegetation such as Japanese Knotweed by a specific survey by suitably qualified specialist. From our limited inspection, we have no reason to suggest that such a survey is required in this instance, but should a survey subsequently find that our assumption in this respect is incorrect then we should be advised so that we may reconsider the implications for our valuation.

3.3. Energy Act 2011

The provisions of the Energy Act 2011 make it unlawful to sell or let commercial or residential properties without an Energy Performance Certificate ("EPC") rating, or with an EPC rating of F or G (the lowest 2 grades of energy efficiency).

Properties classified as low cost rental accommodation under section 69 of the Housing and Regeneration Act where the Landlord is a private registered provider of social housing, or where the landlord is a body registered as a social landlord under Chapter 1 or Part 1 of the Housing Act 1996, fall under the exemptions for the legislation.

However the properties would be required to be compliant in the event that they were in private ownership following enforcement of the security. We have received the EPC Rating for 82.3% of the valued stock with 0.24% of these units having an EPC rating lower than E.

3.4. Fire Risk Assessments

The Existing Borrower confirm that, where applicable, Fire Risk Assessments ('FRAs") have been undertaken where required and are within date or are in the process of being finalised, and that the properties comply with all relevant standards and regulations. Our valuation is prepared on this assumption.

3.5. Town Planning

We have not made specific planning enquiries for each site. We have therefore assumed for the purposes of this Report, save as set out in the Properties Documents and copies of standard tenancy agreements and various planning agreements in respect of the Properties, that there are no planning conditions that would adversely affect the valuation.

3.6. Title and Tenure

3.6.1. Title

Our valuation reflects our opinion of value in aggregate of the freehold or long-leasehold interests (in each case) of the Properties owned by the Existing Borrower and identified by the subject of this Report and scheduled at **Appendix 1**.

In respect of each Property which we have valued on the basis on MV-STT we confirm that we have reviewed the Property Documents and confirm that each such Property can be disposed of on an unfettered basis (i.e. subject only to existing tenancies disclosed in the Property Documents but not subject to any security interest, option or other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

3.6.2. Tenancies

The Properties are understood from the Existing Borrower to be subject to Assured, Secure or Assured Shorthold tenancies. The Existing Borrower standard tenancy agreements are assumed to be in a typical format however they have not been seen as per of this revaluation.

It is assumed that under the Assured and Assured Shorthold tenancy agreements, rents can be reviewed once a year to a market level. The tenant is also assumed to have the usual rights of appeal to the local Rent Assessment Committee.

Under typical Fair/Secure Rent tenancies the rent is reviewed every 2 years with reference to the local rent Officer.

There are a number of the Properties which are subject to management agreements with other Registered Providers ("RP") of social housing. We understand that in these instances the other RP manages the properties and pays the Existing Borrower the rent due less the agreed agent fee and a void allowance. The management agreement can be terminated on either party by giving one year's written notice.

3.6.3. Shared Ownership Leases

We have not seen the standard shared ownership lease of the Existing Borrower as part of this revaluation. We have assumed that the shared ownership leases follow a typical format of 99 or 125 years and are essentially a FRI lease making the tenant responsible for all repairs. In addition the lease will allow stair-casing by the leaseholder to buy additional blocks of equity.

The lease will detail the level of specified rent, set at the leases inception, and the rent review provisions of the lease. We understand the majority of the leases provide for annual rent review to RPI + 0.5%. We have increased rents by CPI + 1% which in general terms is the same as RPI + 0.5%. Full details of the rents payable and the equity held by the Existing Borrower are set out in **Appendix 1**.

3.7. Rental Income

The gross annual rental income currently produced by the Properties, before deductions, is shown in the following table broken down by tenure.

Table 7: Gross Rental Income (correct as at 31 March 2021)

Tenure Type	Gross Rent £
General Needs Social Rented	£139,168,912
General Needs Affordable Rented	£19,988,054
Sheltered Social Rented	£13,819,865
Supported Social Rented	£3,139,532
Intermediate	£2,280,849
Market Rented	£5,475,026
Shared Ownership	£5,407,772
Grand Total	**£189,280,009**

Source: Existing Borrower

Average net rent levels, on a 52 week year basis, are shown below, as derived from the property schedule sent to us by the Existing Borrower.

