Prudential Trustee Company Limited in its capacity as Security Trustee for itself and for and on behalf of the Finance Beneficiaries under (and terms being defined in) a Security Trust Deed dated 24 May 2007 made between Prudential Trustee Company Limited as Security Trustee (1), Circle Thirty Three Housing Trust Limited (2), Circle Anglia Treasury Limited (3), Wherry Housing Association Limited (4), South Anglia Housing Limited (5) and Old Ford Housing Association (6) as amended and supplemented by a NAB Administration Agreement dated 29 November 2016 and as the same may be further amended, novated, replaced, restated, supplemented or varied from time to time (together the "**Security Trust Deed**") and its successors, transferees and assignees;

2. each of the Security Beneficiaries (as defined in the Security Trust Deed) both present and future and its or their successors, transferees and assignees;

3. Prudential Trustee Company Limited of Laurence Pountney Hill, London EC4R 0HH (the "**Note Trustee**");

4. Clarion Funding plc
   Level 6
   6 More London Place
   Tooley Street
   London SE1 2DA (the "**Issuer**");

5. the other entities within the Clarion Housing Group listed in Appendix 5;

6. each of the Dealers listed in Appendix 5; and

7. any receiver or other party which is appointed to realise the security;

together the "**Addressees**".

Dear Sirs,

VALUATION OF HOUSING STOCK OF CIRCLE THIRTY THREE HOUSING TRUST LIMITED, OLD FORD HOUSING ASSOCIATION LIMITED AND RUSSET HOMES LIMITED (TOGETHER, THE "ORIGINAL BORROWERS") IN RESPECT OF EACH SERIES OF NOTES (THE "NOTES") TO BE ISSUED BY THE ISSUER UNDER THE £3,000,000,000 SECURED EURO MEDIUM TERM NOTE PROGRAMME (THE "PROGRAMME") WHERE THE UNDERLYING SECURITY IS APPORTIONED ON A "NUMERICAL APPORTIONMENT BASIS" PURSUANT TO THE SECURITY TRUST DEED.

In accordance with the instructions contained in the email from the Issuer to us dated 13 July 2017, as confirmed in our letter to the Issuer dated 6 September 2017, we have inspected the properties and made such enquiries as are sufficient to provide you with our opinion of value on the bases stated below.

We draw your attention to our accompanying Report together with the General Assumptions and Conditions upon which our Valuation has been prepared, details of which are provided at the rear of our Report.

We trust that our Report meets your requirements, however should you have any queries, please do not hesitate to contact us.

Yours faithfully

For and on behalf of Savills Advisory Services Limited
Matthew Sale BSc (Hons) MRICS
RICS Registered Valuer
Associate Director

1. Instructions and Terms of Reference

1.1. Instructions & Terms of Reference

This Report is required in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on “Numerical Apportionment Basis” in accordance with the Security Trust Deed.

Further to instructions received from the Issuer and the Savills Advisory Services Limited Terms Of Business Letter dated 6 September 2017 which confirmed our instructions we now have pleasure in reporting the following valuations and advice.

The schedule of properties which are the subject of this valuation (the “Properties”) with apportioned values is attached at **Appendix 1** and relates to 33,225 units in total.

In completing this exercise, we have:

a) agreed a full set of property schedule data with the Original Borrowers;

b) discussed details as to our approach and methodology; and

c) completed our own inspections, research and analysis.

The above has enabled us to arrive at the valuation assumptions that have enabled us to carry out our valuations and final reported figures herein.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the annual accounts of the Original Borrowers. This Report has been prepared in accordance with the RICS Red Book (as defined herein). The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the Properties were enforced as at the Effective Date (as defined herein). We understand that the values given in the accounts of the Original Borrowers are prepared on an historic cost basis, which considers how much the properties have cost and will continue to cost the Original Borrower. This is an entirely different basis of valuation from that used for loan security purposes. Moreover, the figure in the latest published annual accounts of each Original Borrower represents a valuation based on the going concern of the whole stock, in contrast with the valuation for each series of Notes issued under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed which only represents the value to a funder in possession of a portion of the stock. As such different assumptions would be applied. Consequently, in addition to being impractical, any comparison would not be an accurate comparison.

Our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4**.

1.2. Basis of Valuation MV-STT - Unencumbered Stock

In relation to Properties which may be disposed of by a mortgagee in possession on an unfettered basis (meaning subject to tenancies but otherwise vacant possession and not subject to any security interest option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use):-

The Market Value of such properties for loan security purposes firstly reflecting the fact or (where not the case) making an assumption as to the fact that the properties are subject to existing tenancies that grant security of tenure to the occupational tenant. Our valuation will refer to this basis of value as “MV–STT” or “market value, subject to tenancies”; and

The Existing Use Value – Social Housing (“EUV-SH”) of such properties for loan security purposes.

1.3. Basis of Valuation EUV-SH - Encumbered Stock

In relation to Properties other than those specified in paragraph 1.2 above:

The Existing Use Value for Social Housing ("EUV-SH") of such properties for loan security purposes.

1.4. Definition of Basis of Valuations

Existing Use Value for Social Housing is defined by the Royal Institution of Chartered Surveyors ("RICS") at UKVS1.12 as:-

"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

a) a willing seller
b) that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the property marketing of the interest for the agreement of the price in terms and for the completion of the sale
c) that the state of the market, level of values and other circumstances were on any earlier assumed data of exchange of contracts, the same as on the date of valuation
d) that no account is taken of any additional bid by a prospective purchaser with a special interest
e) that both parties to the transaction had acted knowledgeably, prudently and without compulsion
f) that the property will continue to be let by a body pursuant to delivery of a service for the existing use
g) that at the valuation date any regulatory body in applying its criteria for approval would not unreasonably fetter the vendor's ability to dispose of a property to organisations intending to manage their housing stock in accordance with that regulatory body's requirements
h) that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and
i) that any subsequent sale would be subject to all the same assumptions above"

Market Value is defined by the Royal Institution of Chartered Surveyors at VPS4 1.2 as:-

"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."

