## Appendix 5

### Market Commentary

## UK Housing Market Overview

The UK housing market continues to adjust to varying levels of political and legislative change. Interest rates increasing from 0.5% to 0.75% for the first time since the financial crash, inflation continuing to outpace wage growth, and uncertainty surrounding Brexit all factor into a slowing UK economy. Despite this, house prices continue to rise on an annual basis and unemployment remains low. The outlook for UK economic growth remains steady and robust.

Annual housing transaction volumes were slightly lower in the year to June 2018 compared with a year earlier, but have increased slightly in the three months to June 2018 compared with the previous quarter, according to the HMRC.

National house prices continue to rise and house price growth in the UK for the year to June 2018 was 3.0%, down from 4.1% three months earlier and from 4.1% a year earlier. However, average prices increased by 2.0% in Q2 2018, the highest average quarterly house price increase since Q3 2017.

According to the June 2018 RICS survey, demand and sales remain subdued at the national level. Properties on the market in the three months to June 2018 are in line with the previous quarter. Looking ahead, near term sales expectations indicate a broadly flat picture for transactions across the UK.

Annual house price growth was positive across all regions except Greater London and the North East for the year ending June 2018. House price growth in London was -0.7% pa, well below the UK average of 3.0% pa. House price growth was the highest in the West Midlands at 5.8% pa, followed by Scotland at 4.8% pa. House price growth was stronger in the North regions than in the South in the year to June 2018.

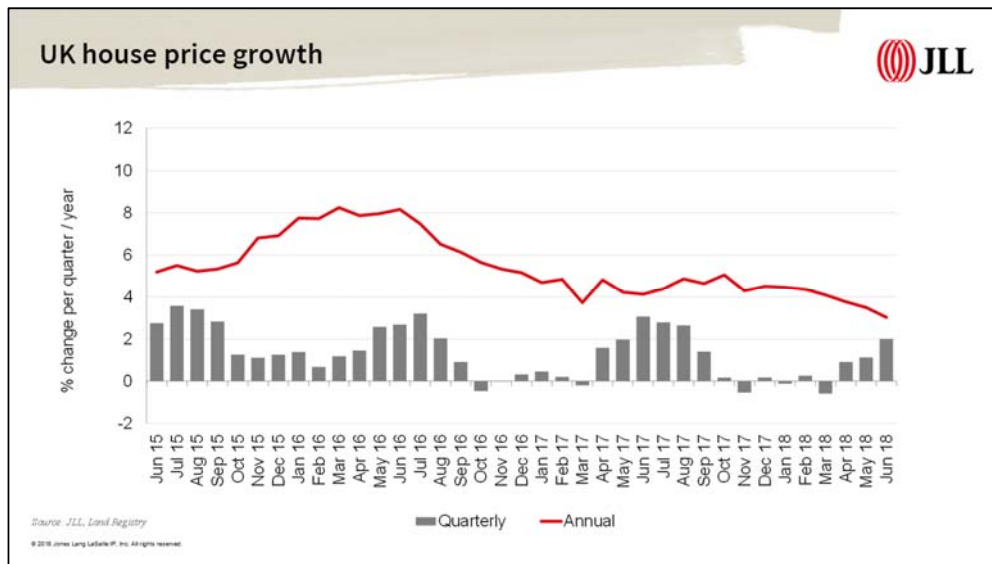

Construction starts in England in the year to Q1 2018 fell slightly compared with the previous year, while completions increased over the same period. The number of annual starts now stands at 156,950 and the number of completions at 160,510. These are some of the highest levels recorded since 2008, although still well below the delivery target of circa 300,000 new homes pa.

## UK Housing Market Analysis

Using a selection of data from Government sources, including Land Registry, HMRC and DCLG, as well as survey data collected by the RICS (the Royal Institution of Chartered Surveyors), this section provides a detailed analysis of the UK housing market.

### House price growth

In the three months to June 2018, house prices increased by 2.0%, up from a fall of 0.6% in the preceding three months. Annual price growth remained positive at 3.0% in the year to June 2018, slightly down from 4.1% in the preceding three months.

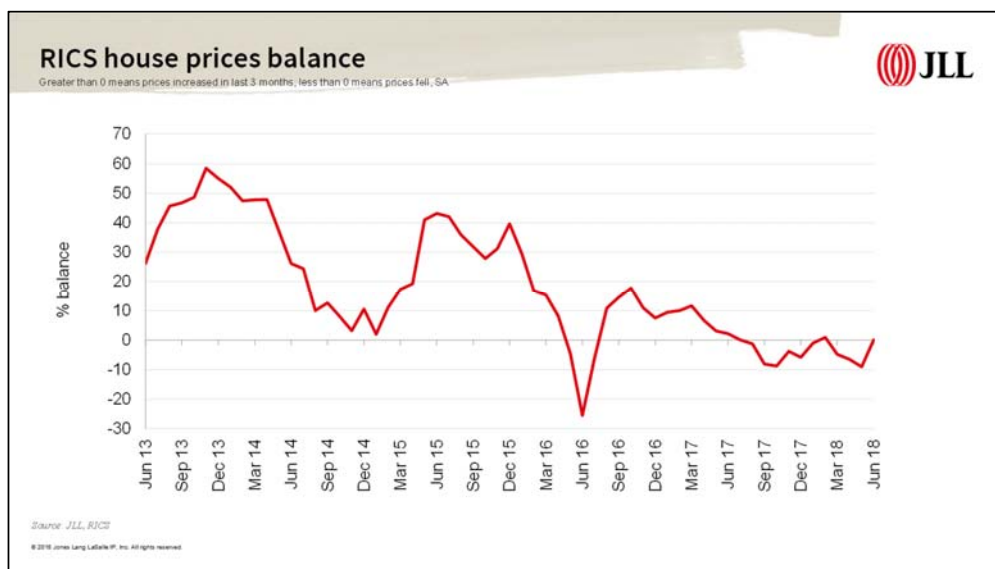

## Housing supply and demand

The following section analyses data from the RICS Housing Market Survey, a useful tool when analysing demand and supply in the UK housing market. The data is sourced from a survey of chartered surveyors across the UK and it includes a range of questions from their future perceptions of the market to how the market has moved in the preceding three months.

Several results are presented through a balance of surveyor views. Results below zero indicate that demand/supply is falling while positive values reveal a rise in demand/supply. Each value describes the rate at which demand/supply is growing or falling and it is useful in analysing the momentum of the market. The findings of the survey are presented below.

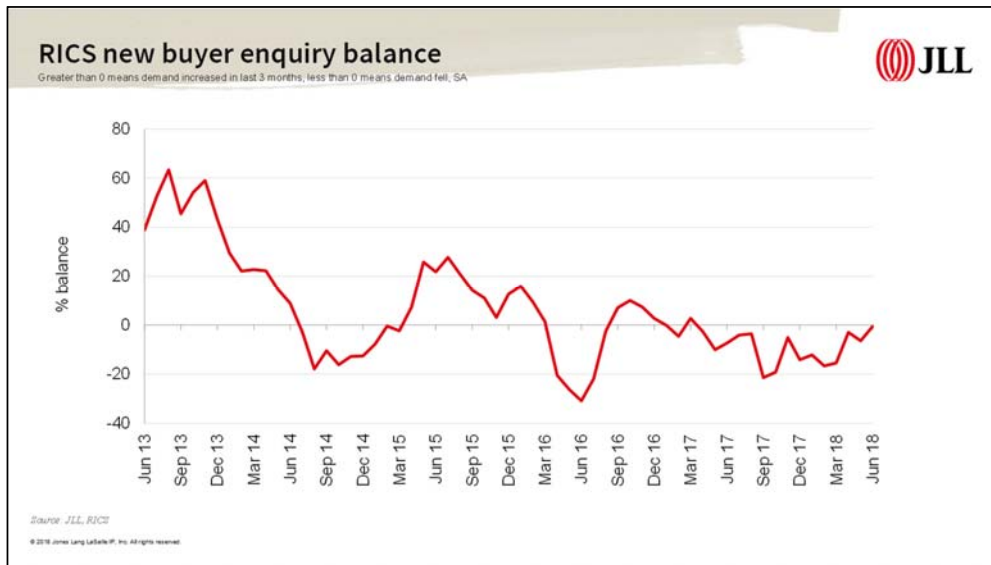

The RICS survey reveals that, on a seasonally adjusted basis, the price balance was +2% in June 2018. Over the past thirteen months the balance has hovered close to zero, indicating prices have been relatively flat.

The chart below reveals the difference in the proportion of surveyors who believe that the number of new buyer enquiries, in the last three months, has risen against those who believe that they have fallen. As such, any figures below zero indicate that more surveyors feel that demand has fallen rather than risen in the last three months. The balance reveals not only the changes in demand in the market but also how quickly levels of demand have moved.

The RICS survey reveals that, on a seasonally adjusted basis, housing demand has been falling in the three months to June 2018, though at a slower rate than the previous three months.

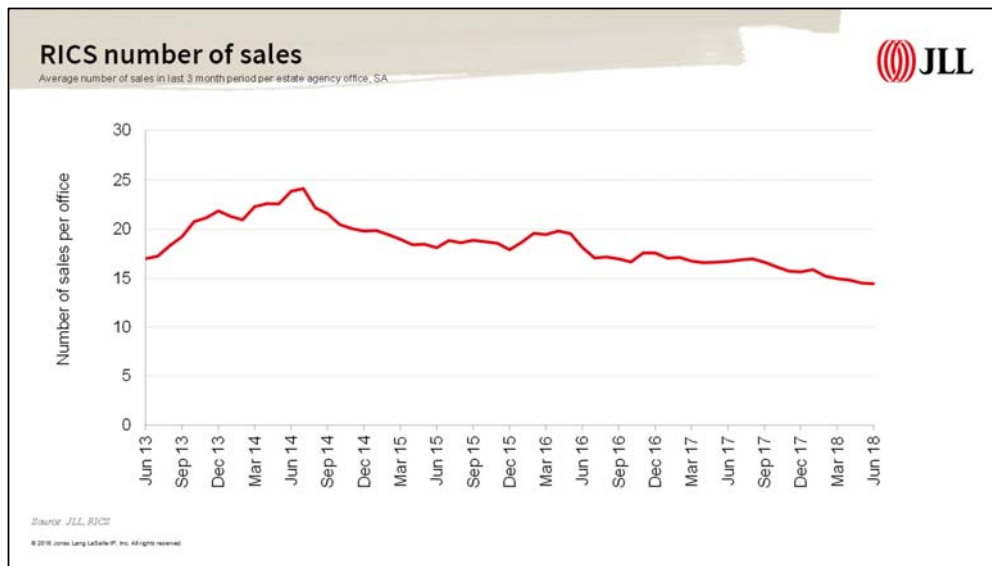

Per the RICS survey, the average number of properties on the market has remained steady following a sharp fall between March 2015 and December 2015. In June 2018, the average number of properties on the market per office remained at 43 when compared with 42 the previous quarter and 43 in June 2017.

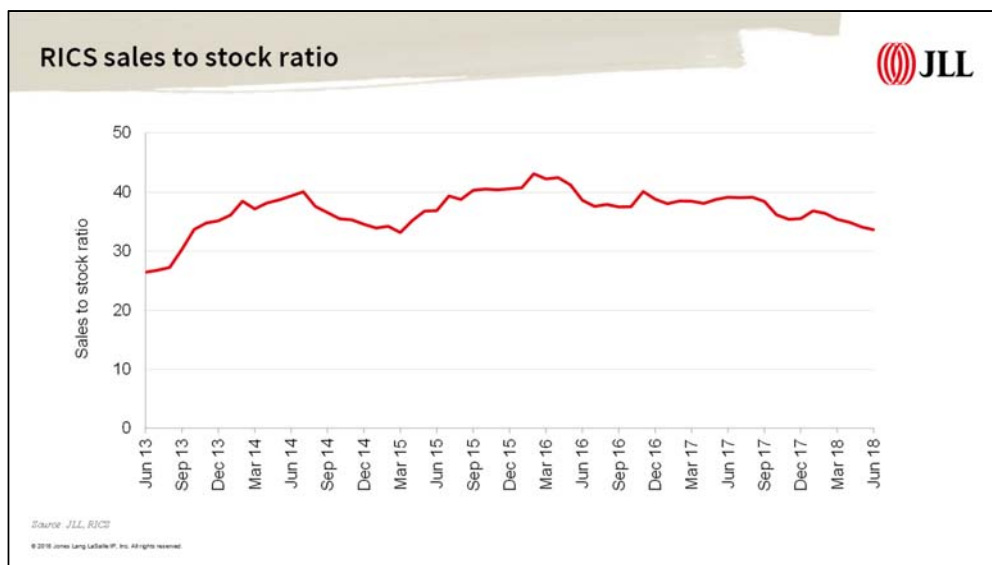

The average number of sales per month per estate agency office remained relatively static during the three months to June 2018, but has been slowly decreasing since August 2017.

As of the end of June 2018, estate agency offices were selling approximately 15 homes on average each during the preceding three-month period, slightly down from 17 homes a year earlier.

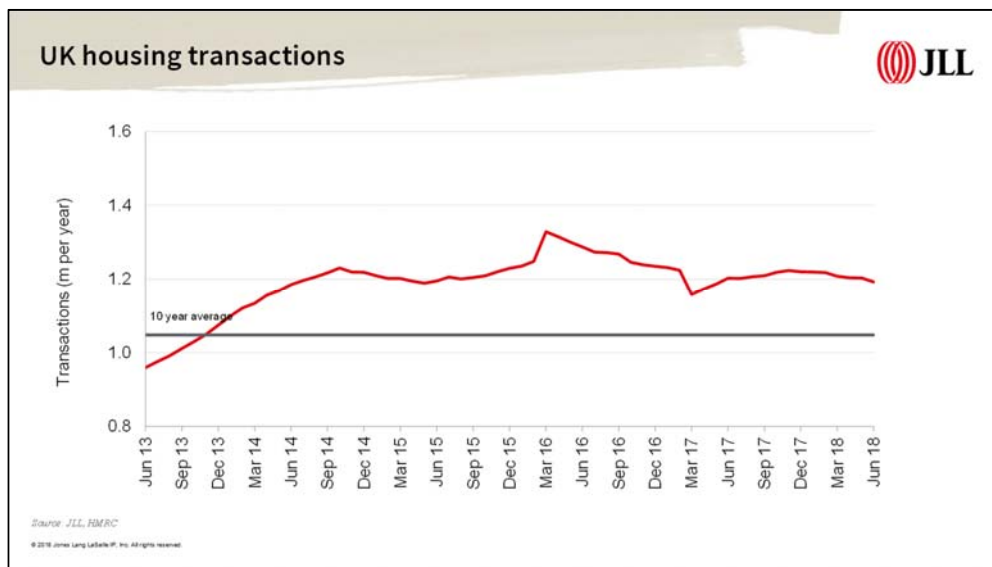

Further data from the RICS survey reveals that the sales to stock ratio has slightly decreased in June 2018. The sales to stock ratio in June 2018 was 34, compared to 35 in March 2018 and 39 in June 2017. This implies a small weakening in the market between March and June.

## Housing transactions

HMRC data reveals that annual transactions decreased in Q2 2018 compared with the previous three months. Transactions have been generally falling since the spike in transactions in March 2016 before the introduction of the new stamp duty tax.

In the year to June 2018, there were 1.19 million transactions in the UK, compared to 1.20 million transactions a year earlier. Annual transactions remain above the 10-year average of 1.04 million.

## The mortgage market

Data from the Bank of England shows that lending has been falling slightly across the country on an annual basis. Monthly, approvals have been mainly declining since January 2018.

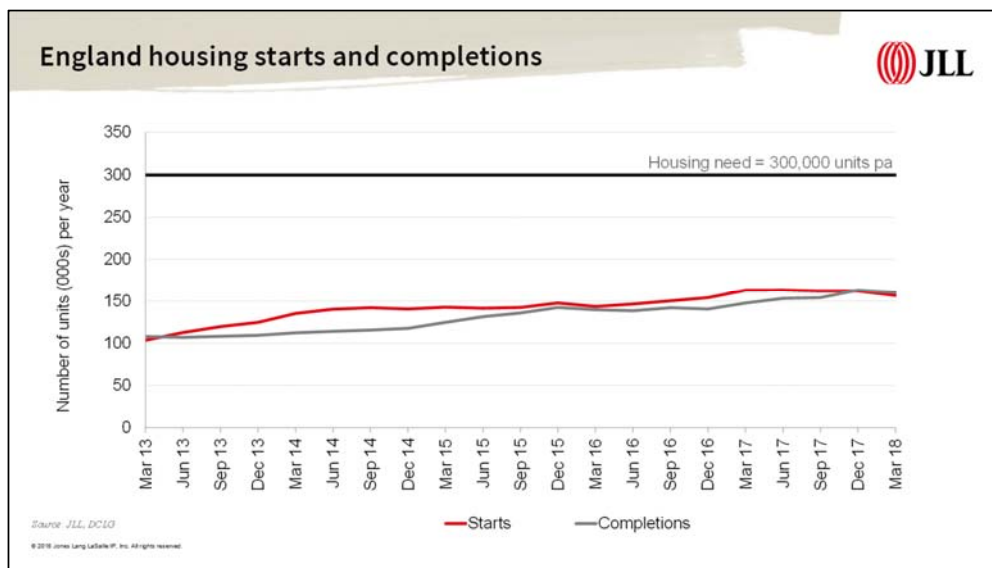

## Housing development

The number of annual housing starts in England dipped slightly in the year to Q1 2018. There were approximately 156,950 starts in the year to Q1, just below the 162,180 in Q4 2017, and below the 163,000 in Q1 2017.