Table 8: Rental Analysis 21/22 £ per week net

Property Type	Current Rent £
General Needs Social Rented	£111.77
Sheltered Social Rented	£98.87
Supported Social Rented	£113.92
Social Rented Average	**£110.53**
General Needs Affordable Rented	£147.95
Intermediate Rented	£186.60
Market Rented	£266.55
Shared Ownership	£75.47

Source: Existing Borrower

4. Market Commentary

4.1. General Market Commentary

4.1.1. Economy

In common with other economies around the world, the UK economy has suffered in 2020/21 as the coronavirus pandemic remains the dominant feature of the global economy. The UK Government has increased borrowing to put in place significant support measures for the economy and businesses which may go some way to reduce the impact of the pandemic, however it is evident the economic impact will be significant.

The Office for National Statistics estimates UK GDP fell by 7.6% in the three months to July 2020, with declines across all main sectors of the economy. In July, monthly GDP was 11.7% lower than the pre-pandemic levels seen in February 2020. However, economic recovery was stronger than anticipated in Q3; UK GDP growth in July was 6.6%. Oxford Economics forecast that growth in Q4 will be markedly weaker than growth seen in Q3 2020 due to the second lockdown and with a third lockdown in early 2021 any improvement is unlikely to happen before Q2 2021.

The Bank of England base rate is expected to remain at 0.1% for the foreseeable future and rise only gradually thereafter as the MPC attributes downside risk to uncertainty regarding the coronavirus pandemic's effect on future unemployment.

4.1.2. Housing Market – General

The pace of change in the UK housing market has been surprising since May 2020. For the seven and a half weeks from 23rd March to 13th May, the housing market was effectively in lockdown and transaction activity was severely suppressed. Since reopening, several factors have caused a wave of activity in the market. Behavioural changes have encouraged some occupiers to trade up the housing ladder, incentivised by the current stamp duty holiday, while others are looking to move as they reassess their work-life balance. In addition, there is residual pent up demand in the market following the lockdown earlier in the year. This activity led to positive house price growth in 2020, which is unlike the pattern seen in any other recessionary period, as demand outpaces supply being brought to the market.

According to Nationwide house prices rose by 0.8% in December and total growth was 7.3% the highest in six years. The end of the stamp duty holiday and rising unemployment will temper the market in 2021. The outlook after the stamp duty holiday finishes will depend on the state of the wider economy but on balance Savills expect prices to remain flat in 2021. In the medium term Savills anticipate that the five-year outlook for prices will be just over 20%, albeit with regional variations depending on major sectors of employment.

The Government has recently extended notice periods for evictions to 6 months and confirmed no evictions will currently be enforced. No direct financial support for tenants has been given to date. However rental values tend to be more resilient than capital values during a downturn, and Savills Research expect rents to remain relatively resilient in the coming months and years. There may be modest falls in private sector rents paid over the next year as rental growth generally shows a correlation with income growth, with growth accelerating again as income growth returns.

4.1.3. Social Housing and Residential Investment Markets

The impact of the COVID-19 pandemic on sales transactions between RPs has been limited. RPs are working hard to support and safeguard their tenants and staff at this time. Thorough stress testing has been carried out with particular focus on rent arrears and bad debts, voids and operational costs, with some business plans updated, but impacts are expected to be relatively limited and many paused repair and development programmes have now re started. Sales transactions have continued to take place over the past six months, market activity remains steady and there has been no discernible impact on pricing.

Activity in the residential investment market has gradually resumed over the past three months and increasing numbers of transactions are taking place at pre-pandemic pricing/yields. Levels of rent collection and occupancy rates are also at pre-pandemic levels.

4.1.4. Residential Property Forecasts

Savills' most recent house price forecasts that 2021 will be a complex year, with competing forces having different impact on the housing market over the course of the year. But government support, the easing of social distancing restrictions and low interest rates underpin our forecast for 4.0% price growth. It is however expected that activity in 2021 will be split into three parts, with Q1 and Q2 seeing significant activity up to the end of the stamp duty holiday with a downturn in Q3 with a boost to activity in Q4. We expect the pace of the market to however vary across regions.

At this stage in the housing market cycle, it would normally be expected that the Midlands, North, Wales and Scotland would perform strongest, with slower growth in London and the South where values rose faster in the decade preceding the EU referendum. COVID-19 has the potential to change that dynamic in the short term. The Home Counties in particular are seeing high levels of activity at present as working habits change and families choose to re-locate there.

Different employment sectors have faced different challenges during the lockdown. For some sectors, such as Professional, Scientific & Technology, the impact is relatively mild, with many employees able to work from home. For others, such as Accommodation & Food Services, remote work is not usually an option. Housing markets will recover fastest in regions with more jobs in more resilient employment sectors.