1.5. General Assumptions and Conditions

All our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4** of this Report.

1.6. Valuation Date

Our opinions of value are as at the date of this Report (the "Effective Date''). The importance of the valuation date must be stressed as property values can change over a relatively short period of time.

1.7. Purpose of Valuation

We understand that our valuation is required for loan security purposes in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed.

This Report is issued for the benefit of the addressees and for the inclusion in the offering circular (the "Offering Circular") for the Programme issued by the Issuer and may only be used in connection with the transactions referred to in this Report and for the purposes of the Offering Circular.

We hereby give consent to the publication of this Report within the Offering Circular and accept responsibility for the information contained in this Report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this Report is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.8. Conflicts of Interest

We are independent valuers and are not aware of any conflict of interest either with the Properties, the Issuer, the Group Borrower or any of the Original Borrowers, preventing us from providing you with an independent valuation of the Properties in accordance with the RICS Red Book. We will value the Properties as External Valuers, as defined in the Red Book.

1.9. Valuer Details and Inspection

The due diligence enquiries referred to below were undertaken by **Matthew Sale MRICS**. The valuations have also been reviewed by **James Tillier FRICS** and **David Cotterill FRICS**.

As instructed a representative 20% sample of the properties was inspected externally with sample internal inspections carried out between 1st March 2017 and 15th April 2017 by Geoff Hoare FRICS and Richard Hague AssocRICS. This is part of a 20% rolling programme of inspections over a 5 year period.

All those above with MRICS or FRICS qualifications are also RICS Registered Valuers. Furthermore, in accordance with VPS 3.7, we confirm that the aforementioned individuals have sufficient current local and national knowledge of the particular market and the skills and understanding to undertake the valuation competently.

1.10. Extent of Due Diligence Enquiries and Information Sources

The extent of the due diligence enquiries we have undertaken and the sources of the information we have relied upon for the purpose of our valuation are stated in the relevant sections of our Report below.

We have also reviewed the original certificates of title prepared by Trowers & Hamlins LLP,DMH Stallard LLP and Winckworth Sherwood LLP, the five certificates of title prepared by Devonshires Solicitors LLP dated 29 August 2017 and the reliance and top up letters prepared by Devonshires Solicitors LLP, DMH Stallard LLP, Trowers & Hamlins LLP and Winckworth Sherwood LLP (and any previous reliance/top up letters referred to therein) to be dated on or about the date of this Report (together, the "Property Documents") and can confirm that our valuations fully reflect the disclosures contained therein.

1.11. RICS Compliance

This report has been prepared in accordance with Royal Institution of Chartered Surveyors' ("RICS") Valuation – Global Standards 2017 incorporating the IVSC International Valuation Standards issued June 2017 and effective from 1 July 2017 (the "Red Book"). In particular, where relevant, in accordance with the requirements of Valuation Professional Standards VPS1: Terms of Engagement, VPS3: Valuation Reports, UKVS1: Valuations for financial statements, UKVS1.13: Valuations for Registered Social Landlords, UKVS3: Valuations for Residential Property, UKVS3.11 Affordable Rent and Market Rent, UK Appendix 1: Accounting concepts and terms used in FRS 15 and SSAP 19 and UK Appendix 13: Valuation of registered social housing providers' stock for secured lending purposes.

This Report also complies with the International Valuation Standards where applicable.

2. EXECUTIVE SUMMARY OF VALUATION

2.1. Valuation of All Property

Based on the schedule of Properties provided by the Original Borrowers our opinions of value on the bases indicated as at the date of this Report are as follows:

2.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Our opinion of value, in aggregate, of the 7,795 dwellings as mentioned at **1.2** above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£1,731,042,000 (one billion, seven hundred and thirty one million, and forty two thousand pounds).**

Table 1: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Category of Property	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Circle Thirty Three Housing Trust Limited			
Freehold	6,741	£1,486,653,000	£431,510,000
Leasehold	508	£107,932,000	£22,522,000
Old Ford Housing Association Limited			
Freehold	546	£136,457,000	£39,310,000
Total	7,795	£1,731,042,000	£493,342,000

2.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,968 rented dwellings and retained equity in shared ownership dwellings as mentioned at **1.3** above, on the basis of

- Existing Use for Social Housing is **£1,232,984,000 (one billion, two hundred and thirty two million, nine hundred and eighty four thousand pounds).**

Table 2: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH

Category of Property	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Circle Thirty Three Housing Trust Limited		
Freehold	18,008	£906,029,000
Leasehold	417	£32,223,000
Old Ford Housing Association Limited		
Freehold	439	£32,826,000
Russet Homes Limited		
Freehold	4,104	£261,906,000
Total	22,968	£1,232,984,000

There are 2,462 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1.**

3. The Properties

3.1. The Properties

3.1.1. Location and Description

In total there are 33,225 properties comprised in the instruction. This total includes 2,462 nil value units leaving 30,763 units which are spread across the local authority areas detailed in **Table 3** below. The Properties are situated across seventy-three Local Authority areas.

Table 3: Stock Location

Local Authority	Type	Local Authority	Total
Babergh	1	Kings Lynn and West Norfolk	206

Kensington and Chelsea	29		
Total	**30,763**		

Source: the Original Borrowers

The stock is a mixture of houses and bungalows (59% of stock) and flats and maisonettes (41% of stock). The date of construction ranges from 1800 to 2015, with an average age of construction of 1976.