Annual completions across England increased by 8.5% in the year to June 2018. There were 160,510 completions, compared with 147,920 a year earlier.

Over the past ten years, housing construction in England has consistently been well below the delivery target of 240,000-300,000 homes per annum.

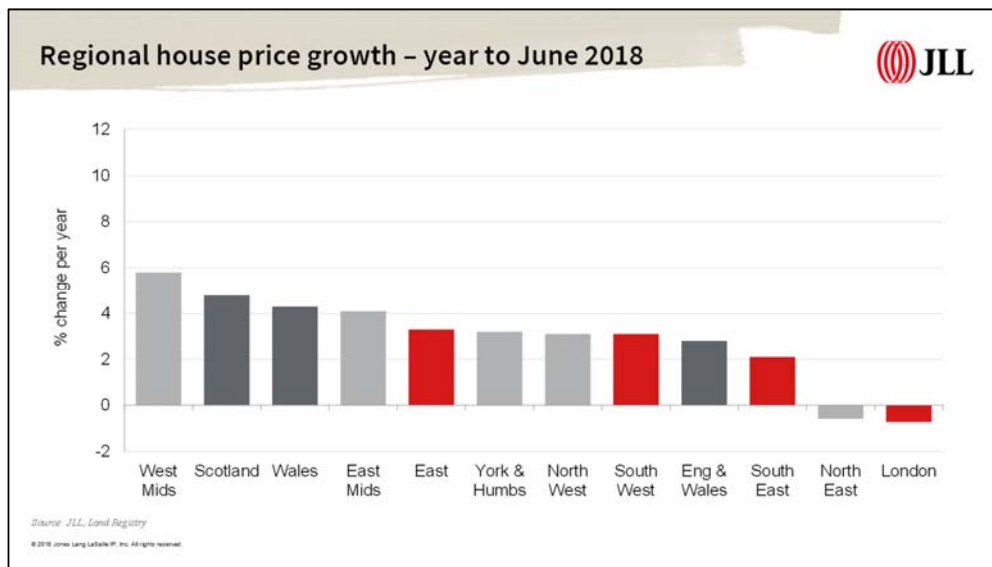

## Regional house price growth

Data from Land Registry reveals that house prices have increased in all regions in the year to June 2018 with the exception London and the North East.

The usual North-South price growth divide has dissipated in recent years. The West Midlands, Scotland and Wales saw the highest house price growth, while London was the slowest of all the UK regions.

Regional house price growth in the West Midlands and Scotland increased by 5.8% and 4.8% respectively, in the year to June 2018. London saw -0.7% growth in the same period.

## 1. Instructions and Terms of Reference

---

## 1.1. Instructions & Terms of Reference

This Report is required in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on "Numerical Apportionment Basis" in accordance with the Security Trust Deed.

Further to instructions received from the Issuer and the Savills Advisory Services Limited Terms Of Business Letter dated 17 September 2018 which confirmed our instructions we now have pleasure in reporting the following valuations and advice.

The schedule of properties which are the subject of this valuation (the "Properties") with apportioned values is attached at **Appendix 1** and relates to 32,959 units in total.

In completing this exercise, we have:

- a) agreed a full set of property schedule data with the Existing Borrower;
- b) discussed details as to our approach and methodology; and
- c) completed our own inspections, research and analysis.

The above has enabled us to arrive at the valuation assumptions that have enabled us to carry out our valuations and final reported figures herein.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the annual accounts of the Existing Borrower. This Report has been prepared in accordance with the RICS Red Book (as defined herein). The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the Properties were enforced as at the Effective Date (as defined herein). We understand that the values given in the accounts of the Existing Borrower are prepared on an historic cost basis, which considers how much the Properties have cost and will continue to cost the Existing Borrower. This is an entirely different basis of valuation from that used for loan security purposes. Moreover, the figure in the latest published annual accounts of the Existing Borrower represents a valuation based on the going concern of the whole stock, in contrast with the valuation for each series of Notes issued under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed which only represents the value to a funder in possession of a portion of the stock. As such different assumptions would be applied. Consequently, in addition to being impractical, any comparison would not be an accurate comparison.

Our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4**.

## 1.2. Basis of Valuation MV-STT - Unencumbered Stock

In relation to Properties which may be disposed of by a mortgagee in possession on an unfettered basis (meaning subject to tenancies but otherwise vacant possession and not subject to any security interest option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use):-

The Market Value of such properties for loan security purposes firstly reflecting the fact or (where not the case) making an assumption as to the fact that the Properties are subject to existing tenancies that grant security of tenure to the occupational tenant. Our valuation will refer to this basis of value as "MV-STT" or "market value, subject to tenancies"; and

The Existing Use Value – Social Housing ("EUV-SH") of such properties for loan security purposes.

### **1.3. Basis of Valuation EUV-SH - Encumbered Stock**

In relation to Properties other than those specified in paragraph 1.2 above:

The Existing Use Value for Social Housing ("EUV-SH") of such properties for loan security purposes.

### **1.4. Definition of Basis of Valuations**

Existing Use Value for Social Housing is defined by the Royal Institution of Chartered Surveyors ("RICS") at UKVS1.12 as:-

*"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:*

- a) a willing seller*
- b) that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the property marketing of the interest for the agreement of the price in terms and for the completion of the sale*
- c) that the state of the market, level of values and other circumstances were on any earlier assumed data of exchange of contracts, the same as on the date of valuation*
- d) that no account is taken of any additional bid by a prospective purchaser with a special interest*
- e) that both parties to the transaction had acted knowledgeably, prudently and without compulsion*
- f) that the property will continue to be let by a body pursuant to delivery of a service for the existing use*
- g) that at the valuation date any regulatory body in applying its criteria for approval would not unreasonably fetter the vendor's ability to dispose of a property to organisations intending to manage their housing stock in accordance with that regulatory body's requirements*
- h) that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and*
- i) that any subsequent sale would be subject to all the same assumptions above"*

Market Value is defined by the Royal Institution of Chartered Surveyors at VPS4 1.2 as:-

*"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."*

### **1.5. General Assumptions and Conditions**

All our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4** of this Report.

### **1.6. Valuation Date**

Our opinions of value are as at 31<sup>st</sup> March 2018 (the "Effective Date"). The importance of the valuation date must be stressed as property values can change over a relatively short period of time.

### **1.7. Purpose of Valuation**

We understand that our valuation is required for loan security purposes in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed.

This Report is issued for the benefit of the addressees and for the inclusion in the offering circular (the "Offering Circular") for the Programme issued by the Issuer and may only be used in connection with the transactions referred to in this Report and for the purposes of the Offering Circular.

We hereby give consent to the publication of this Report within the Offering Circular and accept responsibility for the information contained in this Report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this Report is in accordance with the facts and does not omit anything likely to affect the import of such information.

### **1.8. Conflicts of Interest**

We are independent valuers and are not aware of any conflict of interest either with the Properties, the Issuer, the Group Borrower or the Existing Borrower, preventing us from providing you with an independent valuation of the Properties in accordance with the RICS Red Book. We will value the Properties as External Valuers, as defined in the Red Book.

### **1.9. Valuer Details and Inspection**

The due diligence enquiries referred to below were undertaken by Matthew Sale MRICS. The valuations have also been reviewed by Andy Smith MRICS and Andy Garratt MRICS.

As instructed a representative 20% sample of the Properties was inspected externally with sample internal inspections carried out between 1<sup>st</sup> March 2018 and 15<sup>th</sup> April 2018 by Geoff Hoare FRICS and Richard Hague AssocRICS. This is part of a 20% rolling programme of inspections over a 5 year period.

All those above with MRICS or FRICS qualifications are also RICS Registered Valuers. Furthermore, in accordance with VPS 3.7, we confirm that the aforementioned individuals have sufficient current local and national knowledge of the particular market and the skills and understanding to undertake the valuation competently.

### **1.10. Extent of Due Diligence Enquiries and Information Sources**

The extent of the due diligence enquiries we have undertaken and the sources of the information we have relied upon for the purpose of our valuation are stated in the relevant sections of our Report below.

We have also reviewed the original certificates of title prepared by Trowers & Hamlin LLP, DMH Stallard LLP and Winckworth Sherwood LLP, the five certificates of title prepared by Devonshires Solicitors LLP dated 29 August 2017 and the reliance and top up letters prepared by Devonshires Solicitors LLP, DMH Stallard LLP, Trowers & Hamlin LLP and Winckworth Sherwood LLP (and any previous reliance/top up letters referred to therein) to be dated on or about 29 September 2017 (together, the "Property Documents") and can confirm that our valuations fully reflect the disclosures contained therein.

### **1.11. RICS Compliance**

This Report has been prepared in accordance with Royal Institution of Chartered Surveyors' ("RICS") Valuation – Global Standards 2017 incorporating the IVSC International Valuation Standards issued June 2017 and effective from 1 July 2017 (the "Red Book"). In particular, where relevant, in accordance with the requirements of Valuation Professional Standards VPS1: Terms of Engagement, VPS3: Valuation Reports, UKVS1: Valuations for financial statements, UKVS1.13: Valuations for Registered Social Landlords, UKVS3: Valuations for Residential Property, UKVS3.11 Affordable Rent and Market Rent, UK Appendix 1: Accounting concepts and terms used in FRS 15 and SSAP 19 and UK Appendix 13: Valuation of registered social housing providers' stock for secured lending purposes.

This Report also complies with the International Valuation Standards where applicable.

---

## 2. EXECUTIVE SUMMARY OF VALUATION

---

## 2.1. Valuation of All Property

Based on the schedule of Properties provided by the Existing Borrower our opinions of value on the bases indicated as at the Effective Date are as follows:

## 2.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Our opinion of value, in aggregate, of the 7,785 dwellings as mentioned at 1.2 above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£2,006,281,000 (two billion, six million, two hundred and eighty one thousand pounds)**

**Table 1: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)**

Tenure Type	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	7,277	£1,875,283,000	£525,873,000
Leasehold	508	£130,998,000	£56,432,000

## 2.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,784 rented dwellings and retained equity in shared ownership dwellings as mentioned at 1.3 above, on the basis of

- Existing Use for Social Housing is **£1,280,728,000 (one billion, two hundred and eighty million, seven hundred and twenty eight thousand pounds)**

**Table 2: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH**

Tenure Type	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	22,375	£1,246,296,000
Leasehold	409	£34,432,000

There are 2,390 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1**.

## **2.4. VPGA10: Matters That May Give Rise to Material Valuation Uncertainty**

The Valuation Practice Guidance in the RICS Red Book - VPGA 10 - directs us to draw attention to situations where a reduced level of certainty should be attached to our valuations.

Following a serious fire at the Grenfell Tower apartment block in London on 14 June 2017, a number of enquiries have been commissioned to investigate the event, and it is likely that recommendations will be made as to the construction and management of similar properties. In the light of this, we are aware that market participants that may also be affected by the same or similar issues are reviewing details of construction, health and safety – and particularly fire prevention, mitigation and means of escape of similar properties.

Within the Properties valued there are 28 high rise blocks containing 936 units. The value attributed to them is as follows:

The aggregate EUV-SH of the freehold or Long Leasehold interest in the 936 units for loan security purposes is: £61,701,000.

The aggregate MV-STT of the freehold or Long Leasehold interest in the 936 units for loan security purposes is: £31,261,000.

At this point it is too early to assess the longer-term consequences. In the short-term, however, it is likely that potential investors and occupiers will be more cautious – and the liquidity and pricing of the subject property may be impacted. We therefore draw your attention to the fact that, in the case of the subject property as at the Effective Date, there is greater uncertainty concerning the valuation figure than would normally be the case. As a result we strongly recommend that a specialist report is commissioned to examine all aspects of fire safety including (but not limited to) the cladding.

---

### 3. The Properties

---

### 3.1. The Properties

#### 3.1.1. Location and Description

In total there are 32,959 properties comprised in the instruction. This total includes 2,390 nil value units leaving 30,569 units which are spread across the local authority areas detailed in **Table 3** below. The Properties are situated across seventy-four Local Authority areas.

**Table 3: Stock Location**

Local Authority	Total	Local Authority	Total
Babergh	1	Kensington and Chelsea	29
Barking and Dagenham	584	Kings Lynn and West Norfolk	209
Barnet	200	Lewisham	18
Basildon	623	Luton	172
Birmingham City Council	365	Maidstone	98
Braintree	462	Maldon	58
Breckland	114	Mid Suffolk	10
Brent	40	Milton Keynes	51
Brentwood	60	Mole Valley	3,357
Broadland	3,364	Newham	161
Bromsgrove District Council	1	North Hertfordshire	11

<b>Total</b>	<b>30,569</b>		

*Ignores 2,390 nil value units*

*Source: the Existing Borrower*

The spread of the stock is shown by the map at **Appendix 2**.

### 3.1.2. Property Types

The Properties comprise general needs, sheltered, supported, intermediate, keyworker, market rented and shared ownership. As can be seen from the table below 74% of the stock comprises general need properties let at social rent levels. The stock can be summarised by type and tenure as follows:

**Table 4: Property Types and Tenure**

Type	Flats & Maisonettes	Houses & Bungalows	Rooms	Total	% of stock
General Needs – Social	7,637	15,042	25	22,710	74%
General Needs – Affordable	1,144	1,400		2,544	8%
Intermediate and Keyworker	316	21		337	1%
Market Rented	367	32		399	1%
Sheltered – Social	1,925	626	2	2,553	8%
Sheltered - Affordable		1		1	0%
Supported - Social	369	4	298	671	2%
Shared Ownership	666	694		1,364	5%
<b>Total</b>	<b>12,424</b>	<b>17,820</b>	<b>325</b>	<b>30,569</b>	<b>100%</b>

*Ignores 2,390 nil value units*

*Source: the Existing Borrower*

The Properties comprise a range of property types with 3 bedroom houses being the most prevalent comprising over 26% of the stock with 1 bedroom flats comprising over 24% of the stock and being most prevalent in the case of flats. The portfolio comprises mainly self-contained units however there are a number of schemes which contain rooms with shared facilities.

**Table 5: Property Types and Number of Bedrooms**

Number of Bedrooms	Houses & Bungalows	%	Flats & Maisonettes	%	Rooms	%	Total	%
Bedsit	2	0.01%	9	0.03%	422	1.56%	433	1.6%
1-bedroom	2,244	7.32%	7,617	24.88%			9,863	32.2%
2-bedroom	6,116	19.94%	4,070	13.31%			10,184	33.2%
3-bedroom	8,248	26.91%	759	2.47%			9,007	29.4%
4-bedroom	810	2.64%	113	0.37%			923	3.0%

Please refer to **Appendix 1** for a full list of the Properties including rental income.

### 3.1.3. Brief Description

The Properties are in the main considered to be of conventional construction for their age and type. Houses are mainly of solid brick, cavity brick or timber frame construction with roofs being mainly pitched and covered in slate or tile. Flats are mainly of cavity brick, metal or timber frame construction with roofs being pitched and covered in tile or are flat and believed to have an asphalt or metal type covering. The majority of the Properties have modern plastic gutters and downpipes.

A high proportion of the Properties have double glazed windows of timber, metal or UPVC casement type. The majority of the Properties benefit from all mains services and gas fired central heating systems supplying radiators.

A significant number of the Properties were acquired by transfer from local authorities under Section 32 and 43 of the Housing Act 1985.

Included within this portfolio are 28 blocks of flats of 6 storey or above comprising 936 units. We have made enquiries with Clarion who have confirmed that none of these blocks are clad in Aluminium Composite Cladding (ACM) and the blocks have all been subject to recent fire risk assessments. We refer you to our comments at section 2.4.

### 3.1.4. Condition

As instructed, we have not carried out a structural survey. However, we can comment, without liability, that during the course of our inspections for valuation purposes, we observed that the Properties appear to be generally in reasonable condition.

Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

It is understood from Clarion Housing Group that this entire portfolio currently meets the Decent Homes standard as set out by the Ministry of Housing, Communities and Local Government. Properties conform to Decent Homes standard if they are warm and weatherproof and have reasonably modern facilities.