We therefore expect the South East and East of England to lead the housing market recovery. These regions will also benefit from current low interest rates, which in the short term will ease some of the affordability pressures that have constrained price growth there.

Our latest forecast for mainstream residential property is shown in the table below.

Table 9: Nominal House Price Forecasts – Mainstream Markets

Region	2021	2022	2023	2024
UK	4.0%	5.0%	4.0%	3.5%
London	2.5%	4.5%	2.0%	2.0%
East	5.0%	4.5%	2.5%	2.5%
South East	5.0%	4.5%	2.5%	2.5%

4.2. Local Sales Market Conditions

In common with most of the UK, the housing market in these regions suffered difficult market conditions and falling values from 2007 to 2009 as a result of poor economic conditions. The market began to recover in 2010, with average values surpassing those seen pre-recession, and has continued to increase gradually in recent years. This is illustrated in Chart 1 below.

In terms of sales volumes, levels fell significantly between 2007 and 2009 before gradually increasing over the following years. Sales figures have failed to reach the highs seen prior to the recession with figures falling in 2016 due to uncertainty caused as a result of the EU referendum, the tightening of lending regulations and stamp duty changes. This is illustrated in Chart 2 below.

Since the general election in December 2019 the sales market has seen continued momentum and this has been aided by the stamp duty holiday. Across the regions both the volume of sales and achieved prices have generally remained steady or have picked up against the backdrop of the pandemic which has had a significant impact on the wider economy. The price growth of houses has been significantly more than that of flats as people have re-evaluated their housing requirements. Demand for family housing with gardens, parking and extra space to work has continued to rise. For those looking to buy flats, buyers are prioritizing homes with private outside space but not all home can meet this requirement which is then reflected in pricing.

Reflecting the above parts of London have seen price reductions predominately in the case of flats were people are looking to move out of urban locations to the suburbs. This trend isn't expected to continue when we return to the new normal.

Future house price growth in London and the South East is however likely to be driven by affordability and therefore will depend on the availability of higher loan to value mortgages.

4.3. Rental Market

The rental market has always varied across the country, but the impact of Covid-19 has driven this variation to new heights. The pandemic, and related lockdowns, has meant a unique combination of factors have disrupted the relationship between supply and demand, causing rental falls in some city centre markets but supporting the market for larger properties in other locations.

As the vaccination programme is rolled out we expect the market to progressively normalise; reversing some of the Covid-specific trends seen in 2020. In time, we expect rental growth to become primarily dictated by growth in incomes, much as it has done in the past. But, given the prospects for the wider economy, we expect a period when the rental market remains price sensitive to be followed by a burst of stronger rental growth, which we have pencilled in for 2022.

The impact of the pandemic on rental values has been most acute in city centre markets. As a result, a number of these markets have seen rental falls during the year, with London for example down -6.1% over the 12 months to November. In contrast, rents have increased by 2.8% on average across the rest of the country in the same period.

This average disguises the fact that some of the other major cities have also seen rental values fall. So while smaller cities, towns and suburban areas have seen continued rental growth, in Birmingham, Manchester and Edinburgh rental values are down -3.4, -1.4% and -2.0% respectively.

Although applicant demand was strong overall after the first lockdown of 2020 eased, we have seen a build-up of unlet properties in specific areas, reflective of demand from certain groups of tenants who have been particularly affected by the events of 2020. This includes one and two bedroom flats in urban centres, such as London, with limited or no outdoor space. That stock is mostly in the hands of private landlords who have been keen to retain an income, even if lower than their pre-pandemic expectations.

More specifically, we have seen younger home-sharers move back to the family home, at a time when they can work remotely and save money by handing back the keys at the end of their tenancy. We have also seen reduced corporate and student demand, with international demand particularly affected.

What then of the future?

2021 is likely to be a year of two halves. On the one hand, rising levels of unemployment in the first half of the year combined with weak income growth will constrain the market. Renters on lower incomes, who are more likely to work in sectors such as hospitality or retail, are more exposed to these economic risks. On the other hand, as vaccine deployment gains momentum, we can expect a phasing out of social distancing, potentially from Q2 onwards. This will be critical to domestic demand returning to the major cities. Working from home, while likely to remain above pre-Covid levels, will reduce, and we expect to see a corresponding rise in demand for city centre living.