A selection of photographs is at **Appendix 3.**

The spread of the stock is shown by the map at **Appendix 2.**

3.1.2. Property Types

The properties comprise general needs, sheltered, supported, intermediate, keyworker, market rented and shared ownership. As can be seen from the table below 73% of the stock comprises general need properties let at social rent levels. The stock can be summarised by type and tenure as follows:

Table 4: Property Types and Tenure

Type	Houses & Bungalows	Flats & Maisonettes	Rooms	Total	%
General Needs – Social	14,901	7,550		22,451	73%
General Needs – Affordable	1,197	1,468		2,665	9%
Intermediate and Keyworker	20	323		343	1%
Market Rented	178	402		580	2%
Sheltered/Supported – Social	638	2,271	395	3,304	11%
Shared Ownership	719	701		1,420	5%
Total	**17,653**	**12,715**	**395**	**30,763**	**100%**

Source: the Original Borrowers

The properties comprise a range of property types. 3 bedroom houses are the most prevalent comprising over 26% of the stock with 1 bedroom flats comprising over 24% of the stock and being most prevalent in the case of flats.

Table 5: Property Types and Number of Bedrooms

Number of Bedrooms	Houses & Bungalows	%	Flats & Maisonettes	%	Rooms	%	Total	%
Room					395	1.23%	392	1%

Source: the Original Borrowers

Please refer to **Appendix 1** for a full list of the properties including full address and rental income.

3.1.3. Condition

As instructed, we have not carried out a structural survey. However, we can comment, without liability that during the course of our inspections for valuation purposes, we observed that the Properties appear to be generally in reasonable condition.

Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

The Properties are in the main considered to be of conventional construction for their age and type. Houses are mainly of solid brick, cavity brick or timber frame construction with roofs being mainly pitched and covered in slate or tile. Flats are mainly of cavity brick, metal or timber frame construction with roofs being pitched and covered in tile or are flat and believed to have an asphalt or metal type covering. The majority of the Properties have modern plastic gutters and downpipes.

A high proportion of the Properties have double glazed windows of timber, metal or UPVC casement type. The majority of the Properties benefit from all mains services and gas fired central heating systems supplying radiators.

However we would stress that we have not carried out structural or condition surveys and have relied upon our visual inspection. The Savills stock condition survey team during 2016 carried out a stock condition survey of the stock of the Original Borrowers which included 100% external and 50% internal inspections and we have adopted the results of this into our valuation. Apart from any matters specifically referred to in this report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

3.1.4. Services

No detailed inspections or tests have been carried out by us on any of the services or items of equipment, therefore no warranty can be given with regard to their purpose. We have valued the Properties on the assumption that all services are in full working order and comply with all statutory requirements and standards.

3.2. Environmental Considerations

3.2.1. Contamination

We have valued the portfolio on the assumption that the Properties have not suffered any land contamination in the past, nor are they likely to become so contaminated in the foreseeable future. However, should it subsequently be established that contamination exists at any Property, or on any neighbouring land, then we may wish to review our valuation advice.

3.2.2. Ground Conditions

We have assumed there to be no adverse ground or soil conditions and that the load bearing qualities of the site are sufficient to support the building constructed thereon.

3.2.3. Flooding

We are not aware of any flooding affecting the Properties and assume there is no history of flooding risk.

3.2.4. Radon Gas

Due to the geographical spread of the stock, we are unable to confirm whether the Properties are in a Radon Affected Area. Radon Protection Measures may be necessary for new properties or extensions to existing ones as described in publication BR211 by the Building Research Establishment.

3.2.5. Invasive Vegetation

Under the Wildlife and Countryside Act 1981 it is an offence to 'plant or otherwise cause Japanese Knotweed to grow in the wild', however the plant still remains prevalent in some areas. It is only possible to establish the presence of invasive vegetation such as Japanese Knotweed by a specific survey by suitably qualified specialist. From our limited inspection, we have no reason to suggest that such a survey is required in this instance, but should a survey subsequently find that our assumption in this respect is incorrect then we should be advised so that we may reconsider the implications for our valuation.

3.3. Town Planning

We have not made specific planning enquiries for each site. We have therefore assumed for the purposes of this Report, save as set out in the Properties Documents and copies of standard tenancy agreements and various planning agreements in respect of the Properties, that there are no planning conditions that would adversely affect the valuation.

3.4. Title and Tenure

3.4.1. Title

Our valuation reflects our opinion of value in aggregate of the freehold or long-leasehold interests (in each case) of the Properties owned by the Original Borrowers and identified by the subject of this Report and scheduled at **Appendix 1**.

In respect of each Property which we have valued on the basis on MV-STT we confirm that we have reviewed the Property Documents and confirm that each such Property can be disposed of on an unfettered basis (i.e. subject only to existing tenancies disclosed in the Property Documents but not subject to any security interest, option or other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

3.4.2. Tenancies

We have been supplied with example copies of the standard tenancy agreements of the Original Borrowers, all of which are in a standard format. Under the assured tenancy agreement, rent can be reviewed once a year to an open market level. The tenant has the usual rights of appeal to the local Rent Assessment Committee.

Under the secure tenancy agreement, rent is reviewed every 2 years with reference to the local Rent Officer.

3.4.3. Shared Ownership Leases

We have been supplied with a copy of the standard shared ownership lease which is granted for a term of 99 years. The leaseholder is responsible for all repairs. The leases allow staircasing by the leaseholders whereby they can purchase additional blocks of equity at market value.

The clauses of most importance to the valuer are the level of specified rent, which is set at the leases inception, and the rent review provisions. The rent review provisions in the shared ownership leases of the Original Borrowers have a variety of provisions, generally following accepted norms; older leases have an RPI plus 2%, RPI plus 1%. More modern leases will specify RPI or RPI plus 0.5%.

Full details of the rents payable and the equity held by the Original Borrowers are set out in **Appendix 1.**

3.5. Rental Income

The gross annual rental income currently produced by the Properties, before deductions, is shown in the following table broken down by tenure.

Table 6: Gross Rental Income (correct as at 31st March 2017)

Tenure Type	Gross Rent £
General Needs Social Rent	£129,141,000
General Needs Affordable Rent	£19,620,000
Sheltered / Supported Social Rented	£16,556,000
Market / Intermediate Rented	£8,406,000
Shared Ownership	£4,985,000
Total	**£178,708,000**

Source: the Original Borrowers

Average net rent levels, on a 52 week year basis, are shown below, as derived from the property schedule sent to us by the Original Borrowers.