However we would stress that we have not carried out structural or condition surveys and have relied upon our visual inspection. The Savills stock condition survey team during 2016 carried out a stock condition survey of the Clarion Housing Group stock which included 100% external and 50% internal inspections and we have adopted the results of this into our valuation. Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

### 3.1.5. Services

No detailed inspections or tests have been carried out by us on any of the services or items of equipment, therefore no warranty can be given with regard to their purpose. We have valued the Properties on the assumption that all services are in full working order and comply with all statutory requirements and standards.

## 3.2. Environmental Considerations

### 3.2.1. Contamination

We have valued the portfolio on the assumption that the Properties have not suffered any land contamination in the past, nor are they likely to become so contaminated in the foreseeable future. However, should it subsequently be established that contamination exists at any Property, or on any neighbouring land, then we may wish to review our valuation advice.

### 3.2.2. Ground Conditions

We have assumed there to be no adverse ground or soil conditions and that the load bearing qualities of the site are sufficient to support the building constructed thereon.

### 3.2.3. Flooding

We are not aware of any flooding affecting the Properties and assume there is no history of flooding risk.

### 3.2.4. Radon Gas

Due to the geographical spread of the stock, we are unable to confirm whether the Properties are in a Radon Affected Area. Radon Protection Measures may be necessary for new properties or extensions to existing ones as described in publication BR211 by the Building Research Establishment.

### 3.2.5. Invasive Vegetation

Under the Wildlife and Countryside Act 1981 it is an offence to 'plant or otherwise cause Japanese Knotweed to grow in the wild', however the plant still remains prevalent in some areas. It is only possible to establish the presence of invasive vegetation such as Japanese Knotweed by a specific survey by suitably qualified specialist. From our limited inspection, we have no reason to suggest that such a survey is required in this instance, but should a survey subsequently find that our assumption in this respect is incorrect then we should be advised so that we may reconsider the implications for our valuation.

## 3.3. Town Planning

We have not made specific planning enquiries for each site. We have therefore assumed for the purposes of this Report, save as set out in the Properties Documents and copies of standard tenancy agreements and various planning agreements in respect of the Properties, that there are no planning conditions that would adversely affect the valuation.

## 3.4. Title and Tenure

### 3.4.1. Title

Our valuation reflects our opinion of value in aggregate of the freehold or long-leasehold interests (in each case) of the Properties owned by the Existing Borrower and identified by the subject of this Report and scheduled at **Appendix 1**.

In respect of each Property which we have valued on the basis on MV-STT we confirm that we have reviewed the Property Documents and confirm that each such Property can be disposed of on an unfettered basis (i.e. subject only to existing tenancies disclosed in the Property Documents but not subject to any security interest, option or other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

### 3.4.2. Tenancies

The Properties are understood from the Existing Borrower to be subject to Assured, Secure or Assured Shorthold tenancies. The Clarion standard tenancy agreements are assumed to be in a typical format however they have not been seen as per of this revaluation.

It is assumed that under the Assured and Assured Shorthold tenancy agreements, rents can be reviewed once a year to a market level. The tenant is also assumed to have the usual rights of appeal to the local Rent Assessment Committee.

Under typical Fair/Secure Rent tenancies the rent is reviewed every 2 years with reference to the local rent Officer.

There are a number of the Properties which are subject to management agreements with other Registered Providers ("RP") of social housing. We understand that in these instances the other RP manages the properties and pays the Existing Borrower the rent due less the agreed agent fee and a void allowance. The management agreement can be terminated on either party by giving one year's written notice.

### 3.4.3. Shared Ownership Leases

We have not seen the standard shared ownership lease of the Existing Borrower as part of this revaluation. We have assumed that the shared ownership leases follow a typical format of 99 or 125 years and are essentially a FRI lease making the tenant responsible for all repairs. In addition the lease will allow stair-casing by the leaseholder to buy additional blocks of equity.

The lease will detail the level of specified rent, set at the leases inception, and the rent review provisions of the lease. We understand the majority of the leases provide for annual rent review to RPI + 0.5%. We have increased rents by CPI + 1% which in general terms is the same as RPI + 0.5%. Full details of the rents payable, the equity held by the Borrower are set out in **Appendix 1**.

## 3.5. Rental Income

The gross annual rental income currently produced by the Properties, before deductions, is shown in the following table broken down by tenure.

**Table 6: Gross Rental Income (correct as at 31<sup>st</sup> March 2018)**

Tenure Type	Gross Rent £
General Needs Social Rented	£128,447,443
General Needs Affordable Rented	£18,465,526
Sheltered Social Rented	£12,572,975
Sheltered Affordable Rented	£8,044
Supported Social Rented	£3,514,167
Intermediate / Keyworker Rented	£2,218,716
Market Rented	£5,258,694
Shared Ownership	£4,916,012
<b>Grand Total</b>	<b>£175,401,000</b>

Source: the Existing Borrower

Average net rent levels, on a 52 week year basis, are shown below, as derived from the property schedule sent to us by the Existing Borrower.

**Table 7: Rental Analysis 18/19 £ per week net**

Property Type	Current Rent £
General Needs Social Rented	£108.85
Sheltered Social Rented	£94.71
Supported Social Rented	£100.72
<b>Social Rented Average</b>	<b>£107.25</b>
General Needs Affordable Rented	£139.33
Sheltered Affordable Rented	£139.80
<b>Affordable Rented Average</b>	<b>£139.59</b>
Intermediate Rented	£127.04
Keyworker Rented	£122.24
Market Rented	£253.46
Shared Ownership	£69.51

## 4. Market Commentary

---

## 4.1. General Market Commentary

### 4.1.1. General Summary

After steady UK house price growth in 2017, the outlook for London is negative and the East, West Midland and South East is static in 2018. We expect the market to return to growth in 2019-20, as employment, wage and GDP growth swing back towards trend levels. In the longer term, we will face the impact of interest rate rises. The 5 year forecasts for the UK, London, the East, South East and West Midlands, are shown in the table below.

**Table 8: Nominal House Price Forecasts – Mainstream Markets**

Region	2018	2019	2020	2021	2022
UK	1.0%	2.5%	5.0%	2.5%	2.5%
London	-2.0%	0.0%	5.0%	2.0%	2.0%
East	0.5%	2.5%	4.0%	2.0%	2.0%
South East	0.5%	2.5%	4.0%	2.0%	2.0%
West Midlands	1.0%	3.0%	5.0%	2.5%	2.5%

Source: Savills

Please refer to **Appendix 2** for a full, detailed market commentary.

## 4.2. Local Market Conditions

In common with most of the UK, the housing market in these regions suffered difficult market conditions and falling values from 2007 to 2009 as a result of poor economic conditions. The market began to recover in 2010, with average values surpassing those seen pre-recession, and has continued to increase gradually in recent years. This is illustrated in table 1 below.

In terms of sales volumes, levels fell significantly between 2007 and 2009 before gradually increasing over the following years. Sales figures have failed to reach the highs seen prior to the recession with figures falling in 2016 due to uncertainty caused as a result of the EU referendum, the tightening of lending regulations and stamp duty changes. This is illustrated in table 2 below.

The sales market is currently lacking momentum, with transaction volumes and enquiries both being subdued during the early months of 2018. Estate agents in London expect there to be some negative growth during 2018 as affordability levels are being stretched. Outside of London where there is price growth this is minimal.

In the lettings market a shortage of supply means that prices continue to rise across the board. This is an issue that could worsen over the medium term - as landlords are expected to decrease their portfolios over the next three years.

Chart 1: Average Price by Region

Chart 2: Sales Volume by Region

#### 4.2.1. Comparables

In order to provide market values and rental values we have used evidence of both achieved sales prices and asking prices, where available, for properties on the market in the immediate area to the subject units. Our sources for this information include Rightmove, Rightmove Plus and agents' own websites, as well as discussions with local agents where necessary.

We undertake detailed research in to comparable sales and market lettings and details of these are kept on our files for audit purposes. We do not include comparables in our reports as some of this information is confidential and may be protected under General Data Protection Regulations.

All sale values were considered as open and not forced sales. To achieve values for resale research was undertaken using readily accessible sources that included:

- Determination of the area of similar properties related to market / social sector
- Land registry information on recent completed sales for the immediate post code and where necessary those of the adjoining areas
- Review of values for similar size and type of properties being marketed in the area of the actual location

A comparison between the particular size / quality / condition of the property viewed related to that of known sales values and those of what were being sought and a judgement made as to what could be considered as a fair actual value.

#### 4.3. Vacant Possession Values

Table 9 below shows the average vacant possession values for the self-contained properties included within the valuation summarised by type and bedroom number:

**Table 9: Vacant Possession Values**

Savills Property Type	Bedrooms	Average VP Value
Houses and Bungalows	1	£167,000
	2	£241,000
	3	£297,000
	4	£481,000
	5	£716,000
Average VP value of all Houses & Bungalows		<b>£273,000</b>
Flats and Maisonettes	Bedsit	£293,000
	1	£248,000
	2	£306,000
	3	£485,000
	4	£577,000
Average VP value of all Flats & Maisonettes		<b>£285,000</b>

Source: Savills

#### 4.4. Market Rents

Table 10 below shows the average rental values for the self-contained properties included within the valuation summarised by type and bedroom number:

**Table 10: Average Market Rents (pw)**

Savills Property Type	Bedrooms	Average Market Rent (pw)
Houses and Bungalows	1	£154
	2	£208
	3	£249
	4	£398
	5	£581
Average Market Rent of all Houses & Bungalows		<b>£232</b>
Flats and Maisonettes	Bedsit	£287
	1	£211
	2	£261
	3	£382
	4	£445
Average Market Rent of all Flats & Maisonettes		<b>£240</b>

Source: Savills

---

## 5. Valuation Approach

---

## 5.1. Existing Use Value For Social Housing - Valuation Approach

### 5.1.1. Approach to EUV-SH

EUV-SH for loan security assumes the property will be disposed of by a mortgagee in possession to another registered provider of social housing ("RP") who will continue the use of the properties for social housing. These organisations will calculate their bid according to their projected income and outgoings profile which they would estimate the properties would produce under their management. This basis assumes rents will remain affordable to those in low paid employment and that all vacant units will be relet on the same basis.

We consider that the appropriate method of valuation is to use a discounted cash flow ("DCF"). The DCF allows us to project rental income and expenditure over the term of the cash flow to arrive at an annual surplus or deficit, which is then discounted to a net present value. However it is also necessary to consider comparable transactional evidence where available.

### 5.1.2. Principal DCF Variables

The DCF assumptions are derived from information received from the RP and economic data. The table below sets out our principal assumptions. More detailed discussion on discount rate, adopted rent levels and rental growth is contained in the following sections.

**Table 11: DCF Variables**

DCF Variable	Amount	Year	Variable Unit	Source
Current social rent	£107.25	Current	£ per week	RP
Maximum affordable "convergence" rent	£120.22		£ per week	Savills
Affordable Rent	£139.59	Current	£ per week	RP
Voids and bad debts	3.5%	All Years	% of Debit	RP/ Savills
Turnover	5%-10%		% pa	RP/ Savills
Management costs	£650-£850		£ pu pa	RP/ Savills
Catch-up Repair costs	N/A		£ pu pa	RP/ Savills
Cyclical & Responsive maintenance. costs	£800-£850		£ pu pa	RP/ Savills
Programmed Maintenance costs	All Yrs average £1,250-£1,500		£ pu pa	RP/ Savills
Rental Inflation	1.0% following convergence		% real pa	Savills
Maintenance cost inflation	1% Yr 4 on		% real pa	Savills
Programmed cost inflation	0.5% Yr 4 on		% real pa	Savills

### 5.1.3. Discount Rate

There is no hard-and-fast rule for determining the most appropriate rate to be adopted in a discounted cash flow. The discount rate is probably the most important variable in the model since it determines the net present value of future predicted income and expenditure flows for the property in question. Our role as valuers is to interpret the way in which potential purchasers of the stock would assess their bids. The market for this stock will be within the RP sector.

Effectively, the discount rate is representative of both the long-term cost of borrowing for an acquiring organisation and the risks implicit in the property portfolio concerned. The current level of long-term interest rates and the overall cost of funds must be reflected in our valuation. In addition to considering the cost of funds, we also need to make an allowance for the risk which attaches to our cashflow assumptions – some of which may be subject to a higher degree of risk than those generally made in the business plans. The margin for risk needs to be considered on a case-by-case basis, having regard to the nature of the stock.

Currently the yield on 30 year Gilts is around 1.81%. This is in effect the risk free discount rate. Yields on Housing Association long dated, rated and unrated bonds are typically around 2.90% to 3.40% (Source: Social Housing, April 2018).

Activity in the Bond market with public rated issues include the London & Quadrant Housing Trust Bonds structured in two £250m tranches with coupons of 2.75% (1.05% spread) and 2.25% (1% spread) respectively and in October 2017 there was a flurry of activity including Notting Hill Housing Trust 3.25% (1.35 spread), Catalyst 3.25% (1.30 spread), WM Group 3.25% (1.37 spread) and Housing & Care 21 in November 2018 3.288% (1.38 spread). More recent issues include Optivo 3.283% (1.40 spread) in March 2018 and a THFC tap bond for four housing association borrowers at 3.344% (1.43 spread), Great Places 3.34% (1.40 spread), and Clarion Housing Group at 3.175% (1.37 spread) all in April 2018.

The supply of traditional long term (25 or 30 year) funding has diminished and is only available from a handful of lenders. Shorter term traditional funding (5–7 years) and funding with in-built options to re-price margins at a future date are commonplace, introducing a new level of re-financing risk to business plans.

Notwithstanding this, new business plans are typically being run at nominal interest rates at 'all-in' costs of funds of around 5%, reflecting the increased availability of long term finance from the capital markets.

Given the sustained reduction in funding costs our view is that for good quality, generally non-problematical stock, a discount rate between 4.75% and 5.5% real is appropriate (over a long-term CPI inflation rate of 2%). A greater margin for risk will be appropriate in some cases. We would expect to value poorer or more risky stock at rates around 5.75% to 6.5% real. On the other hand, exceptional stock could be valued at rates around 4.25% to 4.75% real.

We have adopted a discount rates of 4.75%-5.75% real for the self-contained general needs units, 5.0%-6.25% real for the self-contained sheltered and supported units, 5.5%-6.0% real for the intermediate units and 6.5% real for the non-self-contained units over an assumed CPI inflation rate of 2.0%.

Our cashflows are run in perpetuity and not over 30 yrs. For your information our valuation implies an average real discount rate over a 30 year cashflow of 3.3%-4.74%.

#### **5.1.4. Social Rents - Savills "Convergence" Rents and Rental Growth**

RP's are required to set their Social Rents in accordance with the current Rent Standard issued by the Homes and Communities Agency ('HCA') and revised in 2015, as amended by The Social Housing Rents Regulations 2016. The Guidance and the Regulations set out a formula for calculating Social rents. Service charges are charged over and above the rents and should reflect the services being provided to tenants.

Provisions introduced by the Welfare Reform and Work Act 2016 have modified the original rent increase provisions of the Rent Standard Guidance. Instead of increasing at CPI plus 1% per annum, rents for general needs properties will have to reduce by 1% each year from 2016 to 2019.

Mortgagees in possession and their successors in title are exempted from the rent setting and increase/reduction provisions of the Rent Standard and the Welfare Reform and Work Act. In theory, therefore, a purchaser could base a bid for the properties on rents up to open market levels as permitted under the terms of the tenancy agreements. However any RP purchaser would need to set rents that are consistent with its objectives as a social housing provider.

We therefore believe that a purchaser in a competitive transaction is likely to set rents at a level which they consider are the maximum affordable to those in low paid employment locally. We assume they would intend to charge such rents for new tenants and increase existing rents to a sustainable and affordable rent over a reasonable period.

The average rents across the charged stock are set out below, along with the current formula rents and our assessed sustainable affordable rent or “convergence” rent. We have adopted these convergence rents in our valuation.

**Table 12: Rental Analysis 2018/19 £ per week net**

Type	Estimated Tenant Household Incomes £	Net Rent 2018/19 £	Savills Convergence Rent 2018/19 £	Savills Convergence Rent Afford. Ratio 2018/19 %	Market Rent 2018/19 £
House	£526.14	£109.98	£120.61	23%	£233
Flat	£435.86	£103.27	£107.59	25%	£239
<b>Grand Total</b>	<b>£491.93</b>	<b>£107.44</b>	<b>£115.68</b>	<b>24%</b>	<b>£235</b>

Source: The Existing Borrower & Savills Excludes Nil Value Units

We have assumed all rents will converge to our convergence rent in 11 years time. The annual rent increases have been limited to 5.5% per annum nominal.