It will also be key to the return of international tenant demand. Though extra barriers faced by EU residents looking to work in the UK and the pace of vaccination in other countries may temper this, a return of tourists should allow some stock to return to the short-term let market. This is expected to mean that London outperforms the rest of the country, reversing some of this year's rental falls. Although we're starting to see the recovery of supply levels to pre-Covid levels in some London markets, there's still an oversupply of unlet properties due to changing tenant preferences. As it will take time to erode that excess supply in 2021, we expect much stronger rental growth in 2022. In later years we are likely to see a return to income growth acting as the main driver behind rents both nationally and in London.

This rental growth is likely to be underpinned by the continued divestment of buy-to-let landlords – especially among those most recently affected by non-payment of rent or extended void period.

Table 10: Rental Forecasts – Mainstream Markets

Region	2021	2022	2023	2024	2024
UK	0.8%	4.5%	3.7%	3.5%	3.5%
London	1.5%	5.5%	4.0%	3.5%	3.5%

4.3.1. Comparables

In order to provide market values and rental values we have used evidence of both achieved sales prices and asking prices, where available, for properties on the market in the immediate area to the subject units. Our sources for this information include Rightmove, Rightmove Plus and agents' own websites, as well as discussions with local agents where necessary.

We undertake detailed research in to comparable sales and market lettings and details of these are kept on our files for audit purposes. We do not include comparables in our reports as some of this information is confidential and may be protected under General Data Protection Regulations.

All sale values were considered as open and not forced sales. To achieve values for resale research was undertaken using readily accessible sources that included:

- Determination of the area of similar properties related to market / social sector
- Land registry information on recent completed sales for the immediate post code and where necessary those of the adjoining areas
- Review of values for similar size and type of properties being marketed in the area of the actual location

A comparison between the particular size / quality / condition of the property viewed related to that of known sales values and those of what were being sought and a judgement made as to what could be considered as a fair actual value.

4.4. Vacant Possession Values

Table 11 below shows the average vacant possession values for the self-contained properties included within the valuation summarised by type and bedroom number:

Table 11: Vacant Possession Values

Savills Property Type	Bedrooms	Average VP Value
Houses and Bungalows	1	£174,000
	2	£256,000
	3	£315,000
	4	£512,000
	5	£772,000
	6	£939,000
	7	£1,055,000

5. Valuation Approach

5.1. Existing Use Value For Social Housing - Valuation Approach

5.1.1. Approach to EUV-SH

EUV-SH for loan security assumes the property will be disposed of by a mortgagee in possession to another registered provider of social housing ("RP") who will continue the use of the properties for social housing. These organisations will calculate their bid according to their projected income and outgoings profile which they would estimate the properties would produce under their management. This basis assumes rents will remain affordable to those in low paid employment and that all vacant units be managed within the aims and objectives of an RP.

We consider that the appropriate method of valuation is to use a discounted cash flow ("DCF"). The DCF allows us to project rental income and expenditure over the term of the cash flow to arrive at an annual surplus or deficit, which is then discounted to a net present value. However it is also necessary to consider comparable transactional evidence where available.

5.1.2. Principal DCF Variables

The DCF assumptions are derived from information received from the RP and economic data. The table below sets out our principal assumptions. More detailed discussion on discount rate, adopted rent levels and rental growth is contained in the following sections.

Table 13: DCF Variables

DCF Variable	Amount	Year	Variable Unit	Source
Current social rent	£110.53	Current	£ per week	RP
"Convergence" rent	£118.19		£ per week	Savills
Affordable Rent	£147.95	Current	£ per week	RP
Voids and bad debts	3.50%	All Years	% of Debit	RP/ Savills
Turnover	2.0%-6.0%		% pa	RP/ Savills
Management costs	£650-£1,000		£ pu pa	RP/ Savills
Catch-up Repair costs	N/A		£ pu pa	RP/ Savills
Cyclical & Responsive maintenance. costs	£800-£1,000		£ pu pa	RP/ Savills
Programmed Maintenance costs	£1,300-£1,600		£ pu pa	RP/ Savills
Rental Inflation	1.0% following convergence		% real pa	Savills
Annual CPI (general)	2.00% 2.00% 1.80% 1.80% 2.00%	Yr 1 Yr 2 Yr 3 Yr4 Yr 5+	% real pa	Savills
Maintenance cost inflation	1.00% 0.50% 0.70% 0.95% 1.00%	Yr 1 Yr 2 Yr 3 Yr4 Yr 5+	% real pa	Savills
Programmed cost inflation	0.75% 1.75% 2.20% 2.20% 0.50%	Yr 1 Yr 2 Yr 3 Yr 4 Yr 5+	% real pa	Savills

5.1.3. Discount Rate

There is no hard-and-fast rule for determining the most appropriate rate to be adopted in a discounted cash flow. The discount rate is probably the most important variable in the model since it determines the net present value of future predicted income and expenditure flows for the property in question. Our role as valuers is to interpret the way in which potential purchasers of the stock would assess their bids. The market for this stock will be within the RP sector.