Table 7: Rental Analysis 17/18 £ per week net

Tenure Type	No of Units	Average Net Rent £	Average Convergence Rent £	Average LHA £	Average Market Rent £
General Needs Social Rent	22,451	£110.62	£113.64	£192.16	£2394
General Needs Affordable Rent	2,665	£141.58	£141.44	£182.58	£222
Sheltered/Supported Social Rent	3,304	£96.36	£96.24	£143.52	£169
Total	**28,420**	**£111.86**	**£114.27**	**£185.63**	**£229**

West Midlands	-0.5%	2.0%	5.0%	3.5%	2.0%	12.0%

Source: Savills

National Overview

Volatility has made it hard to see what has really been going on in the housing market over recent months, with the Halifax and Nationwide indices moving equal amounts in opposite directions in June 2017. Average UK house prices increased 0.3% in July 2017 according to Nationwide, down from June's spike of 1.1% and almost back in line with the 0.4% average monthly growth reported between January 2014 and February 2017.

Surveyors' perceptions of price growth have eventually fallen back, with a much smaller majority reporting three month price rises in June 2017, compared to the previous nine months. This reflects the lack of growth shown in the main house price indices. The majority of surveyors also reported falling numbers of both buyer enquiries and vendor instructions for the fifth month in a row. These indicators suggest that activity within the market is subdued and likely to remain so for the rest of 2017 as weak economic indicators and political uncertainty affect sentiment in the market.

Weaker than anticipated GDP growth in Q2 2017, of 0.3%, hasn't helped, with lacklustre consumer spending acting as the main drag. The first six months of 2017 saw the lowest economic growth since 2012 and wage growth has remained low. More positively, Oxford Economics predicts that inflation has now peaked for 2017: CPI was 2.9% in May and 2.6% in June, as the one off effects of the Brexit vote started to fall out of the statistics. This combination of factors makes the short to medium term prospect of a base rate hike unlikely, keeping the negative effect that would have on house prices in the middle distance.

4.1.2. Local Market Conditions

In common with most of the UK, the housing market in the regions referred to below have suffered difficult market conditions and falling values from 2007 to 2009 as a result of poor economic conditions. The market began to recover in 2010, with average values surpassing those seen pre-recession, and has continued to increase gradually in recent years.

In terms of sales volumes, levels fell significantly between 2007 and 2009 before gradually increasing over the following years. Sales figures have failed to reach the highs seen prior to the recession with figures falling in 2016 due to uncertainty caused as a result of the EU referendum and stamp duty changes.

Local pricing will continue to be sensitive to particular streets and internal condition of units, however values throughout all locations have significant growth. HM Land Registry house price growth in the subject regions is shown in the tables below.

Table 9: Sales Volume and Average Property Price – East of England

Year	Sales Volume	Annual Change	Average Price	Annual Change
2012	80,498		£193,628	
2013	98,466	22%	£199,391	3%
2014	118,078	20%	£218,441	10%
2015	114,908	-3%	£239,758	10%
2016	81,884	-29%	£268,513	12%

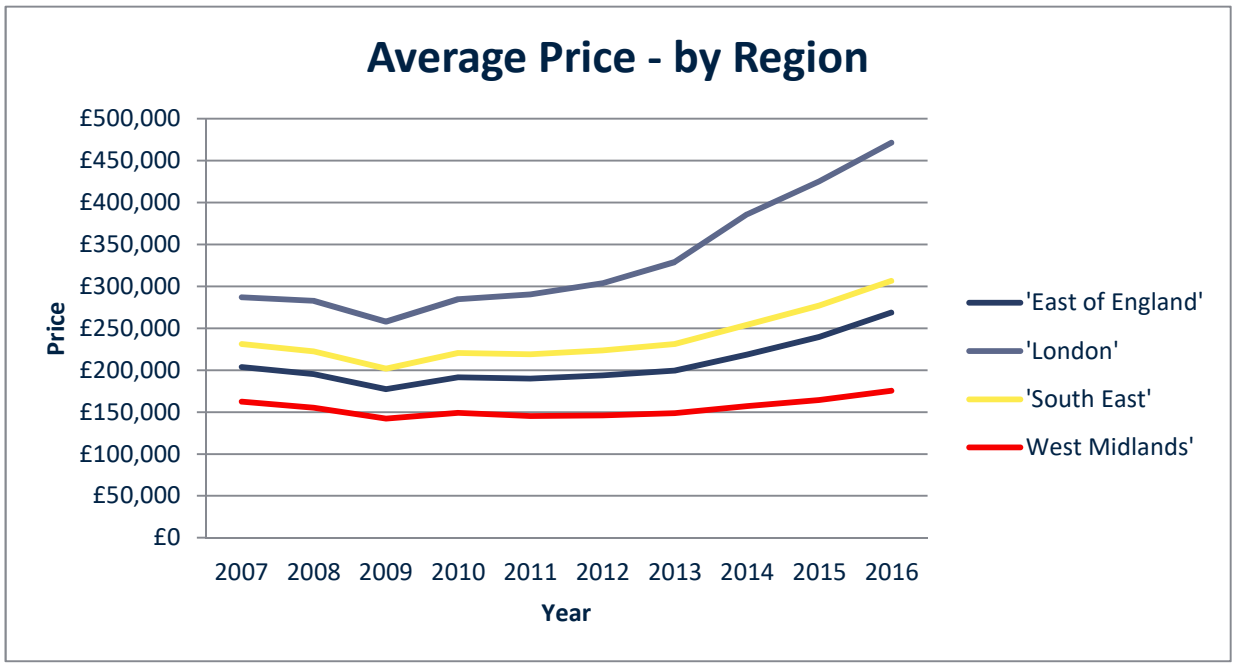
Chart 2: Average Property Price – London, South East of England, South East and West Midlands



Source: HM Land Registry

We have discussed the current market conditions with a number of local estate agents operating in the location of the properties. Most agents have experienced strong demand across the area from a range of purchaser types. Owner occupiers continue to be particularly interested in Victorian terraced houses. Likewise local buy to let investors active in the area and small developers looking for refurbishment opportunities reinforce this demand and often compete with young families for good houses. The lack of supply for this property type has had a strong influence on prices which has seen significant growth over the last 12 months.