In the long term, in order to maintain consistent levels of rent affordability, the maximum possible rate of rent growth will be growth in local household incomes which is currently predicted to be 3.18% pa over the next 10 years in this area. We have therefore assumed that after they have converged rents will increase at CPI + 1% per annum.

We have relied on the current and formula rents supplied by the Existing Borrower in carrying out this valuation. We have not carried out any validation of or research into the rents supplied.

#### 5.1.5. Affordable Rents

In certain circumstances, RPs are able to offer new assured tenancies at intermediate rents at up to 80% of the market rent – such rents are known as ‘Affordable’ as opposed to ‘Social’ rents. The ability to charge the higher rents is dependent upon the RP having a Development Framework contract with the HCA or a Short Form Agreement where they are not in the Development Framework.

There are currently 2,545 Affordable Rent units within the stock. The current average rent for these units is £139.57 per week. This is about 30% higher than the target rents on the same properties. These units have been included in our valuation at their current Affordable Rent levels.

Under the Rent Standard the rents payable for Affordable Rent tenancies increases annually by CPI plus 1% per annum. Rents are rebased to market rent upon the granting of a new tenancy. Although the rent reduction provisions in the Welfare Reform and Work Act 2016 also apply to Affordable Rent tenancies, the exemptions for mortgagees and successors allow us to assume growth outside the regulatory regime if appropriate. Thus we have assumed that a purchaser from a mortgagee would increase existing Affordable Rents in line with movements in market rents over the long term.

Market rents tend to increase in line with household incomes. Income growth forecasts for the area are currently 3.18% per annum. We have therefore assumed that rents will increase at CPI + 1% pa.

#### **5.1.6. Sales Between Registered Providers – Transactional Evidence**

Until recently evidence of sales between RPs was extremely limited – most transactions were simple transfers of engagements. However in recent years there has been a growing body of transactional evidence from competitive sales between RPs of tenanted stock. The evidence confirms RPs have a consistent tendency to pay a higher sums for some social housing portfolios than would be suggested by traditional, purely cashflow driven, EUV-SH valuations. We have been heavily involved in this emerging market and have a database of transactions covering circa 50,000 units.

Although the body of evidence is relatively small compared to the total RP stock in the UK and the market is still immature, we are able to derive a view of the prices achieved for certain kinds of stock and lot sizes. Assuming a sensible lotting of units in smaller batches of circa 100 units, bids between 5% to 30% above traditional EUV-SH levels are common for more modern stock in reasonable proximity to amenities.

In contrast it is apparent that for lots exceeding around 200 properties the prices achieved appear to be in line with the traditional, cashflow approach to EUV-SH.

In this case you have instructed us to value the Properties assuming a sale as a single lot and our valuations do not therefore reflect the higher bids that can be received for small portfolios.

#### **5.2. Market Value Subject to Tenancies (MV-STT) - Valuation Approach**

##### **5.2.1. Valuation Methodology - MV-STT**

We assess the MV-STT in two ways; firstly by applying a discount to Market Value with Vacant Possession (“MV-VP”) and secondly by applying a yield to rental income.

The valuation of properties and portfolios subject to Assured and Secure tenancies is carried out with reference to comparable evidence from the sales of similar tenanted portfolios and individual units, and sold subject to Protected Tenancies or Assured Shorthold Tenancies. There is an established body of evidence from portfolios traded on the open market to which we can refer.

Investors tend to base their bid on their ability to “trade out” individual units at Market Value assuming vacant possession over time. In locations where there is a limited market or where a property is difficult to trade, owing to style or market conditions, investors will base their bid on rental return compared to capital cost.

The discount to MV-VP ranges from 10% for prime property to 50% where market conditions are difficult. Typical rates are around a 20% to 30% discount to MV-VP for properties subject to AST tenancies.

The yield applied to net income varies from 5% or less for prime property, to 7% or more for poorer locations. This equates to a yield on gross income (after deductions for management, maintenance & voids) of between 7% to 10% and possibly higher for Sheltered accommodation.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

The Residential Investment market is currently active in these locations and having discussed the portfolio with agents active in the market we expect that the Properties would attract good demand if brought to the market.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

### 5.2.2. Principal Assumptions – MV-STT

We have considered the above in arriving at our valuation. The yield and other principal assumptions adopted are set out below.

**Table 13: MV-STT Assumptions**

Variable	Variable	Year	Amount
Gross Annual Rental Income*	£	Current	£127,544,805
Voids	% of Rent Debit p.a.	All years	5.0%
Management	% of Rent Debit p.a.	All years	5.0%
Maintenance	% of Rent Debit p.a.	All Years	5.0%
Net Yield Applied	%	All Years	4.35%-6.22%

Source: Savills

\*Note: market rent assumed

### 5.3. Shared Ownership - Valuation Approach

#### 5.3.1. General

The Existing Borrower has 1,360 properties subject to Shared Ownership leases within the Portfolio of Properties. They retain around 58% of the equity in their units, overall. Please see **Appendix 1** for details of such properties, shares held and rental income produced.

#### 5.3.2. Valuation Approach

Shared Ownership property produces a rental income dependant on the percentage owned by the leaseholder and the percentage retained by the lessee. As leaseholders have a stake in the property, arrears and default are comparatively rare and landlords can retrieve management costs. Maintenance does not erode rental income as the leaseholder is responsible.

Shared Ownership property thus produces good quality, low risk rental income on the share retained. In addition capital receipts can arise on the occurrence of default or when the leaseholder decides to acquire the whole or a portion of the remaining equity. This usually happens when they decide to sell and move on.

We use a discounted cashflow model designed for the valuation of Shared Ownership property which projects future rent and outgoings to arrive at a net present value. This cashflow can be tested with a variety of staircasing and default scenarios.

In this case we have assumed that the Existing Borrower recoups all service costs through service charges and that management income and the management charge equals the management expenditure. We have applied discount rates of 4.75%-5.25% real reflecting the very secure nature of Shared Ownership income.

### 5.3.3. Shared Ownership Valuations Principal DCF Assumptions

Our principal valuation assumptions are as follows:

**Table 14: Shared Ownership Assumptions**

Variable	Unit of Cost	Year	Variable Amount
Discount rate	%	Year 1	4.75%-5.25%
Average rent	£ pw, 100% before adjustments for share	Current	£119.93
Management cost	£ pu pa	All Years	£100-£150
MV-VP	£ average	Current	£269,000

Source: Savills

## 5.4. Valuation Considerations

### 5.4.1. Housing and Planning Act 2016

The recently passed Housing and Planning Act 2016 contains proposals to deregulate the housing sector which will give much greater freedom to RPs to dispose of and manage their property assets. In particular, S.133 of the Housing Act 1988, which required consent to be obtained prior to disposal of transferred property, has been reviewed. Previously as a result of S.133, transferred property could only be valued at EUV-SH. Following the issue of regulations by the HCA, it should now be possible to value transferred properties at MV-STT but only where lenders and legal title permit. Full legal due diligence would therefore need to be undertaken in the first instance.

The deregulation provisions contained in the Act could potentially also affect the value of social housing assets where valuations are undertaken on the basis of Existing Use Value for Social Housing – a valuation basis which seeks to reflect the value of the properties if sold within the sector. At present it is too early to tell how and if values will be affected and again we will need to consider the HCA regulations. Whether or not valuations on EUV-SH will change will depend on how RPs respond to the changes and whether or not their behaviour, in relation to the management and disposal of their housing stock, alters. However if behaviour does change the impact on levels of EUV-SH is likely to be positive.

---

## 6. Valuations

---

## 6.1. Valuations

### 6.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Properties that may be disposed of by a mortgagee in possession at MV-STT, that is on an unfettered basis (meaning subject to existing tenancies but otherwise with vacant possession and not subject to any security interest, option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use) as referred to in paragraph 1.2 above.

Our opinion of value, in aggregate, of the 7,785 dwellings as mentioned at 1.2 above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£2,006,281,000 (two billion, six million, two hundred and eighty thousand pounds)**

**Table 15: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)**

Tenure Type	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	7,277	£1,875,283,000	£525,873,000
Leasehold	508	£130,998,000	£56,432,000

### 6.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,784 rented dwellings and retained equity in shared ownership dwellings as mentioned at 1.3 above, on the basis of

- Existing Use for Social Housing is **£1,280,728,000 (one billion, two hundred and eighty million, seven hundred and twenty eight thousand pounds)**

**Table 16: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH**

Tenure Type	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	22,375	£1,246,296,000
Leasehold	409	£34,432,000

There are 2,390 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1**.

#### 6.4. Lending Against MV-STT

With reference to **paragraph 6** on Tenure, it is essential that before lending on MV-STT the lender confirms that the development or valuation group is capable of being let at a Market Rent, or disposed of free from restrictions, should the lender take possession. If there are enforceable "Housing Restrictions" in title, planning approval, s.106 agreements or by separate Nomination agreements, that, for example, limit disposal to RPs only or binding contractual nominations then the correct relevant valuation basis is EUV-SH and not MV-STT.

We must also stress that it is up to the lender to assess the terms of the loan and the amount of lending based on the valuations herein. We have set out the current rental income at **Appendix 1** but make no warranty that the current income is sufficient to support lending against MV-STT either on individual valuation groups or against the whole portfolio.

It is up to the lender to assess what level of lending against MV-STT is prudent based on an RP's Asset and Income Cover. Savills makes no recommendation of the maximum level of borrowing the owning RP is capable of supporting globally based on MV-STT.

#### 6.5. Lotting and Value Disaggregation

We have valued the Properties as a single lot. As a result we have not assessed individual valuations for each Property. We have, however, provided a disaggregation of the overall valuation figures by reference to the appropriate rent and these figures are shown on the property schedule at **Appendix 1**.

The lender must be aware that the per unit figures shown in the schedule should not be regarded as individual valuations of the Properties. They are provided as indicative figures for administrative purposes only.

---

## 7. Suitability and Verification

---

## **7.1. Suitability as Loan Security**

### **7.1.1. Lender's Responsibility**

It is usual for a valuer to be asked to express an opinion as to the suitability of a property as security for a loan, debenture or mortgage. However, it is a matter for the lender to assess the risks involved and make its own assessment in fixing the terms of the loan, such as the percentage of value to be advanced, the provision for repayment of the capital, and the interest rate.

In this Report we refer to all matters that are within our knowledge and which may assist you in your assessment of the risk.

We have made subjective adjustments during our valuation approach in arriving at our opinion and whilst we consider these to be both logical and appropriate they are not necessarily the same adjustments which would be made by a purchaser acquiring the Properties.

Where we have expressed any reservations about any Property we have reflected these in the valuation figure reported. However it may be that the purchasers in the market at the time the property is marketed might take a different view.

### **7.1.2. Suitability as Security**

We have considered each of the principal risks associated with the Properties within the context of the wider property market and these risks are reflected in our valuation calculations and reported figures as appropriate.

Overall, we consider that the Properties provide good security for a loan secured upon it, which reflects the nature of the Properties, our reported opinions of value and the risks involved.

## **7.2. Verification**

This Report contains many assumptions, some of a general and some of a specific nature. Our valuations are based upon certain information supplied to us by others. Some information we consider material may not have been provided to us. All of these matters are referred to in the relevant sections of this Report.

We hope the above is acceptable for your purposes, should you have any queries, please do not hesitate to contact us.

Yours faithfully

### General Assumptions

---

## BASES OF VALUE & GENERAL ASSUMPTIONS AND CONDITIONS

### 1. Basis of Valuation - definitions

**Depreciated Replacement Cost:** The current cost of replacing an asset with its modern equivalent asset less deductions for physical deterioration and all relevant forms of obsolescence and optimisation.

**Existing Use Value:** The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had acted knowledgeably, prudently and without compulsion, assuming that the buyer is granted vacant possession of all parts of the asset required by the business and disregarding potential alternative uses and any other characteristics of the asset that would cause its market value to differ from that needed to replace the remaining service potential at least cost.

Existing Use Value is to be used only for valuing property that is owner occupied by a business, or other entity, for inclusion in financial statements.

**Existing Use Value For Social Housing:** an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

- a) a willing seller
- b) that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the proper marketing of the interest for the agreement of the price and terms and for the completion of the sale
- c) that the state of the market, level of values and other circumstances were on any earlier assumed date of exchange of contracts, the same as on the date of valuation
- d) that no account is taken of any additional bid by a prospective purchaser with a special interest
- e) that both parties to the transaction had acted knowledgeably, prudently and without compulsion
- f) that the property will continue to be let by a body pursuant to delivery of a service for the existing use
- g) that at the valuation date any regulatory body in applying its criteria for approval would not unreasonably fetter the vendor's ability to dispose of a property to organisations intending to manage their housing stock in accordance with that regulatory body's requirements
- h) that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and
- i) that any subsequent sale would be subject to all the same assumptions above.

**Fair Value:** Valuations based on Fair Value will adopt one of two definitions – depending upon the purpose, namely:

The IVS 2013 definition: The estimated price for the transfer of an asset or liability between identified knowledgeable and willing parties that reflects the respective interests of those parties, or

The IFRS 13 definition: The price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.

**Gross development value (GDV)** - The aggregate Market Value of the proposed development assessed on the special assumption that the development is complete as at the date of valuation in the market conditions prevailing at that date.

## Bases of Value & General Assumptions and Conditions

---

**Investment value:** Investment value is the value of an asset to the owner or prospective owner for individual investment or operational purposes.

**Market Rent:** The estimated amount for which an interest in real property should be leased on the valuation date between a willing lessor and a willing lessee on appropriate lease terms in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

**Market Value:** The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

### 2. General assumptions and conditions applicable to all valuations

Unless otherwise agreed in writing, our Valuation will be carried out on the basis of the following general assumptions and conditions in relation to each Property that is the subject of our Report. If any of the following assumptions or conditions are not valid, this may be that it has a material impact on the figure(s) reported and in that event we reserve the right to revisit our calculations.

1. That the Property is not subject to any unusual or especially onerous restrictions, encumbrances or outgoings contained in the Freehold Title. Should there be any mortgages or charges, we have assumed that the property would be sold free of them. We have not inspected the Title Deeds or Land Registry Certificate.
2. That we have been supplied with all information likely to have an effect on the value of the Property, and that the information supplied to us and summarised in this Report is both complete and correct.
3. That the building(s) has/have been constructed and is/are used in accordance with all statutory and bye-law requirements, and that there are no breaches of planning control and any future construction or use will be lawful.
4. That the Property is not adversely affected, nor likely to become adversely affected, by any highway, town planning or other schemes or proposals, and that there are no matters adversely affecting value that might be revealed by a local search, replies to usual enquiries, or by any statutory notice (other than those points referred to above).
5. That the building(s) is/are structurally sound, and that there are no structural, latent or other material defects, including rot and inherently dangerous or unsuitable materials or techniques, whether in parts of the building(s) we have inspected or not, that would cause us to make allowance by way of capital repair (other than those points referred to above). Our inspection of the Property and our Report do not constitute a building survey or any warranty as to the state of repair of the Property.
6. That the Property is connected, or capable of being connected without undue expense, to the public services of gas, electricity, water, telephones and sewerage.
7. That in the construction or alteration of the building(s) no use was made of any deleterious or hazardous materials or techniques, such as high alumina cement, calcium chloride additives, woodwool slabs used as permanent shuttering and the like (other than those points referred to above). We have not carried out any investigations into these matters.
8. That the Property has not suffered any land contamination in the past, nor is it likely to become so contaminated in the foreseeable future. We have not carried out any soil tests or made any other investigations in this respect, and we cannot assess the likelihood of any such contamination.
9. That any lessee(s) is/are capable of meeting its/their obligations, and that there are no arrears of rent or undisclosed breaches of covenant.

## Bases of Value & General Assumptions and Conditions

---

10. In the case of a Property where we have been asked to value the site under the special assumption that the Property will be developed, there are no adverse site or soil conditions, that the Property is not adversely affected by the Town and Country Planning (Assessment of Environmental Effects) Regulations 1988, that the ground does not contain any archaeological remains, nor that there is any other matter that would cause us to make any allowance for exceptional delay or site or construction costs in our Valuation.
11. We will not make any allowance for any Capital Gains Tax or other taxation liability that might arise upon a sale of the Property.
12. Our Valuation will be exclusive of VAT (if applicable).
13. No allowance will be made for any expenses of realisation.
14. Excluded from our Valuation will be any additional value attributable to goodwill, or to fixtures and fittings which are only of value in situ to the present occupier.
15. When valuing two or more properties, or a portfolio, each property will be valued individually and no allowance will be made, either positive or negative, should it form part of a larger disposal. The total stated will be the aggregate of the individual Market Values.
16. In the case of a Property where there is a distressed loan we will not take account of any possible effect that the appointment of either an Administrative Receiver or a Law of Property Act Receiver might have on the perception of the Property in the market and its/their subsequent valuation, or the ability of such a Receiver to realise the value of the property(ies) in either of these scenarios.
17. No allowance will have been made for rights, obligations or liabilities arising under the Defective Premises Act 1972, and it will be assumed that all fixed plant and machinery and the installation thereof complies with the relevant UK and EEC legislation.
18. Our Valuation will be based on market evidence which has come into our possession from numerous sources, including other agents and valuers and from time to time this information is provided verbally. Some comes from databases such as the Land Registry or computer databases to which Savills subscribes. In all cases, other than where we have had a direct involvement with the transactions being used as comparables in our Report, we are unable to warrant that the information on which we have relied is correct.