Effectively, the discount rate is representative of both the long-term cost of borrowing for an acquiring organisation and the risks implicit in the property portfolio concerned. The current level of long-term interest rates and the overall cost of funds must be reflected in our valuation. In addition to considering the cost of funds, we also need to make an allowance for the risk which attaches to our cashflow assumptions – some of which may be subject to a higher degree of risk than those generally made in the business plans. The margin for risk needs to be considered on a case-by-case basis, having regard to the nature of the stock.

Currently the yield on 30 year Gilts is around 1.28%. This is in effect the risk free discount rate. Yields on Housing Association long dated, rated and unrated bonds are running typically around 1.5% to 2.2% (Source: Social Housing, February 2021).

Since the COVID-19 crisis began there have been a number of transactions reflecting the continuing investor appetite in the market. Activity in the bond market over the past year includes the public rated issues in January 2021 of Aster 2.27% (1.60% spread), and Clarion 1.77% (0.88% spread), in November 2020 Orbit at 2.07% (1.35% spread), August 2020 of Hyde 1.75% (1.30% Spread), Platform 1.625% (0.97% Spread) and April 2020 of Sanctuary 2.375% (1.70% spread).

The supply of traditional long term (25 or 30 year) funding has diminished and is only available from a handful of lenders. Shorter term traditional funding (5–7 years) and funding with in-built options to re-price margins at a future date are commonplace, introducing a new level of re-financing risk to business plans.

Notwithstanding this, new business plans are typically being run at nominal interest rates at ‘all-in’ costs of funds of around 5%, reflecting the increased availability of long term finance from the capital markets.

Given the sustained reduction in funding costs our view is that for good quality, generally non-problematical stock, a discount rate between 4.75% and 5.5% real is appropriate (over a long-term CPI inflation rate of 2%). A greater margin for risk will be appropriate in some cases. We would expect to value poorer or more risky stock at rates around 5.75% to 6.5% real. On the other hand, exceptional stock could be valued at rates around 4.25% to 4.75% real.

We have adopted a discount rates of 4.5%-5.75% real for the self-contained general needs units, 5.0%-6.25% real for the self-contained sheltered and supported units, 5.5%-6.0% real for the intermediate units and 6.5% real for the non-self-contained units over an assumed CPI inflation rate of 2.0%.

Our cashflows are run in perpetuity and not over 30 yrs. For your information our valuation implies an average real discount rate over a 30 year cashflow of 2.75%-3.75%.

.

5.1.4. Social Rents - Savills "Convergence" Rents and Rental Growth

RP's are required to set their Social Rents in accordance with Rent Standard Guidance issued by the Regulator of Social Housing. The Guidance sets out a formula for calculating most Social rents which reflects property values, local earnings and bedroom size. From April 2020 the new Rent Policy Statement will apply which allows for existing rents to rise at CPI+1%.

Some latitude is given in that rents for new lettings can be no more than 5% higher than their formula level. For sheltered and supported properties the margin is extended to +10%. The rents produced by the formula are net of service charges. Service charges are expected to be charged over and above the rents and to reflect what is actually being provided to tenants.

Mortgagees in possession and their successors in title are not bound by the provisions of the Rent Standard. In theory, therefore, a purchaser could base a bid for the properties on rents up to open market levels as permitted under the terms of the tenancy agreements. However any RP purchaser would need to set rents that are consistent with its objectives as a social housing provider.

We therefore believe that a purchaser in a competitive transaction is likely to set rents at a level which they consider are the maximum affordable to those in low paid employment locally. We assume they would intend to charge such rents for new tenants and increase existing rents to a sustainable and affordable rent over a reasonable period.

The average rents across the charged stock are set out below, along with the current formula rents and our assessed sustainable affordable rent or "convergence" rent. We have adopted these convergence rents in our valuation.