Recent discussions with local agents suggests that the stock of properties on their books has increased in recent months however new instructions are not commanding as much interest as before the election and activity levels are generally down.

In the lettings market a shortage of supply means that prices continue to rise across the board. This is an issue that could worsen over the medium term as landlords are expected to decrease their portfolios over the next three years. Based on our knowledge of the rental market, we understand that rental prices will vary considerably depending on the exact location of each unit, as well as the internal quality and access to public transport. The ONS index of rents being paid continued in June 2017 to report annual rental growth of 1.8% across Great Britain.

4.1.3. Comparables

In order to provide market values and rental values we have used market sales and asking prices and achieved prices where available on properties in the immediate area to the subject units, including Rightmove, Rightmove plus and agents own websites and discussions with local agents where necessary.

We undertake detailed research into comparable sales and market lettings and details of these are kept on our files for audit purposes. We do not include comparables in our reports as some of this information is confidential and may be protected under the Data Protection Act.

All sale values were considered as open and not forced sales. To achieve values for resale research was undertaken using readily accessible sources that included:

- Determination of the area of similar properties related to market / social sector
- Land registry information on recent completed sales for the immediate post code and where necessary those of the adjoining areas
- Review of values for similar size and type of properties being marketed in the area of the actual location

A comparison between the particular size / quality / condition of the property viewed related to that of known sales values and those of what were being sought and a judgement made as to what could be considered as a fair actual value.

4.1.4. Vacant Possession Values

Table 13 below shows the average vacant possession values for the properties included within the valuation summarised by type and bedroom number:

Table 13: Vacant Possession Values

Type	Beds	No of Units	Average Indicative 100% VP £	Aggregate Vacant Possession Value £
Flat	0	280	£111,000	£30,959,000
	1	7,452	£220,000	£1,637,744,000
	2	4,089	£275,000	£1,123,500,000

Grand Total		**30,368**	**£232**	**£366,300,000**

Source: Savills - excludes units let as rooms and nil value units

4.1.6. Rental Market

The outlook for rents is stronger and more stable than for house prices over the next five years. Like the sales market, the rental market faces uncertainty. However, rental values are more closely linked with incomes than with measures that drive house price growth such as interest rates and mortgage availability. Rental growth will slow next year because of tightening affordability and the effects of Brexit. Greater uncertainty, higher inflation, and a weak pound will impact how much households can spend on rents. However, the barriers to home ownership remain high. Renting will remain the tenure of choice for younger households.

In many areas of London and the South East, affordability is already stretched. Rental growth in these markets will be supported by an increase in the number of sharers as well as income growth.

Below are the five year rental forecasts for the mainstream market as published by Savills research in February 2017:

Table 15: Rental Market Growth Forecast

Area	Year					
	2017	**2018**	**2019**	**2020**	**2021**	**5-year**
UK	2.5%	4.0%	5.0%	3.5%	3.0%	**19%**
Mainstream London	3.0%	4.5%	5.5%	5.0%	4.5%	**25%**

5. Valuation Approach

5.1. Existing Use Value For Social Housing - Valuation Approach

5.1.1. Approach to EUV-SH

EUV-SH for loan security assumes the property will be disposed of by a mortgagee in possession to another registered provider of social housing ("RP") who will continue the use of the properties for social housing. These organisations will calculate their bid according to their projected income and outgoings profile which they would estimate the properties would produce under their management. This basis assumes rents will remain affordable to those in low paid employment and that all vacant units will be relet on the same basis.

We consider that the appropriate method of valuation is to use a discounted cash flow ("DCF"). The DCF allows us to project rental income and expenditure over the term of the cash flow to arrive at an annual surplus or deficit, which is then discounted to a net present value. However it is also necessary to consider comparable transactional evidence where available.

5.1.2. Principal DCF Variables

The DCF assumptions are derived from information received from the RP and economic data. The table below sets out our principal assumptions. More detailed discussion on discount rate, adopted rent levels and rental growth is contained in the following sections.

Table 16: DCF Variables

DCF Variable	Amount	Year	Variable Unit	Source
Average Current rent	£108.75	Current	£ per week	The Original Borrowers
Maximum "convergence" rent	£108.75	Current	£ per week	The Original Borrowers
Affordable Rent	£141.51	Current	£ per week	The Original Borrowers
Adopted affordable "convergence" rent	£114.30	Current	£ per week	The Original Borrowers
Voids and bad debts	3.5%	All Years	% of Rent	The Original Borrowers / Savills
Turnover	2%-4%	All Years	% pa	The Original Borrowers / Savills
Management costs	£650-£850	All Years	£ per unit pa	The Original Borrowers / Savills
Cyclical & Responsive maintenance costs	£800-£850	All Years	£ per unit pa	The Original Borrowers / Savills
Programmed Maintenance costs	£1,272-£1,407	30 Year Average	Average £ per unit pa	The Original Borrowers / Savills
Rental Inflation	1%	All Years	% Real	Savills
Maintenance cost inflation	1.2, 0.0, 0.25,0.75,1.0	Yrs 1- 4, Yr 5+	% real pa	Savills
Programmed cost inflation	1.0,-2.25.-2.25,0.5, 0.5	Yrs 1- 4, Yr 5+	% real pa	Savills

5.1.3. Discount Rate

There is no hard-and-fast rule for determining the most appropriate rate to be adopted in a discounted cash flow. The discount rate is probably the most important variable in the model since it determines the net present value of future predicted income and expenditure flows for the property in question. Our role as valuers is to interpret the way in which potential purchasers of the stock would assess their bids. The market for this stock will be within the RP sector.