### 3. Further General Assumptions applicable to residential Valuations only

*The following general assumptions apply to residential property valuations. For the avoidance of doubt, these are in addition to the general assumptions at Appendix 2.*

1. Where the Property comprises leasehold flats or maisonettes, unless instructed or otherwise aware to the contrary, we will assume that:
  - a) The costs of repairs and maintenance of the building and grounds are shared equitably between the flats and maisonettes.
  - b) There are suitable enforceable covenants between all leaseholders or through the landlord or the owner.
  - c) There are no onerous liabilities outstanding.
  - d) There are no substantial defects or other matters requiring expenditure (in excess of the current amount of assumed service charge payable on an annual basis), expected to result in charges to the leaseholder, or owner of the Property, during the next five years, equivalent to 10% or more of the reported Market Value.
2. Where the dwelling is leasehold and it is not possible to inspect the lease or details have not been provided to us, the following further assumptions will be made, unless instructed to the contrary:
  - a) The unexpired term of the lease is 70 years, and no action has been taken by any eligible party with a view to acquiring the freehold or to extending the lease term.
  - b) That there are no exceptionally onerous covenants upon the leaseholder.
  - c) The lease cannot be determined except on the grounds of a serious breach of covenants in the existing lease agreement.
  - d) If there are separate freeholders, head and/or other sub-head leaseholders, the terms and conditions of all the leases are in the same form and contain the same terms and conditions.
  - e) The lease terms are mutually enforceable against all parties concerned.
  - f) There are no breaches of covenants or disputes between the various interests concerned.
  - g) The leases of all the properties in the building/development are materially the same.
  - h) The ground rent stated or assumed is not subject to review and is payable throughout the expired lease term.
  - i) In the case of blocks of flats or maisonettes of over six dwellings, the freeholder manages the property directly or there is an appropriate management structure in place.

- j) There is a dutyholder, as defined in the Control of Asbestos Regulations 2006, and there are in place an asbestos register and effective management plan, which does not require any immediate expenditure, pose a significant risk to health or breach of the Health and Safety Executive (HSE) regulations.
  - k) Where the Property forms part of a mixed residential or commercially used block or development, there will be no significant changes in the existing pattern of use.
  - l) Where the Property forms part of a development containing separate blocks of dwellings, the lease terms of the Property apply only to the block. There will be no requirement to contribute towards costs relating to the other parts of the development, other than in respect of common roads, paths, communal grounds and services.
  - m) Where the Property forms part of a larger development, the ownership of which has since been divided, all necessary rights and reservations have been reserved.
  - n) There are no unusual restrictions on assignment or sub-letting of the Property for residential purposes.
  - o) There are no outstanding claims or litigation concerning the lease of the Property or any others within the same development.
  - p) Where the Property benefits from additional facilities within a development, the lease makes adequate provision for the lessee to continue to enjoy them with exceptional restriction, for the facilities to be maintained adequately, and that there are no charges over and above the service charge for such use and maintenance.
3. In respect of insurance the following assumptions will be made, unless instructed otherwise:
- a) The Property can be insured under all-risks cover for the current reinstatement cost and is available on normal terms.
  - b) There are no outstanding claims or disputes.
  - c) Where individuals in a block make separate insurance arrangements, the leases make provision for mutual enforceability of insurance and repairing obligations
  - d) Any landlord responsible for insurance is required to rebuild the Property with the alterations that may be necessary to comply with current Building Regulations and planning requirements.

## 1. Instructions and Terms of Reference

---

## 1.1. Instructions & Terms of Reference

This Report is required in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on "Numerical Apportionment Basis" in accordance with the Security Trust Deed.

Further to instructions received from the Issuer and the Savills Advisory Services Limited Terms Of Business Letter dated 17 September 2018 which confirmed our instructions we now have pleasure in reporting the following valuations and advice.

The schedule of properties which are the subject of this valuation (the "Properties") with apportioned values is attached at **Appendix 1** and relates to 1,316 units in total.

In completing this exercise, we have:

- a) agreed a full set of property schedule data with the Existing Borrower;
- b) discussed details as to our approach and methodology; and
- c) completed our own inspections, research and analysis.

The above has enabled us to arrive at the valuation assumptions that have enabled us to carry out our valuations and final reported figures herein.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the annual accounts of the Existing Borrower. This Report has been prepared in accordance with the RICS Red Book (as defined herein). The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the Properties were enforced as at the Effective Date (as defined herein). We understand that the values given in the accounts of the Existing Borrower are prepared on an historic cost basis, which considers how much the Properties have cost and will continue to cost the Existing Borrower. This is an entirely different basis of valuation from that used for loan security purposes. Moreover, the figure in the latest published annual accounts of the Existing Borrower represents a valuation based on the going concern of the whole stock, in contrast with the valuation for each series of Notes issued under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed which only represents the value to a funder in possession of a portion of the stock. As such different assumptions would be applied. Consequently, in addition to being impractical, any comparison would not be an accurate comparison.

Our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4**.

## 1.2. Basis of Valuation MV-STT - Unencumbered Stock

In relation to Properties which may be disposed of by a mortgagee in possession on an unfettered basis (meaning subject to tenancies but otherwise vacant possession and not subject to any security interest option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use):-

The Market Value of such properties for loan security purposes firstly reflecting the fact or (where not the case) making an assumption as to the fact that the Properties are subject to existing tenancies that grant security of tenure to the occupational tenant. Our valuation will refer to this basis of value as "MV-STT" or "market value, subject to tenancies"; and

The Existing Use Value – Social Housing ("EUV-SH") of such properties for loan security purposes.

### 1.3. Basis of Valuation EUV-SH - Encumbered Stock

In relation to Properties other than those specified in paragraph 1.2 above:

The Existing Use Value for Social Housing ("EUV-SH") of such properties for loan security purposes.

### 1.4. Definition of Basis of Valuations

Existing Use Value for Social Housing is defined by the Royal Institution of Chartered Surveyors ("RICS") at UKVS1.12 as:-

*"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:*

- a) a willing seller*
- b) that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the property marketing of the interest for the agreement of the price in terms and for the completion of the sale*
- c) that the state of the market, level of values and other circumstances were on any earlier assumed data of exchange of contracts, the same as on the date of valuation*
- d) that no account is taken of any additional bid by a prospective purchaser with a special interest*
- e) that both parties to the transaction had acted knowledgeably, prudently and without compulsion*
- f) that the property will continue to be let by a body pursuant to delivery of a service for the existing use*
- g) that at the valuation date any regulatory body in applying its criteria for approval would not unreasonably fetter the vendor's ability to dispose of a property to organisations intending to manage their housing stock in accordance with that regulatory body's requirements*
- h) that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and*
- i) that any subsequent sale would be subject to all the same assumptions above"*

Market Value is defined by the Royal Institution of Chartered Surveyors at VPS4 1.2 as:-

*"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."*

### 1.5. General Assumptions and Conditions

All our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4** of this Report.

### 1.6. Valuation Date

Our opinions of value are as at the date of this Report (the "Effective Date"). The importance of the valuation date must be stressed as property values can change over a relatively short period of time.

### **1.7. Purpose of Valuation**

We understand that our valuation is required for loan security purposes in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on a “Numerical Apportionment Basis” pursuant to the Security Trust Deed.

This Report is issued for the benefit of the addressees and for the inclusion in the offering circular (the “Offering Circular”) for the Programme issued by the Issuer and may only be used in connection with the transactions referred to in this Report and for the purposes of the Offering Circular.

We hereby give consent to the publication of this Report within the Offering Circular and accept responsibility for the information contained in this Report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this Report is in accordance with the facts and does not omit anything likely to affect the import of such information.

### **1.8. Conflicts of Interest**

We are independent valuers and are not aware of any conflict of interest either with the Properties, the Issuer, the Group Borrower or the Existing Borrower, preventing us from providing you with an independent valuation of the Properties in accordance with the RICS Red Book. We will value the Properties as External Valuers, as defined in the Red Book.

### **1.9. Valuer Details and Inspection**

The due diligence enquiries referred to below were undertaken by Matthew Sale MRICS. The valuations have also been reviewed by Andy Smith MRICS and Andy Garratt MRICS.

All of the Properties were inspected externally with a representative sample of approximately 6% of the Properties being inspected internally between 29<sup>th</sup> May 2018 and 29<sup>th</sup> June 2018 by Richard Hague AssocRICS. We are of the opinion that this level of internal inspections is adequate given our knowledge of this stock over a number of years for valuation purposes and our stock condition survey teams inspections.

All those above with MRICS or FRICS qualifications are also RICS Registered Valuers. Furthermore, in accordance with VPS 3.7, we confirm that the aforementioned individuals have sufficient current local and national knowledge of the particular market and the skills and understanding to undertake the valuation competently.

### **1.10. Extent of Due Diligence Enquiries and Information Sources**

The extent of the due diligence enquiries we have undertaken and the sources of the information we have relied upon for the purpose of our valuation are stated in the relevant sections of our Report below.

We have reviewed the certificate of title prepared by Devonshires Solicitors LLP at or around the date of this report and a letter of report from Addleshaw Goddard LLP (together, the “Property Documents”) and can confirm that our valuations fully reflect the disclosures contained therein.

### **1.11. RICS Compliance**

This Report has been prepared in accordance with Royal Institution of Chartered Surveyors' ("RICS") Valuation – Global Standards 2017 incorporating the IVSC International Valuation Standards issued June 2017 and effective from 1 July 2017 (the "Red Book"). In particular, where relevant, in accordance with the requirements of Valuation Professional Standards VPS1: Terms of Engagement, VPS3: Valuation Reports, UKVS1: Valuations for financial statements, UKVS1.13: Valuations for Registered Social Landlords, UKVS3: Valuations for Residential Property, UKVS3.11 Affordable Rent and Market Rent, UK Appendix 1: Accounting concepts and terms used in FRS 15 and SSAP 19 and UK Appendix 13: Valuation of registered social housing providers' stock for secured lending purposes.

This Report also complies with the International Valuation Standards where applicable.

---

## 2. EXECUTIVE SUMMARY OF VALUATION

---

## 2.1. Valuation of All Property

Based on the schedule of Properties provided by the Existing Borrower our opinions of value on the bases indicated as at the Effective Date are as follows:

## 2.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Our opinion of value, in aggregate, of the 870 dwellings as mentioned at 1.2 above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£137,226,000 (one hundred and thirty seven million, two hundred and twenty six thousand pounds)**

**Table 1: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)**

Tenure	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	839	£129,137,000	£54,921,000
Leasehold	31	£8,089,000	£2,472,000

## 2.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 297 rented dwellings and retained equity in shared ownership dwellings as mentioned at 1.3 above, on the basis of

- Existing Use for Social Housing is **£25,316,000 (twenty five million, three hundred and sixteen thousand pounds)**

**Table 2: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH**

Tenure	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	200	£17,206,000
Leasehold	97	£8,110,000

There are 149 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1**.

## **2.4. VPGA10: Matters That May Give Rise to Material Valuation Uncertainty**

The Valuation Practice Guidance in the RICS Red Book - VPGA 10 - directs us to draw attention to situations where a reduced level of certainty should be attached to our valuations.

Following a serious fire at the Grenfell Tower apartment block in London on 14 June 2017, a number of enquiries have been commissioned to investigate the event, and it is likely that recommendations will be made as to the construction and management of similar properties. In the light of this, we are aware that market participants that may also be affected by the same or similar issues are reviewing details of construction, health and safety – and particularly fire prevention, mitigation and means of escape of similar properties.

Within the Properties valued there is 1 high rise block of 7 storeys containing 16 rented units, 12 shared ownership units and 12 nil value units. The value attributed to the block is as follows:

The aggregate EUV-SH of the freehold or Long Leasehold interest in the 40 units for loan security purposes is: £2,117,000.

At this point it is too early to assess the longer-term consequences. In the short-term, however, it is likely that potential investors and occupiers will be more cautious – and the liquidity and pricing of the subject property may be impacted. We therefore draw your attention to the fact that, in the case of the subject property as at the Effective Date, there is greater uncertainty concerning the valuation figure than would normally be the case. As a result we strongly recommend that a specialist report is commissioned to examine all aspects of fire safety including (but not limited to) the cladding.

---

### 3. The Properties

---

### 3.1. The Properties

#### 3.1.1. Location and Description

In total there are 1,316 properties comprised in the instruction. This total includes 149 nil value units leaving 1,167 units which are spread across the local authority areas detailed in Table 3 below. The Properties are situated across seventeen Local Authority areas.

**Table 3: Stock Location**

Local Authority	Total
Barnet	29
Bedford	62
Camden	11
Dacorum	213
Enfield	12
Hammersmith and Fulham	94
Haringey	64
Islington	159
King's Lynn and West Norfolk	33
Lambeth	25
Luton	208
Newham	21
Redbridge	12
Tower Hamlets	40
Waltham Forest	61
Watford	10
Welwyn Hatfield	113
<b>Total</b>	<b>1,167</b>

*Ignores 149 nil value units*

*Source: the Existing Borrower*

The spread of the stock is shown by the map at **Appendix 2**.

#### 3.1.2. Property Types

The Properties comprise general needs, sheltered, supported, intermediate and shared ownership. As can be seen from the table below 66% of the stock comprises general need properties let at social rent levels. The stock can be summarised by type and tenure as follows:

**Table 4: Property Types and Tenure**

Type	Flats & Maisonettes	Houses & Bungalows	Rooms	Total	% of stock
General Needs – Social	510	257		767	66%
General Needs – Affordable	112	20		132	11%
Intermediate	60			60	5%
Sheltered – Social	145			145	12%
Supported - Social	20		14	34	3%
Shared Ownership	29			29	3%
<b>Total</b>	<b>876</b>	<b>277</b>	<b>14</b>	<b>1,167</b>	<b>100%</b>

*Ignores 149 nil value units*

*Source: the Existing Borrower*

The Properties comprise a range of property types with 1 bedroom flats being the most prevalent comprising 46% of the stock. The portfolio comprises mainly self-contained units however there are a number of schemes which contain rooms with shared facilities.

**Table 5: Property Types and Number of Bedrooms**

Number of Bedrooms	Flats & Maisonettes	%	Houses & Bungalows	%	Rooms	%	Total	%
Room					14	1%	14	1%
1-bedroom	530	45%	14	1%		%	544	46%
2-bedroom	302	26%	76	7%		%	378	32%
3-bedroom	40	3%	158	14%		%	198	18%
4-bedroom	4		24	2%		%	28	2%

### 3.1.3. Brief Description

The Properties are in the main considered to be of conventional construction for their age and type. Houses are mainly of solid brick, cavity brick or timber frame construction with roofs being mainly pitched and covered in slate or tile. Flats are mainly of cavity brick, metal or timber frame construction with roofs being pitched and covered in tile or are flat and believed to have an asphalt or metal type covering. The majority of the Properties have modern plastic gutters and downpipes.

A high proportion of the Properties have double glazed windows of timber, metal or UPVC casement type. The majority of the Properties benefit from all mains services and gas fired central heating systems supplying radiators.

Included within this portfolio there is 1 block of flats of 7 storey comprising 40 units. We have made enquiries with Clarion Housing Group who have confirmed that this block isn't clad in Aluminium Composite Cladding (ACM) and the block has been subject to recent fire risk assessments. We refer you to our comments at section 2.4.

### 3.1.4. Condition

As instructed, we have not carried out a structural survey. However, we can comment, without liability, that during the course of our inspections for valuation purposes, we observed that the Properties appear to be generally in reasonable condition.

Apart from any matters specifically referred to in this report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. The report is prepared on this assumption.

It is understood from Clarion Housing Group that this entire portfolio currently meets the Decent Homes standard as set out by the Ministry of Communities and Local Government ("MCLG"). Properties conform to Decent Homes standard if they are warm and weatherproof and have reasonably modern facilities.

However we would stress that we have not carried out structural or condition surveys and have relied upon our visual inspection. The Savills stock condition survey team during 2016 carried out a stock condition survey of the Clarion Housing Group stock which included 100% external and 50% internal inspections and we have had reference to the results of this. Apart from any matters specifically referred to in this report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. The report is prepared on this assumption.

### 3.1.5. Services

No detailed inspections or tests have been carried out by us on any of the services or items of equipment, therefore no warranty can be given with regard to their purpose. We have valued the Properties on the assumption that all services are in full working order and comply with all statutory requirements and standards.