Table 14: Rental Analysis 2021/22 £ per week net

Type	Estimated Tenant Household Incomes £	Net Rent 2021/22 £	Savills Convergence Rent 2021/22 £	Savills Convergence Rent Afford. Ratio 2021/22 %	Market Rent 2021/22 £
House	£532.10	£113.53	£122.73	23%	£249
Flat	£436.08	£106.33	£111.91	26%	£238
Grand Total	**£492.71**	**£110.53**	**£118.19**	**24%**	**£244**

Source: The Existing Borrower & Savills

Excludes Nil Value Units

We have assumed all rents will converge to our convergence rent in in seven years time. The annual rent increases have been limited to 5.0% per annum nominal.

In the long term, in order to maintain consistent levels of rent affordability, the maximum possible rate of rent growth will be growth in local household incomes which is currently predicted to be around 3% pa over the next 10 years in the areas. We have therefore assumed that after they have converged rents will increase at CPI + 1% per annum.

We have relied on the current and formula rents supplied by the Existing Borrower in carrying out this valuation. We have not carried out any validation of or research into the rents supplied.

5.1.5. Affordable Rents

In certain circumstances, RPs are able to offer new assured tenancies at intermediate rents at up to 80% of the market rent – such rents are known as 'Affordable' as opposed to 'Social' rents. The ability to charge the higher rents is dependent upon the RP having a Development Framework contract with the HCA or a Short Form Agreement where they are not in the Development Framework.

There are currently 2,598 Affordable Rent units within the stock. The current average rent for these units is £147.95 per week. This is about 35% higher than the target rents on the same properties. These units have been included in our valuation at their current Affordable Rent levels.

Under the Rent Standard the rents payable for Affordable Rent tenancies increases annually by CPI plus 1% per annum. Rents are rebased to market rent upon the granting of a new tenancy. Thus we have assumed that a purchaser from a mortgagee would increase existing Affordable Rents in line with movements in market rents over the long term.

Market rents tend to increase in line with household incomes. Income growth forecasts for the area are currently 3.18% per annum. We have therefore assumed that rents will increase at CPI + 1% pa.

5.1.6. Sales Between Registered Providers – Transactional Evidence

Until recently evidence of sales between RPs was extremely limited – most transactions were simple transfers of engagements. However in recent years there has been a growing body of transactional evidence from competitive sales between RPs of tenanted stock. The evidence confirms RPs have a consistent tendency to pay a higher sums for some social housing portfolios than would be suggested by traditional, purely cashflow driven, EUV-SH valuations. We have been heavily involved in this emerging market and have a database of transactions covering circa 50,000 units.

Although the body of evidence is relatively small compared to the total RP stock in the UK and the market is still immature, we are able to derive a view of the prices achieved for certain kinds of stock and lot sizes. Assuming a sensible lotting of units in smaller batches of circa 100 units, bids between 5% to 30% above traditional EUV-SH levels are common for more modern stock in reasonable proximity to amenities.

In contrast it is apparent that for lots exceeding around 200 properties the prices achieved appear to be in line with the traditional, cashflow approach to EUV-SH.

In this case you have instructed us to value the Properties assuming a sale as a single lot and our valuations do not therefore reflect the higher bids that can be received for small portfolios.

5.2. Market Value Subject to Tenancies (MV-STT) - Valuation Approach

5.2.1. Valuation Methodology - MV-STT

We assess the MV-STT in two ways; firstly by applying a discount to Market Value with Vacant Possession ("MV-VP") and secondly by applying a yield to rental income.

The valuation of properties and portfolios subject to Assured and Secure tenancies is carried out with reference to comparable evidence from the sales of similar tenanted portfolios and individual units, and sold subject to Protected Tenancies or Assured Shorthold Tenancies. There is an established body of evidence from portfolios traded on the open market to which we can refer.

Investors tend to base their bid on their ability to "trade out" individual units at Market Value assuming vacant possession over time. In locations where there is a limited market or where a property is difficult to trade, owing to style or market conditions, investors will base their bid on rental return compared to capital cost.

The discount to MV-VP ranges from 10% for prime property to 50% where market conditions are difficult. Typical rates are around a 20% to 30% discount to MV-VP for properties subject to AST tenancies.