Effectively, the discount rate is representative of both the long-term cost of borrowing for an acquiring organisation and the risks implicit in the property portfolio concerned. The current level of long-term interest rates and the overall cost of funds must be reflected in our valuation. In addition to considering the cost of funds, we also need to make an allowance for the risk which attaches to our cashflow assumptions – some of which may be subject to a higher degree of risk than those generally made in the business plans. The margin for risk needs to be considered on a case-by-case basis, having regard to the nature of the stock.

Currently the yield on 30 year Gilts is around 1.82%. This is in effect the risk free discount rate. Yields on Housing Association long dated, rated and unrated bonds are typically around 2.75% to 3.25% (Source: Social Housing, July 2017). There has been limited activity in the Bond market so far this year with three public rated issues - Martlet Homes Limited (3%, May 2017), Pennaf Group (3.21% June 2017) and L&Q (2.75%, July 2017). The spreads above their reference gilt were 1.40%, 1.55% and 1.05%

The supply of traditional long term (25 or 30 year) funding has diminished and is only available from a handful of lenders. Shorter term traditional funding (5–7 years) and funding with in-built options to re-price margins at a future date are commonplace, introducing a new level of re-financing risk to business plans.

Notwithstanding this, new business plans are typically being run at nominal interest rates at 'all-in' long term cost of funds including margin of around 5%, reflecting the availability of long term finance from the capital markets but also future refinancing risk.

Given the sustained reduction in funding costs our view is that for good quality, generally non-problematical stock, a discount rate between 4.75% and 5.5% real is appropriate (over a long-term CPI inflation rate of 2%). A greater margin for risk will be appropriate in some cases. We would expect to value poorer stock at rates around 5.5% to 6.25% real. On the other hand, exceptional stock could be valued at rates around 4.25% to 4.75% real. We would stress our cashflows are run in perpetuity and not over 30 years.

We have adopted a discount rate of 5.0%-5.50% real over an assumed CPI inflation rate of 2.0% for the General Needs Social Rented units; 5.75%-6.25% for the General Needs Affordable Rented units, 6.0%-6.5% for the Sheltered/Supported Housing and 4.75%-5.25% real for the Shared Ownership units. This is the rate applied over the cashflow run in perpetuity. We consider this reflects the type, age, condition and geographical spread of the stock.

For your information our valuation implies a real discount rate over a 30 year cashflow of 3.5-5.0%.

5.1.4. Social Rents - Savills "Convergence" Rents and Rental Growth

RPs are required to set their Social Rents in accordance with the current Rent Standard issued by the HCA and revised in 2015, as amended by The Social Housing Rents Regulations 2016.

The Guidance and the Regulations set out a formula for calculating most Social rents which is:-

- 30% based on relative property values in January 1999
- 70% based on relative local earnings
- Combined with a bedroom factor to reflect property size

Some latitude is given in that a property's actual rent should, for general needs properties, be no more than 5% higher or lower than its formula level. For sheltered and supported properties the margin is extended to +10%. The rents produced by the formula are net of service charges. Service charges are expected to be charged over and above the rents and to reflect what is actually being provided to tenants.

Provisions introduced by the Welfare Reform and Work Act 2016 has modified the original rent increase provisions of the Rent Standard Guidance. Instead of increasing at CPI plus 1% per annum, rents for general needs properties will have to reduce by 1% each year from 2016 to 2019. Sheltered properties enjoy a one year exemption from the rent cuts.

Mortgagees in possession and their successors in title are exempted from the rent setting and increase/reduction provisions of the Rent Standard and the Welfare Reform and Work Act. In theory, therefore, a purchaser could base a bid for the properties on rents up to open market levels as permitted under the terms of the tenancy agreements. However any RP purchaser would need to set rents that are consistent with its objectives as a social housing provider.

We therefore believe that a purchaser in a competitive transaction is likely to set rents at a level which he considers are the maximum affordable to those in low paid employment locally. We assume they would intend to charge such rents for new tenants and increase existing rents to a sustainable and affordable rent over a reasonable period.

The average rents across the charged stock are set out below, along with the current formula rents and Savills' assessed sustainable affordable rent or "convergence" rent. We have adopted the convergence rents in our valuation.

Table 17: Rental Analysis 2017/18 £ per week net

Property Type	Average Income	Average Net Rent	Savills Convergence Rent	Savills Convergence Rent Afford. Ratio %	Market Rent	Average LHA
House	£499.33	£112.16	£112.16	£115.06	23.0%	£230.07
Flat/Maisonette	£409.51	£104.31	£104.31	£106.76	26.0%	£235.35
Totals	**£464.24**	**£109.09**	**£109.09**	**£111.81**	**24.0%**	**£232.14**

Source: The Original Borrowers & Savills Excludes Nil Value Units

We have assumed all rents will be affordable at our convergence rent. The annual rent increases have been limited to 3% per annum nominal.

In the long term, in order to maintain consistent levels of rent affordability, the maximum possible rate of rent growth will be growth in local household incomes which is currently predicted to be around 3.37% and 3.49% pa over the next 10 years in this area.

We have therefore assumed that after they have converged rents will increase at CPI + 1% per annum.

We have relied on the current and formula rents supplied by the Original Borrowers in carrying out this valuation. We have not carried out any validation or research into the rents supplied.

5.1.5. Affordable Rents

In certain circumstances, RPs are able to offer new assured tenancies at intermediate rents at up to 80% of the market rent – such rents are known as 'Affordable' as opposed to 'Social' rents. The ability to charge the higher rents is dependent upon the RP having a Development Framework contract with the HCA or a Short Form Agreement where they are not in the Development Framework.

There are currently 2,665 Affordable Rent units within the stock. The current average rent for these units is £141.58 per week. This is about 30% higher than the target rents on the same properties. They have been included in the valuation assuming continuance of their current levels of rent.