## 3.2. Environmental Considerations

### 3.2.1. Contamination

We have valued the portfolio on the assumption that the Properties have not suffered any land contamination in the past, nor are they likely to become so contaminated in the foreseeable future. However, should it subsequently be established that contamination exists at any Property, or on any neighbouring land, then we may wish to review our valuation advice.

### 3.2.2. Ground Conditions

We have assumed there to be no adverse ground or soil conditions and that the load bearing qualities of the site are sufficient to support the building constructed thereon.

### 3.2.3. Flooding

We are not aware of any flooding affecting the Properties and assume there is no history of flooding risk.

### 3.2.4. Radon Gas

Due to the geographical spread of the stock, we are unable to confirm whether the Properties are in a Radon Affected Area. Radon Protection Measures may be necessary for new properties or extensions to existing ones as described in publication BR211 by the Building Research Establishment.

### 3.2.5. Invasive Vegetation

Under the Wildlife and Countryside Act 1981 it is an offence to 'plant or otherwise cause Japanese Knotweed to grow in the wild', however the plant still remains prevalent in some areas. It is only possible to establish the presence of invasive vegetation such as Japanese Knotweed by a specific survey by suitably qualified specialist. From our limited inspection, we have no reason to suggest that such a survey is required in this instance, but should a survey subsequently find that our assumption in this respect is incorrect then we should be advised so that we may reconsider the implications for our valuation.

## 3.3. Town Planning

We have assumed there are no pending planning applications or other planning issues likely to adversely affect the subject properties. We have not made specific planning enquiries for each site.

In the context of this valuation it is not practical to make planning enquiries for all the Properties. We have therefore assumed that there are no pending planning applications or other planning issues likely to adversely affect the subject properties. We have not made specific planning enquiries for each site.

## 3.4. Title and Tenure

### 3.4.1. Title

Our valuation reflects our opinion of value in aggregate of the freehold or long-leasehold interests (in each case) of the Properties owned by the Existing Borrower and identified by the subject of this Report and scheduled at **Appendix 1**.

In respect of each Property which we have valued on the basis on MV-STT we confirm that we have reviewed the Property Documents and confirm that each such Property can be disposed of on an unfettered basis (i.e. subject only to existing tenancies disclosed in the Property Documents but not subject to any security interest, option or other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

### 3.4.2. Tenancies

The Properties are understood from the Existing Borrower to be subject to Assured, Secure or Assured Shorthold tenancies. The Clarion standard tenancy agreements are assumed to be in a typical format however they have not been seen as per of this revaluation.

It is assumed that under the Assured and Assured Shorthold tenancy agreements, rents can be reviewed once a year to a market level. The tenant is also assumed to have the usual rights of appeal to the local Rent Assessment Committee.

Under typical Fair/Secure Rent tenancies the rent is reviewed every 2 years with reference to the local rent Officer.

There are a number of the Properties which are subject to management agreements with other Registered Providers ("RP") of social housing. We understand that in these instances the other RP manages the Properties and pays the Existing Borrower the rent due less the agreed agent fee and a void allowance. The management agreement can be terminated on either party by giving one year's written notice.

### 3.4.3. Shared Ownership Leases

We have not seen the standard shared ownership lease of the Existing Borrower as part of this revaluation. We have assumed that the shared ownership leases follow a typical format of 99 or 125 years and are essentially a FRI lease making the tenant responsible for all repairs. In addition the lease will allow stair-casing by the leaseholder to buy additional blocks of equity.

The lease will detail the level of specified rent, set at the leases inception, and the rent review provisions of the lease. We understand the majority of the leases provide for annual rent review to RPI + 0.5%. We have increased rents by CPI + 1% which in general terms is the same as RPI + 0.5%. Full details of the rents payable, the equity held by the Borrower are set out in **Appendix 1**.

## 3.5. Rental Income

The gross annual rental income currently produced by the Properties, before deductions, is shown in the following table broken down by tenure.

**Table 6: Gross Rental Income**

Tenure Type	Gross Rent £
General Needs Social Rented	£4,154,554
General Needs Affordable Rented	£895,140
Sheltered Social Rented	£943,984
Supported Social Rented	£200,147
Intermediate Rented	£551,470
Shared Ownership	£167,750
<b>Grand Total</b>	<b>£6,913,046</b>

Source: the Existing Borrower

Average net rent levels, on a 52 week year basis, are shown below, as derived from the property schedule sent to us by the Existing Borrower.

**Table 7: Rental Analysis 18/19 £ per week net**

Property Type	Current Rent £
General Needs Social Rented	£104.17
Sheltered Social Rented	£125.20
Supported Social Rented	£113.21
<b>Social Rented Average</b>	<b>£107.71</b>
General Needs Affordable Rented	£130.41
Intermediate Rented	£176.75
Shared Ownership	£111.24

## 4. Market Commentary

---

## 4.1. General Market Commentary

### 4.1.1. General Summary

After steady UK house price growth in 2017, the outlook for London is negative and the East, West Midland and South East is static in 2018. We expect the market to return to growth in 2019-20, as employment, wage and GDP growth swing back towards trend levels. In the longer term, we will face the impact of interest rate rises. The 5 year forecasts for the UK, London, the East, South East and West Midlands, are shown in the table below.

**Table 8: Nominal House Price Forecasts – Mainstream Markets**

Region	2018	2019	2020	2021	2022
UK	1.0%	2.5%	5.0%	2.5%	2.5%
London	-2.0%	0.0%	5.0%	2.0%	2.0%
East	0.5%	2.5%	4.0%	2.0%	2.0%
South East	0.5%	2.5%	4.0%	2.0%	2.0%

Source: Savills

Please refer to **Appendix 2** for a full, detailed market commentary.

## 4.2. Local Market Conditions

In common with most of the UK, the housing market in these regions suffered difficult market conditions and falling values from 2007 to 2009 as a result of poor economic conditions. The market began to recover in 2010, with average values surpassing those seen pre-recession, and has continued to increase gradually in recent years. This is illustrated in table 1 below.

In terms of sales volumes, levels fell significantly between 2007 and 2009 before gradually increasing over the following years. Sales figures have failed to reach the highs seen prior to the recession with figures falling in 2016 due to uncertainty caused as a result of the EU referendum, the tightening of lending regulations and stamp duty changes. This is illustrated in table 2 below.

The sales market is currently lacking momentum, with transaction volumes and enquiries both being subdued during the early months of 2018. Estate agents in London expect there to be some negative growth during 2018 as affordability levels are being stretched. Outside of London where there is price growth this is minimal.

In the lettings market a shortage of supply means that prices continue to rise across the board. This is an issue that could worsen over the medium term - as landlords are expected to decrease their portfolios over the next three years.

Chart 1: Average Price by Region

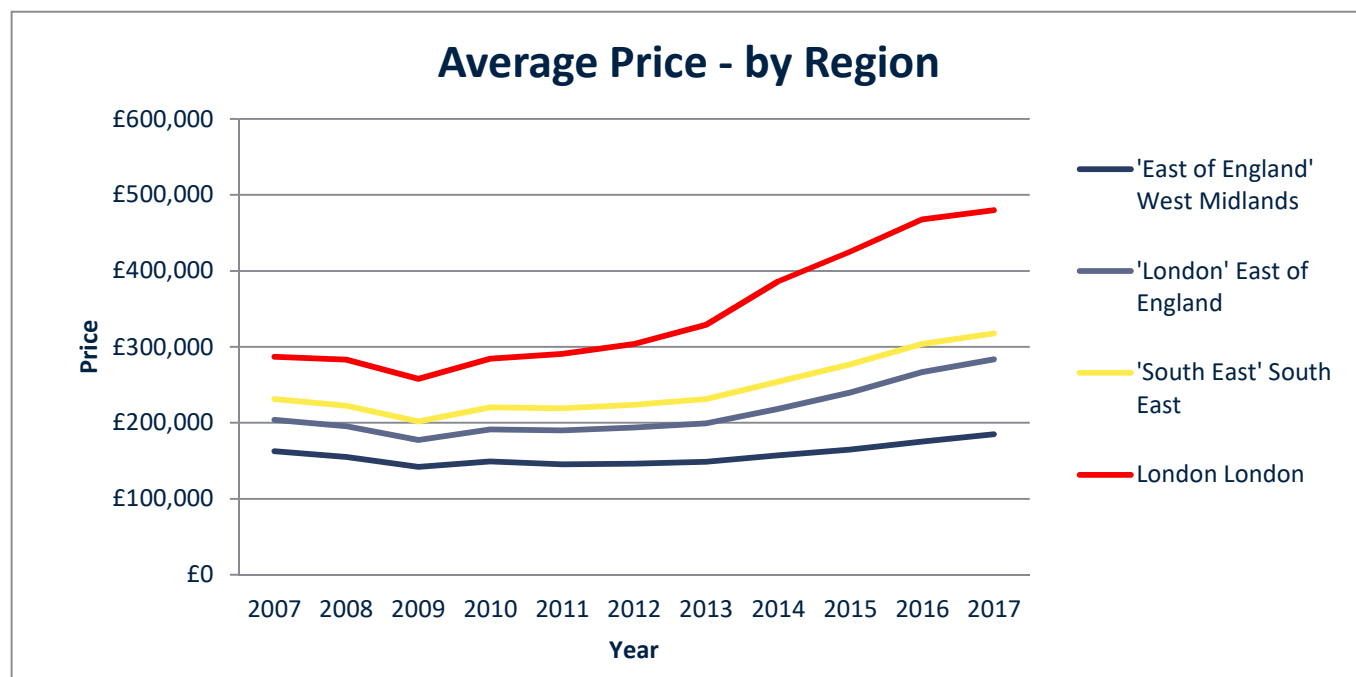

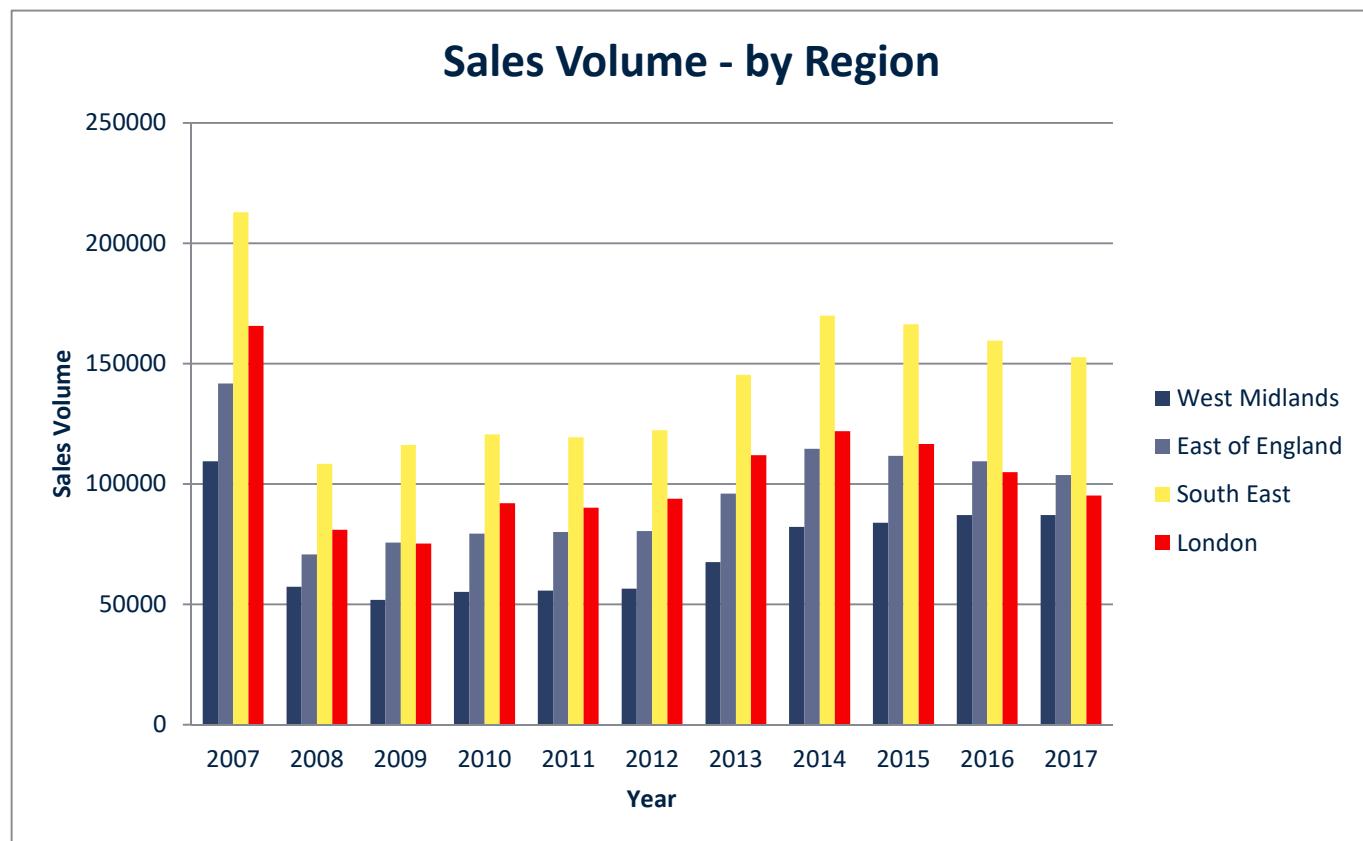

Chart 2: Sales Volume by Region

#### 4.2.1. Comparables

In order to provide market values and rental values we have used evidence of both achieved sales prices and asking prices, where available, for properties on the market in the immediate area to the subject units. Our sources for this information include Rightmove, Rightmove Plus and agents' own websites, as well as discussions with local agents where necessary.

We undertake detailed research in to comparable sales and market lettings and details of these are kept on our files for audit purposes. We do not include comparables in our reports as some of this information is confidential and may be protected under General Data Protection Regulations.

All sale values were considered as open and not forced sales. To achieve values for resale research was undertaken using readily accessible sources that included:

- Determination of the area of similar properties related to market / social sector
- Land registry information on recent completed sales for the immediate post code and where necessary those of the adjoining areas
- Review of values for similar size and type of properties being marketed in the area of the actual location

A comparison between the particular size / quality / condition of the property viewed related to that of known sales values and those of what were being sought and a judgement made as to what could be considered as a fair actual value.

#### 4.3. Vacant Possession Values

Table 9 below shows the average vacant possession values for the self-contained properties included within the valuation summarised by type and bedroom number:

**Table 9: Vacant Possession Values**

Savills Property Type	Bedrooms	Average VP Value
Houses and Bungalows	1	£210,000
	2	£269,000
	3	£311,000
	4	£334,000
	5 plus	£545,000
Average VP value of all Houses & Bungalows		<b>£300,000</b>
Flats and Maisonettes	1	£252,000
	2	£230,000
	3	£267,000
	4	£1,000,000
Average VP value of all Flats & Maisonettes		<b>£248,000</b>

Source: Savills

#### 4.4. Market Rents

Table 10 below shows the average rental values for the self-contained properties included within the valuation summarised by type and bedroom number:

**Table 10: Average Market Rents (pw)**

Savills Property Type	Bedrooms	Average Market Rent (pw)
Houses and Bungalows	1	£180
	2	£241
	3	£284
	4	£300
	5 plus	£462
Average Market Rent of all Houses & Bungalows		<b>£272</b>
Flats and Maisonettes	1	£223
	2	£204
	3	£265
	4	£750
Average Market Rent of all Flats & Maisonettes		<b>£221</b>

Source: Savills

---

## 5. Valuation Approach

---

## 5.1. Existing Use Value For Social Housing - Valuation Approach

### 5.1.1. Approach to EUV-SH

EUV-SH for loan security assumes the property will be disposed of by a mortgagee in possession to another registered provider of social housing ("RP") who will continue the use of the Properties for social housing. These organisations will calculate their bid according to their projected income and outgoings profile which they would estimate the Properties would produce under their management. This basis assumes rents will remain affordable to those in low paid employment and that all vacant units will be relet on the same basis.

We consider that the appropriate method of valuation is to use a discounted cash flow ("DCF"). The DCF allows us to project rental income and expenditure over the term of the cash flow to arrive at an annual surplus or deficit, which is then discounted to a net present value. However it is also necessary to consider comparable transactional evidence where available.

### 5.1.2. Principal DCF Variables

The DCF assumptions are derived from information received from the RP and economic data. The table below sets out our principal assumptions. More detailed discussion on discount rate, adopted rent levels and rental growth is contained in the following sections.