The yield applied to net income varies from 5% or less for prime property, to 7% or more for poorer locations. This equates to a yield on gross income (after deductions for management, maintenance & voids) of between 7% to 10% and possibly higher for Sheltered accommodation.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

The Residential Investment market is currently active in these locations and having discussed the portfolio with agents active in the market we expect that the Properties would attract good demand if brought to the market.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

5.2.2. Principal Assumptions – MV-STT

We have considered the above in arriving at our valuation. The yield and other principal assumptions adopted are set out below.

Table 15: MV-STT Assumptions

Variable	Variable	Year	Amount
Gross Annual Rental Income*	£	Current	£135,020,410
Voids	% of Rent Debit p.a.	All years	5.0%
Management	% of Rent Debit p.a	All years	10.0%-15.0%
Maintenance	% of Rent Debit p.a	All Years	15.0%-17.0%
Net Yield Applied	%	All Years	5.02%

Source: Savills

**Note: market rent assumed*

5.3. Shared Ownership - Valuation Approach

5.3.1. General

There are 1,378 properties subject to Shared Ownership leases within the Portfolio of Properties. They retain around 58% of the equity in their units, overall. Please see **Appendix 1** for details of such properties, shares held and rental income produced.

5.3.2. Valuation Approach

Shared Ownership property produces a rental income dependant on the percentage owned by the leaseholder and the percentage retained by the lessee. As leaseholders have a stake in the property, arrears and default are comparatively rare and landlords can retrieve management costs. Maintenance does not erode rental income as the leaseholder is responsible.

Shared Ownership property thus produces good quality, low risk rental income on the share retained. In addition capital receipts can arise on the occurrence of default or when the leaseholder decides to acquire the whole or a portion of the remaining equity. This usually happens when they decide to sell and move on.

We use a discounted cashflow model designed for the valuation of Shared Ownership property which projects future rent and outgoings to arrive at a net present value. This cashflow can be tested with a variety of staircasing and default scenarios.

In this case we have assumed that the Existing Borrower recoups all service costs through service charges and that management income and the management charge equals the management expenditure. We have applied discount rates of 3.0%-4.50% real reflecting the very secure nature of Shared Ownership income.

5.3.3. Shared Ownership Valuations Principal DCF Assumptions

Our principal valuation assumptions are as follows:

Table 16: Shared Ownership Assumptions

Variable	Unit of Cost	Year	Variable Amount
Discount rate	%	Year 1	3.0%-4.50%
Average rent	£ pw, 100% before adjustments for share	Current	£128.40
Management cost	£ pu pa	All Years	£150
MV-VP	£ average, 100% before adjustments for share	Current	£285,000

Source: Savills

5.4. Valuation Considerations

5.4.1. Housing and Planning Act 2016

The Housing and Planning Act 2016 contained proposals to deregulate the housing sector which will give much greater freedom to housing providers to dispose of and manage their property assets. The deregulation provisions came into effect on 6 April 2017. As a result s.133 of the Housing Act 1988, which requires consent to be obtained prior to disposal of transferred property, is no longer effective. Valuations of LSVT stock after April 2017 can be undertaken on a Market Value basis where lenders requirements and legal title permit. In accordance with our instructions the LSVT stock has been valued on the EUV-SH basis.

6. Valuations

6.1. Valuations

6.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Properties that may be disposed of by a mortgagee in possession at MV-STT, that is on an unfettered basis (meaning subject to existing tenancies but otherwise with vacant possession and not subject to any security interest, option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use) as referred to in paragraph **1.2** above.

Our opinion of value, in aggregate, of the 9,112 dwellings as mentioned at **1.2** above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£2,352,470,000 (Two Billion, Three Hundred and Fifty Two Million, Four Hundred and Seventy Thousand Pounds)**

Table 17: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Tenure Type	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	8,560	£2,211,609,000	£629,799,000
Leasehold	552	£140,861,000	£41,653,000

6.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,747 rented dwellings and retained equity in shared ownership dwellings as mentioned at **1.3** above, on the basis of

- Existing Use for Social Housing is **£1,407,227,000 (One Billion, Four Hundred and Seven Million, Two Hundred and Twenty Seven Thousand Pounds.)**

Table 18: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH

Tenure Type	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	22,288	£1,364,770,000
Leasehold	459	£42,457,000

There are 2,930 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1.**

6.4. COVID-19: Market Conditions Explanatory Note

The outbreak of COVID-19, declared by the World Health Organisation as a "Global Pandemic" on the 11th March 2020, has and continues to impact many aspects of daily life and the global economy – with some real estate markets having experienced lower levels of transactional activity and liquidity. Travel restrictions have been implemented by many countries and "lockdowns" applied to varying degrees.