Under the Rent Standard the rents payable for Affordable Rent tenancies increases annually by CPI plus 1% per annum. Rents are rebased to market rent upon the granting of a new tenancy. Although the rent reduction provisions in the Welfare Reform and Work Act 2016 also apply to Affordable Rent tenancies, the exemptions for mortgagees and successors allow us to assume growth outside the regulatory regime if appropriate. Thus we have assumed that a purchaser from a mortgagee would increase existing Affordable Rents in line with movements in market rents over the long term.

Market rents tend to increase in line with household incomes. Income growth forecasts for the subject areas are currently 3.63% per annum. We have therefore assumed that rents will increase at CPI + 1% pa.

5.1.6. Sales Between Registered Providers – Transactional Evidence

Until recently evidence of sales between RPs was extremely limited – most transactions were simple transfers of engagements. However in recent years there has been a growing body of transactional evidence from competitive sales. The evidence confirms RPs have a consistent tendency to pay a higher sums for some social housing portfolios than would be suggested by traditional, purely cashflow driven, EUV-SH valuations. Savills has been heavily involved in this emerging market and has a database of transactions covering circa 22,000 units.

Although the body of evidence is relatively small compared to the total RP stock in the UK and the market is still immature, we are able to derive a view of the prices achieved for certain kinds of stock and lot sizes. Assuming a sensible lotting of units in smaller batches of circa 100 units, bids between 5% to 30% above traditional EUV-SH levels are common for more modern stock in reasonable proximity to amenities. In addition it can be seen that yields of between 4% and 10% are consistently achieved on such sales.

In contrast it is apparent that for lots exceeding around 300 properties the prices achieved appear to be in line with the traditional, cashflow approach to EUV-SH.

In this case you have instructed us to value the properties assuming a sale as a single lot and our valuations do not therefore reflect the higher bids that can be received for small portfolios.

5.2. Market Value Subject to Tenancies (MV-STT) - Valuation Approach

5.2.1. Valuation Methodology - MV-STT

We assess the MV-STT in two ways; firstly by applying a discount to Market Value with Vacant Possession ("MV-VP") and secondly by applying a yield to rental income.

The valuation of properties and portfolios subject to Assured and Secure tenancies is carried out with reference to comparable evidence from the sales of similar tenanted portfolios and individual units, and sold subject to Protected Tenancies or Assured Shorthold Tenancies. There is an established body of evidence from portfolios traded on the open market to which we can refer.

Investors tend to base their bid on their ability to "trade out" individual units at Market Value assuming vacant possession over time. In locations where there is a limited market or where a property is difficult to trade, owing to style or market conditions, investors will base their bid on rental return compared to capital cost.

The discount to MV-VP ranges from 10% for prime property to 50% where market conditions are difficult. Typical rates are around a 20% to 30% discount to MV-VP for properties subject to AST tenancies.

The yield applied to net income varies from 5% or less for prime property, to 7% or more for poorer locations. This equates to a yield on gross income (after deductions for management, maintenance & voids) of between 7% to 10% and possibly higher for Sheltered accommodation.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

5.2.2. Principal Assumptions – MV-STT

We have considered the above in arriving at our valuation. The yield and other principal assumptions adopted are set out below.

Table 18: MV-STT Assumptions

Variable	Variable	Year	Amount
Gross Annual Rental Income*	£	Current	£1,741,324
Voids	% of Rent Debit p.a.	All years	2.5 % - 3.5%
Management	% of Rent Debit p.a.	All years	8%-10%
Maintenance	% of Rent Debit p.a.	All Years	15%-20%
Net Yield Applied	%	All Years	5%-8%

Source: Savills

**Note: market rent assumed*

5.3. Shared Ownership - Valuation Approach

5.3.1. General

The Original Borrowers have 1,420 properties subject to Shared Ownership leases within the Portfolio of Properties. They retain around 58% of the equity in their units, overall. Please see **Appendix 1** for details of such properties, shares held and rental income produced.

5.3.2. Valuation Approach

Shared Ownership property produces a rental income dependant on the percentage owned by the leaseholder and the percentage retained by the lessee. As leaseholders have a stake in the property, arrears and default are comparatively rare and landlords can retrieve management costs. Maintenance does not erode rental income as the leaseholder is responsible.

Shared Ownership property thus produces good quality, low risk rental income on the share retained. In addition capital receipts can arise on the occurrence of default or when the leaseholder decides to acquire the whole or a portion of the remaining equity. This usually happens when they decide to sell and move on.

We use a discounted cashflow model designed for the valuation of Shared Ownership property which projects future rent and outgoings to arrive at a net present value. This cashflow can be tested with a variety of staircasing and default scenarios.

In this case we have assumed that the Original Borrowers recoup all service costs through service charges and that management income and the management charge equals the management expenditure. We have applied discount rates of 4.75%-5.25% real reflecting the very secure nature of Shared Ownership income.

5.3.3. Shared Ownership Valuations Principal DCF Assumptions

Our principal valuation assumptions are as follows:

Table 19: Shared Ownership Assumptions

Variable	Unit of Cost	Year
Discount rate	4.75%-5.25%	Year 1
Average rent	£116.10 pw, 100% before adjustments for share	Current
Management cost	£100-£150 pu pa	All Years
MV-VP	£240,000 average before adjustments for share	Current

Source: Savills

5.4. Valuation Considerations

5.4.1. Housing and Planning Act 2016

The recently passed Housing and Planning Act 2016 contains proposals to deregulate the housing sector which will give much greater freedom to housing providers to dispose of and manage their property assets. In particular, S.133 of the Housing Act 1988, which required consent to be obtained prior to disposal of transferred property, has been reviewed. Previously as a result of S.133, transferred property could only be valued at EUV-SH. Following the issue of regulations by the HCA, it should now be possible to value transferred properties at Market Value but only where lenders and legal title permit. Full legal due diligence would therefore need to be undertaken in the first instance.