**Table 11: DCF Variables**

DCF Variable	Amount	Year	Variable Unit	Source
Current social rent	£107.71	Current	£ per week	RP
Maximum affordable "convergence" rent	£119.36		£ per week	Savills
Affordable Rent	£130.41	Current	£ per week	RP
Voids and bad debts	3.0%	All Years	% of Debit	RP/ Savills
Turnover	7%-12%		% pa	RP/ Savills
Management costs	£700		£ pu pa	RP/ Savills
Catch-up Repair costs	N/A		£ pu pa	RP/ Savills
Cyclical & Responsive maintenance. costs	£850		£ pu pa	RP/ Savills
Programmed Maintenance costs	All Yrs average £1,000-£1,250		£ pu pa	RP/ Savills
Rental Inflation	1.0% following convergence		% real pa	Savills
Maintenance cost inflation	1% Yr 4 on		% real pa	Savills
Programmed cost inflation	0.5% Yr 4 on		% real pa	Savills

### 5.1.3. Discount Rate

There is no hard-and-fast rule for determining the most appropriate rate to be adopted in a discounted cash flow. The discount rate is probably the most important variable in the model since it determines the net present value of future predicted income and expenditure flows for the property in question. Our role as valuers is to interpret the way in which potential purchasers of the stock would assess their bids. The market for this stock will be within the RP sector.

Effectively, the discount rate is representative of both the long-term cost of borrowing for an acquiring organisation and the risks implicit in the property portfolio concerned. The current level of long-term interest rates and the overall cost of funds must be reflected in our valuation. In addition to considering the cost of funds, we also need to make an allowance for the risk which attaches to our cashflow assumptions – some of which may be subject to a higher degree of risk than those generally made in the business plans. The margin for risk needs to be considered on a case-by-case basis, having regard to the nature of the stock.

Currently the yield on 30 year Gilts is around 1.81%. This is in effect the risk free discount rate. Yields on Housing Association long dated, rated and unrated bonds are typically around 2.90% to 3.40% (Source: Social Housing, April 2018).

Activity in the Bond market with public rated issues include the London & Quadrant Housing Trust Bonds structured in two £250m tranches with coupons of 2.75% (1.05% spread) and 2.25% (1% spread) respectively and in October 2017 there was a flurry of activity including Notting Hill Housing Trust 3.25% (1.35 spread), Catalyst 3.25% (1.30 spread), WM Group 3.25% (1.37 spread) and Housing & Care 21 in November 2018 3.288% (1.38 spread). More recent issues include Optivo 3.283% (1.40 spread) in March 2018 and a THFC tap bond for four housing association borrowers at 3.344% (1.43 spread), Great Places 3.34% (1.40 spread), and Clarion Housing Group at 3.175% (1.37 spread) all in April 2018.

The supply of traditional long term (25 or 30 year) funding has diminished and is only available from a handful of lenders. Shorter term traditional funding (5–7 years) and funding with in-built options to re-price margins at a future date are commonplace, introducing a new level of re-financing risk to business plans.

Notwithstanding this, new business plans are typically being run at nominal interest rates at 'all-in' costs of funds of around 5%, reflecting the increased availability of long term finance from the capital markets.

Given the sustained reduction in funding costs our view is that for good quality, generally non-problematical stock, a discount rate between 4.75% and 5.5% real is appropriate (over a long-term CPI inflation rate of 2%). A greater margin for risk will be appropriate in some cases. We would expect to value poorer or more risky stock at rates around 5.75% to 6.5% real. On the other hand, exceptional stock could be valued at rates around 4.25% to 4.75% real.

We have adopted a discount rates of 4.75%-5.25% real for the self-contained general needs units, 5.75% for the high rise flats, 5.5% real for the self-contained sheltered and supported units, 5.0% real for the intermediate units and 6.25% real for the non-self-contained units over an assumed CPI inflation rate of 2.0%.

Our cashflows are run in perpetuity and not over 30 yrs. For your information our valuation implies an average real discount rate over a 30 year cashflow of 3.53%-4.65%.

#### 5.1.4. Social Rents - Savills "Convergence" Rents and Rental Growth

RP's are required to set their Social Rents in accordance with the current Rent Standard issued by the Homes and Communities Agency ('HCA') and revised in 2015, as amended by The Social Housing Rents Regulations 2016. The Guidance and the Regulations set out a formula for calculating Social rents. Service charges are charged over and above the rents and should reflect the services being provided to tenants.

Provisions introduced by the Welfare Reform and Work Act 2016 have modified the original rent increase provisions of the Rent Standard Guidance. Instead of increasing at CPI plus 1% per annum, rents for general needs properties will have to reduce by 1% each year from 2016 to 2019.

Mortgagees in possession and their successors in title are exempted from the rent setting and increase/reduction provisions of the Rent Standard and the Welfare Reform and Work Act. In theory, therefore, a purchaser could base a bid for the properties on rents up to open market levels as permitted under the terms of the tenancy agreements. However any RP purchaser would need to set rents that are consistent with its objectives as a social housing provider.

We therefore believe that a purchaser in a competitive transaction is likely to set rents at a level which they consider are the maximum affordable to those in low paid employment locally. We assume they would intend to charge such rents for new tenants and increase existing rents to a sustainable and affordable rent over a reasonable period.

The average rents across the charged stock are set out below, along with the current formula rents and our assessed sustainable affordable rent or “convergence” rent. We have adopted these convergence rents in our valuation.

**Table 12: Rental Analysis 2018/19 £ per week net**

Type	Estimated Tenant Household Incomes £	Net Rent 2018/19 £	Savills Convergence Rent 2018/19 £	Savills Convergence Rent Afford. Ratio 2018/19 %	Market Rent 2018/19 £
House	£567.90	£116.14	£125.49	22%	£273
Flat	£440.24	£98.13	£104.97	24%	£221
<b>Grand Total</b>	<b>£483.02</b>	<b>£104.17</b>	<b>£111.85</b>	<b>23%</b>	<b>£238</b>

Source: The Existing Borrower & Savills Excludes Nil Value Units

We have assumed all rents will converge to our convergence rent in 6 years time. The annual rent increases have been limited to 5.5% per annum nominal.

In the long term, in order to maintain consistent levels of rent affordability, the maximum possible rate of rent growth will be growth in local household incomes which is currently predicted to be 3.18% pa over the next 10 years in this area. We have therefore assumed that after they have converged rents will increase at CPI + 1% per annum.

We have relied on the current and formula rents supplied by the Existing Borrower in carrying out this valuation. We have not carried out any validation of or research into the rents supplied.

#### 5.1.5. Affordable Rents

In certain circumstances, RPs are able to offer new assured tenancies at intermediate rents at up to 80% of the market rent – such rents are known as ‘Affordable’ as opposed to ‘Social’ rents. The ability to charge the higher rents is dependent upon the RP having a Development Framework contract with the HCA or a Short Form Agreement where they are not in the Development Framework.

There are currently 132 Affordable Rent units within the stock. The current average rent for these units is £130.41 per week. This is about 25% higher than the target rents on the same properties. These units have been included in our valuation at their current Affordable Rent levels.

Under the Rent Standard the rents payable for Affordable Rent tenancies increases annually by CPI plus 1% per annum. Rents are rebased to market rent upon the granting of a new tenancy. Although the rent reduction provisions in the Welfare Reform and Work Act 2016 also apply to Affordable Rent tenancies, the exemptions for mortgagees and successors allow us to assume growth outside the regulatory regime if appropriate. Thus we have assumed that a purchaser from a mortgagee would increase existing Affordable Rents in line with movements in market rents over the long term.

Market rents tend to increase in line with household incomes. Income growth forecasts for the area are currently 3.18% per annum. We have therefore assumed that rents will increase at CPI + 1% pa.

#### **5.1.6. Sales Between Registered Providers – Transactional Evidence**

Until recently evidence of sales between RPs was extremely limited – most transactions were simple transfers of engagements. However in recent years there has been a growing body of transactional evidence from competitive sales between RPs of tenanted stock. The evidence confirms RPs have a consistent tendency to pay a higher sums for some social housing portfolios than would be suggested by traditional, purely cashflow driven, EUV-SH valuations. We have been heavily involved in this emerging market and have a database of transactions covering circa 50,000 units.

Although the body of evidence is relatively small compared to the total RP stock in the UK and the market is still immature, we are able to derive a view of the prices achieved for certain kinds of stock and lot sizes. Assuming a sensible lotting of units in smaller batches of circa 100 units, bids between 5% to 30% above traditional EUV-SH levels are common for more modern stock in reasonable proximity to amenities.

In contrast it is apparent that for lots exceeding around 200 properties the prices achieved appear to be in line with the traditional, cashflow approach to EUV-SH.

In this case you have instructed us to value the Properties assuming a sale as a single lot and our valuations do not therefore reflect the higher bids that can be received for small portfolios.

#### **5.2. Market Value Subject to Tenancies (MV-STT) - Valuation Approach**

##### **5.2.1. Valuation Methodology - MV-STT**

We assess the MV-STT in two ways; firstly by applying a discount to Market Value with Vacant Possession ("MV-VP") and secondly by applying a yield to rental income.

The valuation of properties and portfolios subject to Assured and Secure tenancies is carried out with reference to comparable evidence from the sales of similar tenanted portfolios and individual units, and sold subject to Protected Tenancies or Assured Shorthold Tenancies. There is an established body of evidence from portfolios traded on the open market to which we can refer.

Investors tend to base their bid on their ability to "trade out" individual units at Market Value assuming vacant possession over time. In locations where there is a limited market or where a property is difficult to trade, owing to style or market conditions, investors will base their bid on rental return compared to capital cost.

The discount to MV-VP ranges from 10% for prime property to 50% where market conditions are difficult. Typical rates are around a 20% to 30% discount to MV-VP for properties subject to AST tenancies.

The yield applied to net income varies from 5% or less for prime property, to 7% or more for poorer locations. This equates to a yield on gross income (after deductions for management, maintenance & voids) of between 6% to 10% and possibly higher for Sheltered accommodation.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

The Residential Investment market is currently active in these locations and having discussed the portfolio with agents active in the market we expect that the Properties would attract good demand if brought to the market.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

### 5.2.2. Principal Assumptions – MV-STT

We have considered the above in arriving at our valuation. The yield and other principal assumptions adopted are set out below.

**Table 13: MV-STT Assumptions**

Variable	Variable	Year	Amount
Gross Annual Rental Income*	£	Current	£10,075,676
Voids	% of Rent Debit p.a.	All years	5.0%
Management	% of Rent Debit p.a.	All years	10.0%
Maintenance	% of Rent Debit p.a.	All Years	15.0%
Net Yield Applied	%	All Years	4.24%-5.76%

Source: Savills

\*Note: market rent assumed

## 5.3. Shared Ownership - Valuation Approach

### 5.3.1. General

The Existing Borrower has 29 properties subject to Shared Ownership leases within the Portfolio of Properties. They retain around 54% of the equity in their units, overall. Please see **Appendix 1** for details of such properties, shares held and rental income produced.

### 5.3.2. Valuation Approach

Shared Ownership property produces a rental income dependant on the percentage owned by the leaseholder and the percentage retained by the lessee. As leaseholders have a stake in the property, arrears and default are comparatively rare and landlords can retrieve management costs. Maintenance does not erode rental income as the leaseholder is responsible.

Shared Ownership property thus produces good quality, low risk rental income on the share retained. In addition capital receipts can arise on the occurrence of default or when the leaseholder decides to acquire the whole or a portion of the remaining equity. This usually happens when they decide to sell and move on.

We use a discounted cashflow model designed for the valuation of Shared Ownership property which projects future rent and outgoings to arrive at a net present value. This cashflow can be tested with a variety of staircasing and default scenarios.

In this case we have assumed that the Existing Borrower recoups all service costs through service charges and that management income and the management charge equals the management expenditure. We have applied a discount rate of 4.75% real reflecting the very secure nature of Shared Ownership income.

### 5.3.3. Shared Ownership Valuations Principal DCF Assumptions

Our principal valuation assumptions are as follows:

**Table 14: Shared Ownership Assumptions**

Variable	Unit of Cost	Year	Variable Amount
Discount rate	%	Year 1	4.75%
Average rent	£ pw, 100% before adjustments for share	Current	£208.80
Management cost	£ pu pa	All Years	£150
MV-VP	£ average	Current	£332,000

## 5.4. Valuation Considerations

### 5.4.1. Housing and Planning Act 2016

The recently passed Housing and Planning Act 2016 contains proposals to deregulate the housing sector which will give much greater freedom to RPs to dispose of and manage their property assets. In particular, S.133 of the Housing Act 1988, which required consent to be obtained prior to disposal of transferred property, has been reviewed. Previously as a result of S.133, transferred property could only be valued at EUV-SH. Following the issue of regulations by the HCA, it should now be possible to value transferred properties at MV-STT but only where lenders and legal title permit. Full legal due diligence would therefore need to be undertaken in the first instance.

The deregulation provisions contained in the Act could potentially also affect the value of social housing assets where valuations are undertaken on the basis of Existing Use Value for Social Housing – a valuation basis which seeks to reflect the value of the Properties if sold within the sector. At present it is too early to tell how and if values will be affected and again we will need to consider the HCA regulations. Whether or not valuations on EUV-SH will change will depend on how RPs respond to the changes and whether or not their behaviour, in relation to the management and disposal of their housing stock, alters. However if behaviour does change the impact on levels of EUV-SH is likely to be positive.

---

## 6. Valuations

---

## 6.1. Valuations

### 6.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Properties that may be disposed of by a mortgagee in possession at MV-STT, that is on an unfettered basis (meaning subject to existing tenancies but otherwise with vacant possession and not subject to any security interest, option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use) as referred to in paragraph 1.2 above.

Our opinion of value, in aggregate, of the 870 dwellings as mentioned at 1.2 above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£137,226,000 (one hundred and thirty seven million, two hundred and twenty six thousand pounds)**

**Table 15: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)**

Tenure	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	839	£129,137,000	£54,921,000
Leasehold	31	£8,089,000	£2,472,000

### 6.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 297 rented dwellings and retained equity in shared ownership dwellings as mentioned at 1.3 above, on the basis of

- Existing Use for Social Housing is **£25,316,000 (twenty five million, three hundred and sixteen thousand pounds)**

**Table 16: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH**

Tenure	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	200	£17,206,000
Leasehold	97	£8,110,000

There are 149 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1**.

#### **6.4. Lending Against MV-STT**

With reference to **paragraph 6** on Tenure, it is essential that before lending on MV-STT the lender confirms that the development or valuation group is capable of being let at a Market Rent, or disposed of free from restrictions, should the lender take possession. If there are enforceable "Housing Restrictions" in title, planning approval, s.106 agreements or by separate Nomination agreements, that, for example, limit disposal to RPs only or binding contractual nominations then the correct relevant valuation basis is EUV-SH and not MV-STT.

We must also stress that it is up to the lender to assess the terms of the loan and the amount of lending based on the valuations herein. We have set out the current rental income at **Appendix 1** but make no warranty that the current income is sufficient to support lending against MV-STT either on individual valuation groups or against the whole portfolio.

It is up to the lender to assess what level of lending against MV-STT is prudent based on an RP's Asset and Income Cover. Savills makes no recommendation of the maximum level of borrowing the owning RP is capable of supporting globally based on MV-STT.

#### **6.5. Lotting and Value Disaggregation**

We have valued the Properties as a single lot. As a result we have not assessed individual valuations for each Property. We have, however, provided a disaggregation of the overall valuation figures by reference to the appropriate rent and these figures are shown on the property schedule at **Appendix 1**.

The lender must be aware that the per unit figures shown in the schedule should not be regarded as individual valuations of the Properties. They are provided as indicative figures for administrative purposes only.

---

## 7. Suitability and Verification

---

## **7.1. Suitability as Loan Security**

### **7.1.1. Lender's Responsibility**

It is usual for a valuer to be asked to express an opinion as to the suitability of a property as security for a loan, debenture or mortgage. However, it is a matter for the lender to assess the risks involved and make its own assessment in fixing the terms of the loan, such as the percentage of value to be advanced, the provision for repayment of the capital, and the interest rate.

In this Report we refer to all matters that are within our knowledge and which may assist you in your assessment of the risk.

We have made subjective adjustments during our valuation approach in arriving at our opinion and whilst we consider these to be both logical and appropriate they are not necessarily the same adjustments which would be made by a purchaser acquiring the Properties.

Where we have expressed any reservations about any Property we have reflected these in the valuation figure reported. However it may be that the purchasers in the market at the time the property is marketed might take a different view.

### **7.1.2. Suitability as Security**

We have considered each of the principal risks associated with the Properties within the context of the wider property market and these risks are reflected in our valuation calculations and reported figures as appropriate.

Overall, we consider that the Properties provide good security for a loan secured upon it, which reflects the nature of the Properties, our reported opinions of value and the risks involved.

## **7.2. Verification**

This Report contains many assumptions, some of a general and some of a specific nature. Our valuations are based upon certain information supplied to us by others. Some information we consider material may not have been provided to us. All of these matters are referred to in the relevant sections of this Report.