The pandemic and the measures taken to tackle COVID-19 continue to affect economies and real estate markets globally. Nevertheless, as at the valuation date some property markets have started to function again, with transaction volumes and other relevant evidence returning to levels where an adequate quantum of market evidence exists upon which to base opinions of value. Accordingly, and for the avoidance of doubt, our valuation is not reported as being subject to 'material valuation uncertainty' as defined by VPS 3 and VPGA 10 of the RICS Valuation – Global Standards.

For the avoidance of doubt this explanatory note has been included to ensure transparency and to provide further insight as to the market context under which the valuation opinion was prepared. In recognition of the potential for market conditions to move rapidly in response to changes in the control or future spread of COVID-19 we highlight the importance of the valuation date.

6.5. Fire Safety and Multi Storey Buildings

Following the Grenfell Fire tragedy in June 2017, there has been a considerable focus on the safety of tall buildings where people sleep, concentrated on those of 18 metres or greater in height, albeit the scope is likely to extend to those of lower height in multiple occupation as has recently been addressed in the RCS guidance note. Measures taken by the Government have included much stricter control of potentially combustible materials in external wall systems, and effectively a wholesale review of Building Regulations. Whilst the full details of the new Building Regulations regime are awaited, uncertainty may exist regarding any remedial works that might be required to the subject property and any impact on our reported values subsequent to the valuation date.

We would therefore draw your attention to Section 3.1.4 of this report that sets out the due diligence, assumptions and caveats upon which the valuation of the multi storey blocks has been prepared.

6.6. Lending Against MV-STT

With reference to **paragraph 6** on Tenure, it is essential that before lending on MV-STT the lender confirms that the development or valuation group is capable of being let at a Market Rent, or disposed of free from restrictions, should the lender take possession. If there are enforceable "Housing Restrictions" in title, planning approval, s.106 agreements or by separate Nomination agreements, that, for example, limit disposal to RPs only or binding contractual nominations then the correct relevant valuation basis is EUV-SH and not MV-STT.

We must also stress that it is up to investors to assess the terms of the Bonds and the amount of lending based on the valuations herein. We have set out the current rental income at **Appendix 1** but make no warranty that the current income is sufficient to support lending against MV-STT either on individual valuation groups or against the whole portfolio.

It is up to investors to assess what level of lending against MV-STT is prudent based on an RP's asset and income cover. Savills makes no recommendation of the maximum level of borrowing the Issuer is capable of supporting globally based on MV-STT.

6.7. Lotting and Value Disaggregation

We have valued the Properties as a single lot. As a result we have not assessed individual valuations for each Property. We have, however, provided a disaggregation of the overall valuation figures by reference to the appropriate rent and these figures are shown on the property schedule at **Appendix 1**.

The lender must be aware that the per unit figures shown in the schedule should not be regarded as individual valuations of the Properties. They are provided as indicative figures for administrative purposes only.

7. Suitability and Verification

7.1. Suitability as Loan Security

7.1.1. Lender's Responsibility

It is usual for a valuer to be asked to express an opinion as to the suitability of a property as security for a loan, debenture or mortgage. However, it is a matter for the lender to assess the risks involved and make its own assessment in fixing the terms of the loan, such as the percentage of value to be advanced, the provision for repayment of the capital, and the interest rate.

In this Report we refer to all matters that are within our knowledge and which may assist you in your assessment of the risk.

We have made subjective adjustments during our valuation approach in arriving at our opinion and whilst we consider these to be both logical and appropriate they are not necessarily the same adjustments which would be made by a purchaser acquiring the Properties.

Where we have expressed any reservations about any Property we have reflected these in the valuation figure reported. However it may be that the purchasers in the market at the time the property is marketed might take a different view.

7.1.2. Suitability as Security

We have considered each of the principal risks associated with the Properties within the context of the wider property market and these risks are reflected in our valuation calculations and reported figures as appropriate.

Overall, we consider that the Properties provide good security for a loan secured upon it, which reflects the nature of the Properties, our reported opinions of value and the risks involved.

7.2. Verification

This Report contains many assumptions, some of a general and some of a specific nature. Our valuations are based upon certain information supplied to us by others. Some information we consider material may not have been provided to us. All of these matters are referred to in the relevant sections of this Report.

We hope the above is acceptable for your purposes, should you have any queries, please do not hesitate to contact us.

Yours faithfully
For and on behalf of Savills Advisory Services Limited