The deregulation provisions contained in the Act could potentially also affect the value of social housing assets where valuations are undertaken on the basis of Existing Use Value for Social Housing – a valuation basis which seeks to reflect the value of the properties if sold within the sector. At present it is too early to tell how and if values will be affected and again we will need to consider the HCA regulations. Whether or not valuations on EUV-SH will change will depend on how housing providers respond to the changes and whether or not their behaviour, in relation to the management and disposal of their housing stock, alters. However if behaviour does change the impact on levels of EUV-SH is likely to be positive.

5.4.2. VPGA 10 – Matters that may give rise to Material Valuation Uncertainty

The Valuation Practice Guidance in the RICS Red Book - VPGA 10 - directs us to draw attention to situations where a reduced level of certainty should be attached to our valuations.

Following a serious fire at the Grenfell Tower apartment block in London on 14 June 2017, a number of enquiries have been commissioned to investigate the event, and it is likely that recommendations will be made as to the construction and management of similar properties. In the light of this, we are aware that market participants that may also be affected by the same or similar issues are reviewing details of construction, health and safety – and particularly fire prevention, mitigation and means of escape of similar properties.

Within the properties valued there are 1,222 units situated in high rise blocks of over 6 storeys. The EUV-SH value attributed to them is £68,347,000 and MV-STT value is £76,599,000.

At this point it is too early to assess the longer-term consequences. In the short-term, however, it is likely that potential investors and occupiers will be more cautious – and the liquidity and pricing of the subject property may be impacted. We would therefore draw your attention to the fact that, in the case of the subject property as at the date of our valuation, there is greater uncertainty concerning the valuation figure than would normally be the case. As a result we would strongly recommend that a specialist report is commissioned to examine all aspects of fire safety including (but not limited to) the cladding.

6. Valuations

6.1. Valuations

6.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Properties that may be disposed of by a mortgagee in possession at MV-STT, that is on an unfettered basis (meaning subject to existing tenancies but otherwise with vacant possession and not subject to any security interest, option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use) as referred to in paragraph **1.2** above.

Our opinion of value, in aggregate, of the 7,795 dwellings as mentioned at **1.2** above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£1,731,042,000 (one billion, seven hundred and thirty one million, and forty two thousand pounds)**.

Table 20: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Category of Property	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Circle Thirty Three Housing Trust Limited			
Freehold	6,741	£1,486,653,000	£431,510,000
Leasehold	508	£107,932,000	£22,522,000
Old Ford Housing Association Limited			
Freehold	546	£136,457,000	£39,310,000
Total	7,795	£1,731,042,000	£493,342,000

6.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,968 rented dwellings and retained equity in shared ownership dwellings as mentioned at **1.3** above, on the basis of

- Existing Use for Social Housing is **£1,232,984,000 (one billion, two hundred and thirty two million, nine hundred and eighty four thousand pounds).**

Table 21: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH

Category of Property	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Circle Thirty Three Housing Trust Limited		
Freehold	18,008	£906,029,000
Leasehold	417	£32,223,000
Old Ford Housing Association Limited		
Freehold	439	£32,826,000
Russet Homes Limited		
Freehold	4,104	£261,906,000
Total	22,968	£1,232,984,000

There are 2,462 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1.**

6.4. Summary of Freehold and Leasehold Properties

6.5. Lending Against MV-STT

With reference to **paragraph 6** on Tenure, it is essential that before lending on MV-STT the lender confirms that the development or valuation group is capable of being let at a Market Rent, or disposed of free from restrictions, should the lender take possession. If there are enforceable "Housing Restrictions" in title, planning approval, s.106 agreements or by separate Nomination agreements, that, for example, limit disposal to RPs only or binding contractual nominations then the correct relevant valuation basis is EUV-SH and not MV-STT.

We must also stress that it is up to the lender to assess the terms of the loan and the amount of lending based on the valuations herein. We have set out the current rental income at **Appendix 1** but make no warranty that the current income is sufficient to support lending against MV-STT either on individual valuation groups or against the whole portfolio.

It is up to the lender to assess what level of lending against MV-STT is prudent based on RP's Asset and Income Cover. Savills makes no recommendation of the maximum level of borrowing the owning RP is capable of supporting globally based on MV-STT.

6.6. Lotting and Value Disaggregation

We have valued the properties as a single lot. As a result we have not assessed individual valuations for each Property. We have, however, provided a disaggregation of the overall valuation figures by reference to the appropriate rent and these figures are shown on the property schedule at **Appendix 1**.

The lender must be aware that the per unit figures shown in the schedule should not be regarded as individual valuations of the Properties. They are provided as indicative figures for administrative purposes only.

7. Suitability, Liability & Confidentiality

7.1. Suitability as Loan Security

7.1.1. Lender's Responsibility

It is usual for a valuer to be asked to express an opinion as to the suitability of a property as security for a loan, debenture or mortgage. However, it is a matter for the lender to assess the risks involved and make its own assessment in fixing the terms of the loan, such as the percentage of value to be advanced, the provision for repayment of the capital, and the interest rate.

In this Report we refer to all matters that are within our knowledge and which may assist you in your assessment of the risk.

We have made subjective adjustments during our valuation approach in arriving at our opinion and whilst we consider these to be both logical and appropriate they are not necessarily the same adjustments which would be made by a purchaser acquiring the Properties.

Where we have expressed any reservations about any Property we have reflected these in the valuation figure reported. However it may be that the purchasers in the market at the time the property is marketed might take a different view.

7.1.2. Suitability as Security

We have considered each of the principal risks associated with the Properties within the context of the wider property market and these risks are reflected in our valuation calculations and reported figures as appropriate.

Overall, we consider that the Properties provide good security for a loan secured upon it, which reflects the nature of the Properties, our reported opinions of value and the risks involved.

7.2. Verification

This Report contains many assumptions, some of a general and some of a specific nature. Our valuations are based upon certain information supplied to us by others. Some information we consider material may not have been provided to us. All of these matters are referred to in the relevant sections of this Report.

We hope the above is acceptable for your purposes, should you have any queries, please do not hesitate to contact us.

Yours faithfully
For and on behalf of Savills Advisory Services Limited