We hope the above is acceptable for your purposes, should you have any queries, please do not hesitate to contact us.

Yours faithfully

### General Assumptions

---

## BASES OF VALUE & GENERAL ASSUMPTIONS AND CONDITIONS

### 1. Basis of Valuation - definitions

**Depreciated Replacement Cost:** The current cost of replacing an asset with its modern equivalent asset less deductions for physical deterioration and all relevant forms of obsolescence and optimisation.

**Existing Use Value:** The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had acted knowledgeably, prudently and without compulsion, assuming that the buyer is granted vacant possession of all parts of the asset required by the business and disregarding potential alternative uses and any other characteristics of the asset that would cause its market value to differ from that needed to replace the remaining service potential at least cost.

Existing Use Value is to be used only for valuing property that is owner occupied by a business, or other entity, for inclusion in financial statements.

**Existing Use Value For Social Housing:** an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

- a) a willing seller
- b) that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the proper marketing of the interest for the agreement of the price and terms and for the completion of the sale
- c) that the state of the market, level of values and other circumstances were on any earlier assumed date of exchange of contracts, the same as on the date of valuation
- d) that no account is taken of any additional bid by a prospective purchaser with a special interest
- e) that both parties to the transaction had acted knowledgeably, prudently and without compulsion
- f) that the property will continue to be let by a body pursuant to delivery of a service for the existing use
- g) that at the valuation date any regulatory body in applying its criteria for approval would not unreasonably fetter the vendor's ability to dispose of a property to organisations intending to manage their housing stock in accordance with that regulatory body's requirements
- h) that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and
- i) that any subsequent sale would be subject to all the same assumptions above.

**Fair Value:** Valuations based on Fair Value will adopt one of two definitions – depending upon the purpose, namely:

The IVS 2013 definition: The estimated price for the transfer of an asset or liability between identified knowledgeable and willing parties that reflects the respective interests of those parties, or

The IFRS 13 definition: The price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.

**Gross development value (GDV)** - The aggregate Market Value of the proposed development assessed on the special assumption that the development is complete as at the date of valuation in the market conditions prevailing at that date.

## Bases of Value & General Assumptions and Conditions

---

**Investment value:** Investment value is the value of an asset to the owner or prospective owner for individual investment or operational purposes.

**Market Rent:** The estimated amount for which an interest in real property should be leased on the valuation date between a willing lessor and a willing lessee on appropriate lease terms in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

**Market Value:** The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

### 2. General assumptions and conditions applicable to all valuations

Unless otherwise agreed in writing, our Valuation will be carried out on the basis of the following general assumptions and conditions in relation to each Property that is the subject of our Report. If any of the following assumptions or conditions are not valid, this may be that it has a material impact on the figure(s) reported and in that event we reserve the right to revisit our calculations.

1. That the Property is not subject to any unusual or especially onerous restrictions, encumbrances or outgoings contained in the Freehold Title. Should there be any mortgages or charges, we have assumed that the property would be sold free of them. We have not inspected the Title Deeds or Land Registry Certificate.
2. That we have been supplied with all information likely to have an effect on the value of the Property, and that the information supplied to us and summarised in this Report is both complete and correct.
3. That the building(s) has/have been constructed and is/are used in accordance with all statutory and bye-law requirements, and that there are no breaches of planning control and any future construction or use will be lawful.
4. That the Property is not adversely affected, nor likely to become adversely affected, by any highway, town planning or other schemes or proposals, and that there are no matters adversely affecting value that might be revealed by a local search, replies to usual enquiries, or by any statutory notice (other than those points referred to above).
5. That the building(s) is/are structurally sound, and that there are no structural, latent or other material defects, including rot and inherently dangerous or unsuitable materials or techniques, whether in parts of the building(s) we have inspected or not, that would cause us to make allowance by way of capital repair (other than those points referred to above). Our inspection of the Property and our Report do not constitute a building survey or any warranty as to the state of repair of the Property.
6. That the Property is connected, or capable of being connected without undue expense, to the public services of gas, electricity, water, telephones and sewerage.
7. That in the construction or alteration of the building(s) no use was made of any deleterious or hazardous materials or techniques, such as high alumina cement, calcium chloride additives, woodwool slabs used as permanent shuttering and the like (other than those points referred to above). We have not carried out any investigations into these matters.
8. That the Property has not suffered any land contamination in the past, nor is it likely to become so contaminated in the foreseeable future. We have not carried out any soil tests or made any other investigations in this respect, and we cannot assess the likelihood of any such contamination.
9. That any lessee(s) is/are capable of meeting its/their obligations, and that there are no arrears of rent or undisclosed breaches of covenant.

## Bases of Value & General Assumptions and Conditions

---

10. In the case of a Property where we have been asked to value the site under the special assumption that the Property will be developed, there are no adverse site or soil conditions, that the Property is not adversely affected by the Town and Country Planning (Assessment of Environmental Effects) Regulations 1988, that the ground does not contain any archaeological remains, nor that there is any other matter that would cause us to make any allowance for exceptional delay or site or construction costs in our Valuation.
11. We will not make any allowance for any Capital Gains Tax or other taxation liability that might arise upon a sale of the Property.
12. Our Valuation will be exclusive of VAT (if applicable).
13. No allowance will be made for any expenses of realisation.
14. Excluded from our Valuation will be any additional value attributable to goodwill, or to fixtures and fittings which are only of value in situ to the present occupier.
15. When valuing two or more properties, or a portfolio, each property will be valued individually and no allowance will be made, either positive or negative, should it form part of a larger disposal. The total stated will be the aggregate of the individual Market Values.
16. In the case of a Property where there is a distressed loan we will not take account of any possible effect that the appointment of either an Administrative Receiver or a Law of Property Act Receiver might have on the perception of the Property in the market and its/their subsequent valuation, or the ability of such a Receiver to realise the value of the property(ies) in either of these scenarios.
17. No allowance will have been made for rights, obligations or liabilities arising under the Defective Premises Act 1972, and it will be assumed that all fixed plant and machinery and the installation thereof complies with the relevant UK and EEC legislation.
18. Our Valuation will be based on market evidence which has come into our possession from numerous sources, including other agents and valuers and from time to time this information is provided verbally. Some comes from databases such as the Land Registry or computer databases to which Savills subscribes. In all cases, other than where we have had a direct involvement with the transactions being used as comparables in our Report, we are unable to warrant that the information on which we have relied is correct.

### 3. Further General Assumptions applicable to residential Valuations only

*The following general assumptions apply to residential property valuations. For the avoidance of doubt, these are in addition to the general assumptions at Appendix 2.*

1. Where the Property comprises leasehold flats or maisonettes, unless instructed or otherwise aware to the contrary, we will assume that:
  - a) The costs of repairs and maintenance of the building and grounds are shared equitably between the flats and maisonettes.
  - b) There are suitable enforceable covenants between all leaseholders or through the landlord or the owner.
  - c) There are no onerous liabilities outstanding.
  - d) There are no substantial defects or other matters requiring expenditure (in excess of the current amount of assumed service charge payable on an annual basis), expected to result in charges to the leaseholder, or owner of the Property, during the next five years, equivalent to 10% or more of the reported Market Value.
2. Where the dwelling is leasehold and it is not possible to inspect the lease or details have not been provided to us, the following further assumptions will be made, unless instructed to the contrary:
  - a) The unexpired term of the lease is 70 years, and no action has been taken by any eligible party with a view to acquiring the freehold or to extending the lease term.
  - b) That there are no exceptionally onerous covenants upon the leaseholder.
  - c) The lease cannot be determined except on the grounds of a serious breach of covenants in the existing lease agreement.
  - d) If there are separate freeholders, head and/or other sub-head leaseholders, the terms and conditions of all the leases are in the same form and contain the same terms and conditions.
  - e) The lease terms are mutually enforceable against all parties concerned.
  - f) There are no breaches of covenants or disputes between the various interests concerned.
  - g) The leases of all the properties in the building/development are materially the same.
  - h) The ground rent stated or assumed is not subject to review and is payable throughout the expired lease term.
  - i) In the case of blocks of flats or maisonettes of over six dwellings, the freeholder manages the property directly or there is an appropriate management structure in place.

- j) There is a dutyholder, as defined in the Control of Asbestos Regulations 2006, and there are in place an asbestos register and effective management plan, which does not require any immediate expenditure, pose a significant risk to health or breach of the Health and Safety Executive (HSE) regulations.
  - k) Where the Property forms part of a mixed residential or commercially used block or development, there will be no significant changes in the existing pattern of use.
  - l) Where the Property forms part of a development containing separate blocks of dwellings, the lease terms of the Property apply only to the block. There will be no requirement to contribute towards costs relating to the other parts of the development, other than in respect of common roads, paths, communal grounds and services.
  - m) Where the Property forms part of a larger development, the ownership of which has since been divided, all necessary rights and reservations have been reserved.
  - n) There are no unusual restrictions on assignment or sub-letting of the Property for residential purposes.
  - o) There are no outstanding claims or litigation concerning the lease of the Property or any others within the same development.
  - p) Where the Property benefits from additional facilities within a development, the lease makes adequate provision for the lessee to continue to enjoy them with exceptional restriction, for the facilities to be maintained adequately, and that there are no charges over and above the service charge for such use and maintenance.
3. In respect of insurance the following assumptions will be made, unless instructed otherwise:
- a) The Property can be insured under all-risks cover for the current reinstatement cost and is available on normal terms.
  - b) There are no outstanding claims or disputes.
  - c) Where individuals in a block make separate insurance arrangements, the leases make provision for mutual enforceability of insurance and repairing obligations
  - d) Any landlord responsible for insurance is required to rebuild the Property with the alterations that may be necessary to comply with current Building Regulations and planning requirements.

## TAXATION

### United Kingdom Taxation

**The following is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue and Customs (HMRC) practice relating only to United Kingdom withholding tax treatment of payments of interest (as that term is understood for United Kingdom tax purposes) in respect of Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Notes. The United Kingdom tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.**

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes carry a right to interest and the Notes are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007. The London Stock Exchange is a recognised stock exchange. Securities will be treated as listed on the London Stock Exchange if they are included in the Official List (within the meaning of and in accordance with the provisions of Part 6 of the Financial Services and Markets Act 2000 (FSMA)) and admitted to trading on the London Stock Exchange. Provided, therefore, that the Notes carry a right to interest and are and remain so listed on a "recognised stock exchange", interest on the Notes will be payable without withholding or deduction on account of United Kingdom tax.

Interest on the Notes may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes which has a United Kingdom source on the Notes on account of United Kingdom income tax at the basic rate (currently 20 per cent.), subject to any available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

### Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. The issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to 1st January, 2019 and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer). However, if additional Notes (as described under Condition 20

(*Further Issues*) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes.

### **The proposed financial transactions tax (FTT)**

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

## SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated Programme Agreement (such Programme Agreement as modified and/or supplemented and/or restated from time to time, the **Programme Agreement**) dated 21st September, 2018, agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and "*Terms and Conditions of the Notes*". In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

## SELLING RESTRICTIONS

### *United States*

The Notes have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold within the United States to, or for the account or benefit of, U.S. persons except in certain transactions exempt from or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The applicable Final Terms will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S of the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

### *Prohibition of sales to EEA Retail Investors*

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Offering Circular as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression **retail investor** means a person who is one (or more) of the following:

- (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
  - (ii) a customer within the meaning of the Insurance Mediation Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; and
- (b) the expression an **offer** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

In relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a **Relevant Member State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision:

- the expression **an offer of Notes to the public** in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State; and
- the expression **Prospectus Directive** means Directive 2003/71/EC (as amended or superseded), and includes any relevant implementing measure in the Relevant Member State.

### ***United Kingdom***

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) in relation to any Notes which have a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses, where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;

- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

***General***

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer, the Note Trustee nor any of the other Dealers shall have any responsibility therefor.

None of the Issuer, the Note Trustee and the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

## GENERAL INFORMATION

### Authorisation

The establishment and update of the Programme and the issue of Notes have been duly authorised by resolution of the Board of Directors of the Issuer dated 13th September, 2017 and 20th September, 2018, respectively.

### Listing of Notes

It is expected that each Tranche of Notes which is to be admitted to the Official List and to trading on the London Stock Exchange's regulated market will be admitted separately as and when issued, subject only to the issue of one or more Global Notes initially representing the Notes of such Tranche. Application has been made to the UK Listing Authority for Notes issued under the Programme to be admitted to the Official List and to the London Stock Exchange for such Notes to be admitted to trading on the London Stock Exchange's regulated market. The listing of the Programme in respect of Notes is expected to be granted on or before 27th September, 2018.

### Documents Available

For the period of 12 months following the date of this Offering Circular, copies of the following documents will, when published, be available for inspection from the registered office of the Issuer and from the specified office of the Principal Paying Agent for the time being in London:

- (a) the constitutional documents of the Issuer, the Group Borrower and each of the Borrowers;
- (b) the Issuer Financial Statements. The Issuer prepares audited accounts on an annual basis;
- (c) the Group Borrower Financial Statements. The Group Borrower prepares audited accounts on an annual basis;
- (d) the Group Financial Statements. The Group Parent prepares audited financial statements on an annual basis and unaudited interim financial statements on a half-yearly basis;
- (e) the most recently published audited annual financial statements of the Issuer and the Group Borrower and the most recently published audited consolidated financial statements of the Group Parent and the most recently published unaudited interim financial statements (if any) of the Issuer, the Group Borrower and the Group Parent, in each case together with any audit or review reports prepared in connection therewith);
- (f) the Programme Agreement, the Note Trust Deed, the Agency Agreement, the Account Agreement, each Loan Facility Agreement and the forms of the Global Notes, the Notes in definitive form, the Coupons and the Talons;
- (g) the Deed of Guarantee, the Security Trust Deed and other documents evidencing the Underlying Security;
- (h) each Valuation Report;
- (i) a copy of this Offering Circular; and
- (j) any future offering circulars, prospectuses, information memoranda, supplements, Final Terms to this Offering Circular and any other documents incorporated herein or therein by reference.

## **Clearing Systems**

The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg (which are the entities in charge of keeping the records). The appropriate Common Code and ISIN for each Tranche of Notes allocated by Euroclear and Clearstream, Luxembourg will be specified in the applicable Final Terms. If the Notes are to clear through an additional or alternative clearing system the appropriate information will be specified in the applicable Final Terms.

The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels. The address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

## **Conditions for determining price**

The price and amount of Notes to be issued under the Programme will be determined by the Issuer and each relevant Dealer at the time of issue in accordance with prevailing market conditions.

## **Yield**

In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the applicable Final Terms. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price. The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.

## **Significant or Material Change**

There has been no material adverse change in the financial position or prospects of the Issuer since 31st March, 2018.

There has been no significant change in the financial or trading position of the Group Borrower since 31st March, 2018. There has been no material adverse change in the financial position or prospects of the Group Borrower since 31st March, 2018.

There has been no significant change in the financial or trading position of the Existing Borrower and its subsidiaries since 31st March, 2018. There has been no material adverse change in the financial position or prospects of the Existing Borrower and its subsidiaries since 31st March, 2018.

## **Litigation**

There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) in the 12 months preceding the date of this Offering Circular which may have, or have had in the recent past, significant effects on the Issuer's financial position or profitability.

There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Group Borrower is aware) in the 12 months preceding the date of this Offering Circular which may have, or have had in the recent past, significant effects on the Group Borrower's financial position or profitability.

There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Existing Borrower is aware) in the 12 months preceding the date of this Offering Circular which may have, or have had, in the recent past significant effects on the financial position or profitability of the Existing Borrower and its subsidiaries.

## **Auditors**

The auditors of the Issuer, the Group Borrower, the Group Parent and the Existing Borrower are KPMG LLP (**KPMG**), Chartered Accountants. KPMG has no material interest in the Issuer, the Group Borrower, the Group Parent and the Existing Borrower. KPMG has audited the accounts of the Issuer, the Group Borrower, the Group Parent and the Existing Borrower, without qualification, in accordance with UK Generally Accepted Accounting Practice for each of the two financial years ended on 31st March, 2018 or, in the case of the Issuer, the period from incorporation to 31st March, 2018.

## **Post-issuance information**

Save as set out in the Final Terms, the Issuer does not intend to provide any post-issuance information in relation to any issues of Notes, the Series Security or the Underlying Security, other than as required pursuant to Condition 6.2 (*Information Covenants*).

## **Dealers transacting with the Issuer, the Group Borrower and the Borrowers**

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for the Issuer, the Group Borrower and the Borrowers and their affiliates in the ordinary course of business.

Certain of the Dealers and their affiliates may have positions, deal or make markets in Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer, the Group Borrower and the Borrowers and their affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, the Group Borrower or the Borrowers or their affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer, the Group Borrower or the Borrowers routinely hedge their credit exposure consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
